#### FOREWORD BY HONOURABLE MAYOR

The **Integrated Development Plan** (IDP) marks another step in Mhlontlo Municipality's on-going quest for increased quality service delivery. As opposed to just being a mechanistic madefor-the-shelf product, we want to continue to use this five-year plan (IDP 2022/2027) as the principal strategic planning instrument which guides and informs all decisions with regard to budgeting, planning, management and development, in the Mhlontlo Local Municipality. It is in that context that we will continue growing and giving life to our IDP as a means to create a community of fairness and opportunity for all our communities.

This reviewed Integrated Development Plan process (2024/2025) is built on past work, our experience in governing Mhlontlo Municipality, and the inputs of our citizens through ward-based needs analysis and continuous interaction. This further allows the Mhlontlo Municipal Council to address challenges and political priorities (Ruling Party Manifesto). While the review of the five-year plan is legislated in the MSA chapter 5, section 34, it is also critical for the Mhlontlo Municipal Council's planning that these plans (ward needs analysis) are annually updated and that we continue to communicate with our stakeholders through Intergovernmental Relations and Public Participation programmes.

The Mhlontlo Municipal Council does not discard the information contained in the 2022-2027 five-year IDP that was approved in 2022, but it is used as a baseline information for the development of this IDP. In essence, the five-year development plan is used as a tool to help realize the medium- to long-term objectives of the Mhlontlo Municipal Council.

The Mhlontlo Municipal Council will continue to use the IDP as a roadmap to help meet community needs, while ensuring continued growth, equality and empowerment of the poor. I trust that this IDP will serve to stimulate and synergize our partnership with our colleagues in Government, the people of Mhlontlo and all those who live, work and do business in our towns not by prescribing and regulating but by outlining a common vision of changing Mhlontlo to the better.

"Sisonke Sophumelela"

...... Cllr M Jara

Mayor

#### **REMARKS BY THE MUNICIPAL MANAGER**

Section 34 of the Municipal Systems Act 32 of 2000, chapter 5 requires municipal councils to adopt a single, inclusive and strategic plan for the development of the municipality. Integrated development planning is a dynamic, continuous process that must respond to changing circumstances, demands and municipal functions. The IDP review ensures that the municipality is flexible and responsive to needs of the community, without losing sight of the vision and long-term objectives of the Mhlontlo Municipality. The review of this five-year IDP will also ensures that the municipality's resources are directed at the delivery of basic needs and programmes that meet strategic development priorities.

The needs reflected in this IDP are based on public participation inputs from all stakeholders in the municipality and district. This review is undertaken to ensure and a certain progress registered in the previous circle of the IDP. When circumstances permit it becomes necessary to the municipality to take it as a baseline of our plan accordingly.

#### Alignment of IDP/Budget/Performance Management

During the previous circle of the IDP, both the performance (under the performance management system) and budget of the Mhlontlo Municipality were simultaneously aligned to the IDP. Although this coordinated assessment was done, challenges still remain discernible.

The strategic approach by the Mhlontlo Local Municipality underpins the alignment which includes that:

- The resources must maximize strategic objectives of Mhlontlo Local Municipality;
- The SDF must be the corner stone of the IDP;
- The IDP Strategy and Budget is output and outcome focused;
- The IDP Strategy must be aligned with NDP, PDP, DDP, DDM and B2B; and
- When everything is concluded we must be able to measure our performance.

The Municipality has maintained its rating of high (Credible IDP) in 2023/2024 assessment for the nineth time. The Municipality has received qualified on its Audit Opinion during 2022/2023 financial year. A lot needs to be done in order to achieve Clean Audit.

Let us all make a meaningful contribution towards the realization of integrated development plan and Clean Audit.

L. Ndabeni Municipal Manager

#### **EXECUTIVE SUMMARY**

An Integrated Development Plan, adopted by the Municipal Council, is the key strategic planning tool for the Municipal development. It is described by section 35(1) of the *Local Government Municipal Systems Act 32 of 2000.* 

- is a principal Strategic Planning instrument which guides and informs all planning and development and all decisions with regard to planning, management and development, in the Municipality;
- Binds the municipality in the exercise of its executive authority, except to the extent of any inconsistency between the municipalities and its integrated development plan and national or provincial legislation, in which case such legislation prevails.

This is the fourth and last review of its kind since the inauguration of the current Council that ushered in after 2021 Local Government Elections. It has been prepared in compliance and in line with the IDP Process Plan that was approved by Council on the 31<sup>st</sup> of August 2023. The IDP Process Plan defines the institutional mechanisms as well as a series of activities to be followed in the course of the development.

Mechanisms for public participation have been conducted wherein wards were given an opportunity to reprioritize their needs. Ward committees together with other stakeholders such as Traditional Authorities, business sector and NGO's also participate in the IDP Representative Forum which are convened and chaired by the Portfolio Head. National and Provincial Sector Departments, state owned organs, strategic partners of the Municipality such as the Provincial Office, as well as the OR Tambo District Municipality formed part of the IDP Strategic Planning Session. A detailed analysis of the state of development within the municipal area was carried out which confirmed the following:

- The Mhlontlo population has decreased and remains predominantly female and youthful. This reality requires the municipality to further strengthen development interventions that are targeted towards special programs such as children, youth, women, Elderly and people with disabilities.
- The number of households and density thereof has also decreased. A significant but related observation has been the dramatic decrease in the number of town houses which seemingly have been replaced by informal settlements. In planning the delivery of household services, town development and Human Settlement delivery, the municipality will take these dynamics into consideration.
- Approximately about 12.55% of the population is HIV positive and on ARV and 0.18% is not on ARVs. This means there is a light decrease compared to 11% of 2011. This also means that the scourge continues to pose a threat of reversing even the gains made by the municipality towards addressing its development deficits. Revamping the health system is thus of paramount importance to the municipality's fight against the spread of HIV and Aids as well as for a healthy population.

- Education and literacy levels remain considerably low. This challenge has the potential to completely undermine efforts to break the chain of intergenerational poverty.
- Although some improvements have been observed in the recent past, poverty and unemployment remain the most pressing challenge for the municipality.
- While more and more households are slowly gaining access to water, sanitation and human Settlement, backlog remains huge. The electricity backlogs have decreased since there was an intervention by Department of Energy.
- Although the Municipality is gaining more access to energy, it is not NERSA licensed, it has MoU with DOE and Eskom to supply electricity.

An analysis of the internal institutional arrangements, financial planning and management, and governance highlighted the following:

- Municipal administration continues to consolidate itself. Critical steps have been taken towards the establishment and revision of all institutional policies including the organisational performance management system. The Municipal Councilors are signing their code of conduct during their first council meeting and the officials are signing their code of conduct by the time they sign the employment contract.
- A critical vacancy of a Senior Manager Community Services has been left unfilled and our ability to retain staff has not improved.
- Challenges remain especially with respect of information and communication systems. There are noticeable attempts toward administration improvement;
- The municipal capacities to raise own revenue continues to pose a challenge to its financial viability. Grants and subsidies therefore continue to be our major source of income.
- In the previous year we have taken major steps towards addressing many
  of the issues raised by the Auditor General, things did not go well as the
  municipality maintained its audit of qualification with matters of
  emphases. Public participation systems and structures continue to form
  a strong pillar of our governance. Despite many challenges, ward
  committees and Traditional leaders remain functional while efforts to
  strengthen participation of the business sector continue to preoccupy us.

In addition, the municipality has managed to develop its own infrastructure atlas with the assistance of CSIR, and a municipal-wide Spatial Development Framework review has been completed and approved by the council. Spatial Planning and Land Use Management Act (SPLUMA) by-laws as developed with the assistance of Department of Rural Development and Land Reform and they were adopted by the council and were gazetted. Mhlontlo Local Municipality opted for District Tribunal due to budgetary constraints. Many of our sector plans have been reviewed during 2023/2024 financial year while the remainder will be reviewed during the current year.

Informed by the above analysis, a thorough development of our strategies has been carried out. From this, a municipal-wide scorecard with targets for the next year has

been developed which, in turn will lay the basis for the annual operational plan (SDBIP) and the performance agreements for the Municipal Manager and Senior Managers directly accountable to the Municipal Manager and Managers

Our key objectives over the medium term remain as follows:

- Eradicating basic service delivery backlogs
- Building a responsive and accountable municipal governance
- Accelerating the reduction of poverty and unemployment
- Growing the economy to insure prosperity for all

The objectives are to be supported by politically strong, transparent, responsive, administratively strong municipal governance. In this regard, this development will pay particular attention to the strengthening of public participation, Intergovernmental Relations and Operation Masiphathisane as these are the cornerstones of our developmental agenda.

#### CHAPTER ONE: DEVELOPMENT PROCESS

#### 1. Background and Legal Framework

The Constitution of the republic of South Africa, 1996 provides the legal requirements for the existence and functioning of the local sphere of government. In section 152(1) of the constitution directs local government to:

- a) Provide democratic and accountable government for local communities;
- b) Ensure the provision of services to the communities in a sustainable manner;
- c) Promote social and economic development;
- d) Promote safe and healthy environment and
- e) Encourage the involvement of communities and community organisations in the matters of local government.

Section 153 of the constitution of this republic further provides that the municipalities must:

Structure manages its administration, budgeting and planning process to give priority to the basic needs of the community and promote social and economic development of the communities and participate in the national programmes.

To give concrete expression to the constitutional provisions section 25(1) of the Local Government Municipal Systems Act (Act 32 of 2000) provides that, each municipal council must, within prescribes period after the start of its elected term, adopt a single, inclusive strategic plan for the development of the municipality. In section 34, of the Local Government Municipal Systems Act 32 of 2000, provides that, a municipality must review its Integrated Development Plan (IDP), annually in accordance with the assessment of its performance measurements in terms of section 41; and to the extent of changing circumstances so demand.

In compliance with the above legislative prescripts, the Mhlontlo Local Municipality hereby presents its fourth and the last IDP Review for the 2023/2024 term of office.

#### 2. The Institutional Arrangement

Within its powers and functions, and to enable it to exercise oversight to over the IDP review. The council approves the establishment of the IDP Steering Committee and IDP Representative Forum. In addition, and to allow the various stakeholders to an opportunity to access and review the process, the following structures were also approved.

|                             | <ul> <li>The Municipal Council serves as a highest decision-making body for the purpose of the IDP review. Its main role includes:</li> <li>Consideration and adoption of the process plan</li> <li>Consideration, adoption and approval of the Draft IDP</li> <li>Consideration, adoption and approval of the Final IDP.</li> </ul>   |  |  |
|-----------------------------|--|--|--|
| Executive Committee         | <ul> <li>As the senior governing body of the Municipality, they have to:</li> <li>Decide on the IDP Process Plan</li> <li>Responsible for the overall management, co-ordination and monitoring of the processes and drafting of the IDP or delegate this function to the Municipal Manager.</li> </ul>   |  |  |
| Councillors                 | <ul> <li>Councilors are the major link between the Municipal Government<br/>and the residents. Their role is to:</li> <li>Link the planning process with their respective constituencies</li> <li>Responsible for the organization of public consultation and<br/>participation meetings.</li> </ul>   |  |  |
| IDP Representative<br>Forum | <ul> <li>participation meetings.</li> <li>The IDP Representative Forum provides an organizational platform for external stakeholders to debating issues and contributing to finding of workable solutions to existing and competing community needs. This forum is chaired by the Portfolio Head on Research, Planning and Intergovernmental Relations and is responsible for:</li> <li>Providing a platform for effective representation of the views and opinions of the different interest grouping within Mhlontlo IDP Process;</li> <li>Participation of all municipal stakeholders in the processes of the Municipal Planning and decision making that affect their lives. Thus implementing the requirements of chapter four of the Municipal Systems Act (Act 32 of 2000);</li> <li>Giving input in the performance management process of the municipality</li> <li>The IDP Representative Forum consist of the following groupings and individuals: <ul> <li>Executive Committee Members</li> <li>Councillors</li> <li>Traditional Leaders</li> <li>Municipal Administration</li> <li>Ward Committees</li> <li>Community Development Workers</li> </ul> </li> <li>Government Departments and Parastatals: <ul> <li>Department of Rural Development and Agrarian Reform</li> <li>Department of Rural Development and Land Reform</li> <li>Department of Social Development</li> <li>Department of Justice and Correctional Services</li> <li>Department of Telecommunications and Post Office</li> <li>South African Police Services</li> <li>Department of Health</li> <li>Department of Home Affairs</li> <li>Department of Home Affairs</li> <li>Department of Fordice Services</li> <li>Department of Fordice Areas</li> </ul></li></ul> |  |  |

Page 15 of 325

|----------------------------|---|
|                            | <ul> <li>SASSA</li> <li>Non-governmental organisation</li> <li>Organised Youth</li> <li>Organised labour</li> <li>Farmers Association</li> <li>Community Police Forum</li> <li>Faith Based Organisation</li> <li>Business Forum</li> <li>Special Programmes</li> </ul>  |
| Steering Committee         | <ul> <li>The IDP Steering Committee serves as an organizational platform for the purpose of information exchange, debating and finding common ground on suitable technical solutions to key planning challenges.</li> <li>It is comprised of the following individuals: <ul> <li>Infrastructure Services Development</li> <li>Budget and Treasury</li> <li>Corporate Services</li> <li>Local Economic Development, Planning and Rural Development</li> <li>Community Services</li> <li>Research, Planning and Inter-governmental relations</li> <li>Special Programmes</li> <li>Disaster and Human Settlement</li> </ul> </li> <li>Invitation to participate in the IDP Steering Committee may also be extended to the OR Tambo District and CoGTA as well as key informants within the regional and District offices of Provincial operating within the Mhlontlo Local Municipality areas.</li> </ul> <li>The main responsibilities of the IDP Steering Committee are to: <ul> <li>Serve as platform for engaging internal municipal departments and debating of technical solutions to identify development challenges;</li> <li>Provide secretariat to the representative forum and issuing invitations and reminders for the scheduled meetings to ensure maximum participation;</li> <li>Give inputs on content issues and where necessary commission in-depth studies on particular issues then make informed recommendations on way forward;</li> <li>Define terms of reference of the IDP representative forum;</li> <li>Assist with technical inputs on the project task teams;</li> <li>Respond to comments from sector departments and facilitate communications;</li> <li>Comments on the draft and final reports;</li> <li>Municipal head of departments are also tasked to lead interdepartmental teams in investigating particular thematic issues relating to their line functions for purposes of this IDP process.</li> </ul> </li> |
| Community<br>Participation | <ul> <li>Broad stakeholder partnership is critical objective of the IDP.</li> <li>Community's interface within the IDP review process at various levels including by: <ul> <li>Participating in the IDP Representative Forum;</li> <li>Informing interest groups, communities and organisations on relevant planning activities and other outcomes;</li> </ul> </li> </ul>  |

| Provincial<br>Government, Local<br>Government, Sector<br>Departments and<br>Service Providers | <ul> <li>Analysis, determining priorities, negotiating and reaching consensus;</li> <li>Participating in the designing of project proposal and/or assessing them;</li> <li>Discussing and commenting on the draft IDP and budget;</li> <li>Ensuring that annual business plans and budgets are based on and linked to IDP;</li> <li>Monitoring performance in implementation of the IDP and budget; and</li> <li>Conducting meetings or workshops with groups, communities or organizations to prepare for and follow up on relevant planning activities.</li> </ul> The role of the sector departments in the IDP process is to: <ul> <li>Ensure horizontal alignment of the IDP of the Local and District with the province;</li> <li>Ensure vertical/sector alignment between Provincial Sector Department/Provincial Strategic Plans and IDP processs at District and Local level;</li> <li>Promote efficient financial management of provincial grants;</li> <li>Facilitate and monitor progress of the IDP process;</li> <li>Enable resolution of dispute related to IDP;</li> <li>Assist the Municipality in the IDP drafting process where required;</li> <li>Organize IDP related trainings where required; and</li> </ul> |
|---|---|
| IDP Manager   | <ul> <li>The role of the IDP Manager is to:</li> <li>Ensure preparation and adoption of the IDP process plan;</li> <li>Undertake overall management and coordination of the IDP preparation process;</li> <li>Ensure that relevant IDP structures are in place and are encouraged to contribute effectively to the drafting process;</li> <li>Ensure participation and involvement of all relevant role players, that timeframes are adhered to and the planning process is aligned to the framework plan of the OR Tambo District;</li> <li>Chair the IDP Steering Committee in the absence of the Municipal Manager and planning sessions; and</li> <li>Ensure that the IDP document is completed and tabled to the council for adoption and Submitted to the Office of the MEC.</li> </ul>   |

### SECTION 2: IDP DEVELOPEMENT PROCESS

# 2.1 Overview of Process Programme and time frames

| IDP PHASES            | KEY ISSUES                                     | TIMEFRAME                |
|-----------------------|--|--------------------------|
| Phase 0 (Preparation) | Development of the IDP<br>framework and Budget | 05 July – 31 August 2023 |
|                       | Process Plan                                   |                          |

| Phase 1 (Analysis)    | Review of the Status Quo 06 Sept – 13 Nov 2023 |                     |  |
|-----------------------|--|---------------------|--|
|                       | Report and priority issues                     |                     |  |
| Phase 2 (Strategic    | Review of objectives and 22-26 February 2024   |                     |  |
| formulation)          | strategies                                     |                     |  |
| Phase 3 (Projects)    | Indicators and basic project                   | 27-28 February 2024 |  |
|                       | implementation                                 |                     |  |
| Phase 4 (Integration) | Integration of programmes 27-28 February 2024  |                     |  |
|                       | and sector plans                               |                     |  |
| Phase 5 (Approval)    | Draft IDP and Budget 29 March 2024             |                     |  |
|                       | Final IDP and Budget                           | 31 May 2024         |  |

# 2.2 Addressing Comments on the Last IDP and Budget Development

The development will incorporate responses to the comments received from the MEC for Corporative Governance and Traditional Affairs (CoGTA), as well as the IDP and Budget Hearings for the 2022/2027 IDP and Budget development. Remarks by the Auditor General will also receive priority attention under the list of key issues for the 2024/2025 development.

# 2.3 Key Activities to Accomplish Outputs

The following is a summary of the key activities to be undertaken as part of the IDP and Budget development.

#### 2.3.1 Incorporation of Inputs from other Role Players

In developing the IDP and Budget for the coming five years of the term of the Council, the Municipality needs to assess the extent of impact that the IDP implementation has had on the achievement of development priorities. This includes conducting ward based planning for the next coming five years, including those initiated, or sponsored by different role-players within and outside of the municipal area.

#### 2.3.2 Review of Progress with Lessons for the Future

The starting point in understanding the current developmental situation is the development of the relevance, or fit of the strategies employed to achieve the set goals. Secondly, extent of implementation with regard to projects, programmes and services against IDP plans for the previous term must be determined. The bulk of this information will be sourced from secondary data (including previous annual reports).

The review of the organisational performance for the 2024/2025 financial year will also provide an opportunity to review progress for the purposes of the IDP development. This process requires the integration of the annual report preparation, as well as service audit processes. In addition to raw data, it is suggested a mechanism should be created which would allow the various directorates to provide remarks on lessons learned, and the implications such have for the future IDPs. The expected output of the above processes will be a comprehensive report on the state of development within the municipal area, as well as the organisational performance and service delivery audit which should be tabled for Council adoption.

#### 2.3.3 Core elements of the IDP preparation

The core elements of the IDP preparation correspond to the core functions of the municipalities as outlined in the MSA and other legislations. The core components of the IDP include:

• The municipal council's vision for the long term development of the municipality with

special emphasis on the municipality's most critical development and internal transformation needs:

- An assessment of the existing level of development in the municipality, which must include the identification of communities which do not have access to basic municipal services;
- The council's development priorities and objectives for its elected term, including its local economic development aims and its internal transformation needs;
- The council's development strategies which must be aligned with any national or provincial sector plans and planning requirements binding on the municipality in terms of legislation;
- A spatial development framework which must include the provision of basic guidelines for a land use management system for the municipality;
- The council's operational strategies;
- Applicable disaster management plans;
- A financial plan, which must include a budget projection for at least the next three years; and
- The key performance indicators and performance targets determined in terms of section 41 of Municipal Systems Act.

#### 2.3.4 Inclusion of New Information Where Necessary

Where necessary, the IDP must incorporate new areas that were left in the previous reviews and development. Among others, these may include:

- Alignment of the IDP with newly completed Mhlontlo policies and plans;
- Review of the strategic plan and municipal scorecard component of the IDP;
- The ongoing alignment of the Mhlontlo Performance Management System (PMS), in terms of Chapter 6 of the MSA, with the IDP;
- The update of the Financial Plan, the list of projects (both internal and external), and the capital investment framework;
- Incorporate final Ward Projects in term of Medium-Term Revenue and Expenditure Framework (MTREF); and
- The updating of the Ward Needs Register
- Alignment of IDP with Comprehensive Rural Development Programme (CRDP) and Back to Basics (B2B).

### SECTION 3: HORIZONTAL AND VERTICAL ALIGNMENT

# 3.1 Framework Plan

In terms of Chapter 5 and Section 26 of the MSA, districts are required to prepare and adopt a Framework Plan, which indicates how the district and Local Municipalities will align their IDPs. The Framework Plan provides the linkage and binding relationships to be established between the district and local municipalities in the district and in doing so, proper consultation, coordination and alignment of the review process of the district municipality and various local municipalities can be maintained.

There is proper alignment between the OR Tambo District's (ORTDM) and the Mhlontlo municipality's IDP is strength identified in the first IDP. The alignment between the two IDPs is especially important because of the ORTDM's role as a Water and Sanitation Authority (WSA).

# **3.2** Alignment with Plans of other Municipal Stakeholders

Alignment with stakeholders is essential in order that both the ORTDM and Mhlontlo's priorities are reflected in their project prioritisation process, and reflective of IDP projects. It is essential that a special IDP and Budget Alignment Working session be convened specifically for the purposes of effecting the alignment of the different stakeholders' programmes and agree on the process plan to avoid clash of activities. The Executive Committee and the Top Management of the Municipality should ideally lead the proposed workshop.

# **SECTION 4: PUBLIC PARTICIPATION IN THE IDP AND BUDGET PROCESS**

**4.1 IDP and Budget Stakeholder Map** Following a detailed stakeholder analysis, the Municipality has identified the following as constituting its primary stakeholders:

| Stakeholder              | Entity Name         | Role   |
|--------------------------|---------------------|--|
| Category                 |                     |  |
|                          | Municipal Council   | Council will serve as a final decision making<br>structure for purposes of this IDP Review process.<br>Its main role will be to:   |
|                          |                     | <ul> <li>Consider and adopt the process plan,</li> <li>Consider, adopt and approve the IDP,</li> <li>Consider, adopt and approve the Budget for this IDP</li> </ul>  |
|                          | Councillors         | Councillors are the major link between the municipal government and the residents. As such, their role is to:  |
| Internal<br>Stakeholders |                     | <ul> <li>Link the planning process to their constituencies<br/>and/or wards;</li> <li>Be responsible for organising public consultation<br/>and participation;</li> </ul>  |
|                          |                     | <ul> <li>Ensuring that the annual business plans and<br/>municipal budget are linked to and based on the<br/>IDP</li> </ul>  |
|                          | Executive Committee | <ul> <li>As the senior governing body of the Municipality, they have to:</li> <li>Decide on the IDP and Budget process plan;</li> <li>Be responsible for overall management, coordination and monitoring of the process and drafting of the IDP and Budget, or delegate this function to the municipal manager.</li> </ul> |
|                          |                     | The Municipal manager can delegate the function to any section 57 manager  |
|                          |                     | <ul> <li>Amongst others, the following responsibilities have been allocated to the IDP Manager:</li> <li>Ensure that the Process Plan is finalised and adopted by Council;</li> <li>Adjust the IDP according to the proposals of the</li> </ul>  |
|                          | IDP Manager         | <ul> <li>MEC;</li> <li>Identify additional role-players to sit on the IDP Stakeholder Forum;</li> <li>Ensure the continuous participation of role players;</li> </ul>  |
|                          |                     | <ul> <li>Monitor the participation of role players;</li> <li>Ensure appropriate procedures are followed;</li> <li>Ensure documentation is prepared properly;</li> <li>Carry out the day-to-day management of the IDP process;</li> </ul>   |

| Community<br>Stakeholders  | <ul> <li>Cooperative Sector</li> <li>Faith-Based<br/>Organisations</li> <li>Ward Committees</li> <li>Community<br/>Development<br/>Workers</li> <li>Traditional Leaders</li> <li>Organised Local<br/>Business Chamber</li> <li>Organised formal &amp;<br/>Informal Sector</li> <li>Organised farmers</li> <li>Organised farmers</li> <li>Organised labour</li> <li>Youth &amp; DPOs</li> <li>Women in</li> </ul> | <ul> <li>Respond to comments and enquiries;</li> <li>Ensure alignment of the IDP with other IDP's within the District Municipality;</li> <li>Co-ordinate the inclusion of Sector Plans into the IDP documentation;</li> <li>Co-ordinate the alignment of the Performance Management System (PMS) with the IDP;</li> <li>Submit the reviewed IDP to the relevant authorities.</li> <li>To represent interest and contribute knowledge and ideas in the planning process by:</li> <li>Informing interest groups, communities and organisations, on relevant planning activities and other outcomes</li> <li>Analysing, determine priorities, negotiate and reach consensus,</li> <li>Participating in the designing of project proposals and/or assess them,</li> <li>Discussing and comment on the draft IDP,</li> <li>Ensuring that annual business plans and budgets are based on and linked to the IDP, and</li> <li>Monitoring performance in implementation of the IDP;</li> <li>Conducting meetings or workshops with groups, communities or organisations to prepare for and follow up on relevant planning activities;</li> </ul> |
|----------------------------|--|--|
| District<br>Municipalities | Agriculture<br>OR Tambo DM   | <ul> <li>Prepare an IDP</li> <li>Adopt an IDP</li> <li>Provide support to poorly capacitated local municipalities</li> <li>Facilitate the compilation of a framework which will ensure coordination and alignment between local municipalities and the district</li> </ul>   |
| Provincial<br>Government   | <ul> <li>All Sector<br/>Departments</li> <li>Provincial State<br/>Agencies</li> </ul>  | <ul> <li>Provide relevant information on sector department's policies, programmes and budgets</li> <li>Contribute sector expertise and technical knowledge to the review of municipal policies and strategies</li> <li>Be guided by municipal IDPs in the allocation of resources at the local level CoGTA 's role is:</li> <li>Coordinate training</li> <li>Provide financial support and Provide general IDP guidance</li> <li>Monitor the process in the province</li> <li>Facilitate coordination and alignment between district municipalities</li> <li>Facilitate resolution of disputes between municipalities</li> </ul>   |

|                            |   | <ul> <li>Facilitate alignment of IDPs with sector<br/>department policies and programmes</li> <li>Assess IDPs</li> </ul>  |  |  |
|----------------------------|---|---|--|--|
| Technical<br>Support Teams | Service provider,<br>Strategic Partners | <ul> <li>An external service provider will be hired to assist<br/>on the following activities:</li> <li>Providing methodological/technical guidance to<br/>the IDP process;</li> <li>Facilitation of planning workshops;</li> <li>Documentation of outcomes of planning<br/>activities;</li> <li>Special studies or other product related<br/>contribution;</li> <li>Support to organised and unorganised groups<br/>and communities to more effectively engage in<br/>and contribute to the planning process and</li> <li>Ensure the IDP is aligned with provincial and<br/>national department's budget.</li> </ul> |  |  |

# 4.2 Community-Based Planning (CBP)

A fundamental and statutory component of the IDP and Budget process is community engagement and the public participation. Participation in the integrated development planning and Budget process is only one of the several arenas of participatory interaction between local government and citizens.

The municipality strives to improve the participation of stakeholders in the IDP and Budget processes. In this development, that municipality intends to employ a number of innovative measures, which are aimed at enhancing the effectiveness and quality of stakeholder participation. Pursuant to this endeavour, the municipality plans to roll out in earnest, the Community-Based Planning process.

CBP as a form of participation in the development of Mhlontlo LM IDP and Budget is seen within the context that it must be people-focused and empowering, led and owned by Ward Councillors and ward committee members, based on vision and strengths of the ward, and should be holistic and promote mutual accountability between elected public representatives, community and municipal administration. Through CBP, communities and stakeholders highlight and/or confirm their development priorities that should be included in the IDP in the form of projects, services and programmes.

# SECTION 5: ORGANISATIONAL ARRANGEMENTS

## 5.1 IDP and Budget Institutional and Management Arrangements

The following organizational management mechanisms will guide the IDP development process:

| Structure                            | Composition   | Terms of Reference   | Meeting Schedule   | Convenor             |
|--------------------------------------|---|--|--|----------------------|
| Municipal Council                    | All ward and PR councillors                           | Municipal Council is the final decision-making/approval of IDP and<br>Budget and will continuously monitor progress of the development and<br>implementation of its IDP and Budget.  | Every Three Months                                       | Speaker              |

#### 2.1 Mechanisms and Procedures for Public Participation

Section 19(3) of the Municipal Structures Act 117 of 1998 obliges the municipal councilmust develop mechanisms to consult the communities and community organisations in performing its functions and exercising its powers. Chapter four of the Municipal Systems Act 32 of 2000 makes provisions for the development of a culture of Public Participation. In Section 16(1), the Municipal Systems Act 32 of 2000 directs the municipalities to encourage and create conditions for the local community to participate in the affairs of the municipality including the preparation, implementation and review of its integrated development plan.

Pursuant to these legislative imperatives, a wide range of measures are aimed at enhancing public participation in the IDP review process in place. In the course of this review these measures have included conducting of ward-based planning, convening IDP representative forum and Mayoral Imbizo's.

#### 3. Policy and Legislative Frameworks

#### 3.1 The Medium-Term Strategic Framework (MTSF)

The MTSF is meant to guide planning and resource allocation across all the spheres of government. National and Provincial departments had to develop their five-year strategic plans and budget requirements taking into account the medium-term imperatives.

Similarly, informed by the MTSF and their 2016 mandates, municipalities are expected adopt their Integrated Development Plans in line with the National Medium-Term priorities. The MTSF is reviewed annually during the Mid-Term Cabinet Lekgoatla in the light of new developments and experience in the actual implementation.

The mandate of the ruling party identifies the following objectives:

- a) Social Cohesion and safe communities;
- b) A capable, ethical and developmental state;
- c) Economic Transformation and Job creation;
- d) A better Africa and the World;
- e) A capable, ethical and developmental state

Specific focus and attention was also given to local government, a critical focus area of the Ruling Party, and identified catalytic sectors namely: Energy, ICT, Transport and Water and Sanitation. To give effect to the above strategic objective, the MTSF identifies 10 priorities which government work must be centered around.

- a. Speeding up growth and transforming the economy to create decent work and sustainable livelihood;
- b. Massive programmes to build the economic and social infrastructure;
- c. Comprehensive rural development strategy linked to land and agrarian reform and food security;
- d. Strengthen the skills and human resource base-access to quality education;
- e. Improve health care to all South Africans;
- f. Intensify the fight against crime and corruption;
- g. Build cohesive, caring and sustainable communities;
- h. Pursuing African advancement and international relations;
- i. Sustainable resource management and use; and
- j. Building a developmental state including improving of public services.

The Manifesto and MTSF were further translated into 12 outcomes through which

government performance will be monitored: -

- a. Quality basic education;
- b. A long and healthy life for all South Africans;
- c. All people in South Africa are safe and feel free;
- d. Decent employment through inclusive economic growth;
- e. Skilled and capable workforce to support inclusive growth path;
- f. An efficient, competitive and responsive economic infrastructure network;
- g. Vibrant, equitable, sustainable rural communities contributing towards food security for all;
- h. Sustainable human settlements and improve quality of household life;
- i. Responsive, accountable, effective and efficient local government system;
- j. Protect and enhance our environmental assets and natural resources;
- k. Create a better South Africa, a better Africa and a better world; and
- I. An efficient, effective and development orientated public service and an empowered, fair and inclusive citizenship.

Although the outcome that relates specifically to the local government is outcome 9, the local government sphere has a role to play in all 12 outcomes as shown on the table below.

#### 3.2 12 Outcomes of Government

| Outcome 1: Improve the quality of basic education  |   |  |  |  |  |
|--|---|--|--|--|--|
| Outputs  | Key Spending Programmes   | Role of Local Government   |  |  |  |
| <ol> <li>Improve quality of teaching<br/>and learning.</li> <li>Regular assessments to<br/>track progress.</li> <li>Improve early childhood<br/>development.</li> <li>A credible outcome-focused<br/>accountability system.</li> </ol> | <ul> <li>Increase in the number of<br/>Funza Lushaka bursary<br/>recipients from 9300 to<br/>18100 over the 2011 MTEF.</li> <li>Assess every child in<br/>grades 3, 6, and 9 every<br/>year.</li> <li>Improve learning and<br/>teaching materials to be<br/>distributed to primary<br/>schools in 2014.</li> <li>Improve maths and science<br/>teaching.</li> </ul> | <ul> <li>Facilitate the building of new schools by:</li> <li>Participating in needs assessments</li> <li>Identifying appropriate land</li> <li>Facilitating zoning and planning process</li> <li>Facilitate the eradication of municipal service backlog in schools by extending appropriate bulk infrastructure and installing connections</li> </ul> |  |  |  |

| Outcome 2: Improve health an  | Outcome 2: Improve health and life expectancy  |  |  |  |  |  |
|---|--|--|--|--|--|--|
| Outputs   | Key Spending Programmes  | Role of Local Government   |  |  |  |  |
| <ol> <li>Increase life expectancy to<br/>58 for males and 60 for<br/>females</li> </ol> | <ul> <li>Revitalise primary health care</li> <li>Increase early antenatal</li> </ul> | <ul> <li>Many municipalities perform<br/>health functions on behalf of<br/>provinces</li> </ul>      |  |  |  |  |
| 2. Reduce maternal and child<br>mortality rates to 30-40 per<br>1000 births             | <ul><li>visits to 50%</li><li>Increase vaccine coverage</li></ul>                    | <ul> <li>Strengthen effectiveness of<br/>health services by<br/>specifically enhancing TB</li> </ul> |  |  |  |  |
| <ol> <li>Combat HIV/Aids and TB</li> <li>Strengthen health services</li> </ol>          | Improve hospital and clinic infrastructure   | treatments and expanding<br>HIV/Aids prevention and<br>treatments                                    |  |  |  |  |
| effectiveness   | Accredited health facilities   | Municipalities must continue   |  |  |  |  |
|   | Extended coverage of new<br>child vaccines   | to improve community<br>health services<br>infrastructure by providing                               |  |  |  |  |
|   | Extended HIV prevention     and treatment  | clean water, sanitation and<br>waste removal services.   |  |  |  |  |

| Increase prevention of mother-to-child transmission  |  |
|--|--|
| <ul> <li>School health promotion,<br/>increase school visits by<br/>nurses from 5% to 20%</li> </ul> |  |
| Enhance TB treatment   |  |

| Outcome 3: All people in South Africa are protected and feel safe   |  |   |  |  |
|---|--|---|--|--|
| Outputs   | Key Spending Programmes  | Role of Local Government  |  |  |
| <ol> <li>Reduce overall level of<br/>crime</li> <li>An effective and integrated<br/>criminal justice system</li> <li>Improve investor<br/>perceptions and trust</li> <li>Effective and integrated<br/>border management</li> <li>Improve perception of<br/>crime among the population</li> <li>Integrity of identity of<br/>citizens and residents<br/>secures</li> <li>Cyber-crime combated</li> </ol> | <ul> <li>Increase police personnel</li> <li>Establish tactical response<br/>teams in provinces</li> <li>Upgrade IT infrastructure in<br/>correctional facilities</li> <li>ICT renewal in justice<br/>cluster</li> <li>Occupation – specific<br/>dispensation for legal<br/>professionals</li> <li>Deploy SANDF solders to<br/>South Africa's borders.</li> </ul> | <ol> <li>Facilitate the development of<br/>safer communities through<br/>better planning and<br/>enforcement of municipal by-<br/>laws</li> <li>Direct the traffic control<br/>function towards policing<br/>high risk violations – rather<br/>than revenue collection</li> </ol> |  |  |

| Outcome 4: Decent Employment through inclusive economic growth  |   |   |  |
|---|---|---|--|
| Outputs   | Key Spending Programmes   | Role of Local Government  |  |
| <ol> <li>Faster and sustainable<br/>inclusive growth</li> <li>More labour-absorbing<br/>growth</li> </ol> | <ul> <li>Invest in industrial<br/>development zones</li> <li>Industrial sector strategies -<br/>automotive industry;</li> </ul> | <ul> <li>Create an enabling<br/>environment for investment<br/>by mainstreaming planning<br/>application process</li> </ul> |  |
| 3. Strategy to reduce youth unemployment  | <ul><li>clothing and textiles</li><li>Youth employment incentive</li></ul>  | Ensure proper maintenance<br>and rehabilitation of<br>essential services  |  |
| 4. Increase competitiveness to raise net exports and gross trade  | <ul> <li>Development training and<br/>systems to improve<br/>procurement</li> </ul>   | <ul> <li>infrastructure</li> <li>Ensure proper implementation of the EPWP</li> </ul>  |  |
| 5. Improve support to small business and cooperatives   | <ul> <li>Skills development and<br/>training</li> </ul>   | <ul><li>at municipal level</li><li>Design services delivery</li></ul>   |  |
| 6. Implement expanded public works programme  | <ul><li>Reserve accumulation</li><li>Enterprise financing support</li></ul>   | processes to be labour<br>intensive   |  |
|   | New phase of public works     programme   | Improve procurement<br>systems to eliminate<br>corruption and ensure value<br>for money                                     |  |
|   |   | Utilise community structures to provide services  |  |

| Outcome 5: A skilled and capable workforce to support inclusive growth   |  |  |  |  |
|--|--|--|--|--|
| Outputs  | Key Spending Programmes  | Role of Local Government   |  |  |
| <ol> <li>A credible skills planning<br/>institutional mechanism</li> <li>Increase access to<br/>intermediate and high-level<br/>learning programmes</li> <li>Increase access to</li> </ol> | <ul> <li>Increase enrolment in FET colleges and training of lectures</li> <li>Invest in infrastructure and equipment in colleges and technical schools</li> <li>Expand skills development</li> </ul>   | <ul> <li>Development and extend<br/>intern and work experience<br/>programmes in<br/>municipalities</li> <li>Link municipal procurement<br/>to skills development<br/>initiatives</li> </ul> |  |  |
| occupational – specific<br>programmes (especially<br>artisan skilled training)<br>4. Research, development and<br>innovation in human capital  | <ul> <li>Expand skins development<br/>learnerships funded through<br/>sector training authorities<br/>and National Skills Fund</li> <li>Industry partnership projects<br/>for skills and technology<br/>development</li> <li>National Research<br/>Foundation centres</li> </ul> |  |  |  |
|  | excellence and bursaries<br>and research funding   |  |  |  |

| Outcome 6: An efficient, competitive and responsive economic infrastructure network     |   |  |  |
|---|---|--|--|
| Outputs   | Key Spending Programmes   | Role of Local Government   |  |
| 1. Improve competitive and regulation   | An integrated energy plan<br>successful independent<br>power producers  | <ul> <li>Ring-fence water, electricity<br/>and sanitation functions so<br/>as to facilitate cost-reflecting</li> </ul> |  |
| 2. Reliable generation,<br>distribution and   | Passenger Rail Agency   | pricing of these services  |  |
| transmission of energy  | acquisition of rail rolling   | Ensure urban spatial plans   |  |
| 3. Maintain and expand road<br>and rail network, and energy<br>efficiency, capacity and | stock and refurbishment and<br>upgrade of motor coaches<br>and trailers | provide for commuter rail<br>corridors, as well as other<br>modes of public transport                                  |  |
| competitiveness of sea ports  | Increase infrastructure funding for provinces for the                   | Maintain and expand water<br>purification works and waste  |  |
| 4. Maintain bulk water infrastructure and ensure  | maintenance of provincial roads   | water treatment works in line with growing demand  |  |
| water supply  | Complete Gauteng Freeway  | Cities to prepare and receive  |  |
| 5. Information and  | Improvement Programme   | the developed public   |  |
| communication technology  | Complete De Hoop Dam  | transport function   |  |
| 6. Benchmark for each sector  | and bulk distribution   | Improve maintenance of   |  |
|   | Nandoni pipeline  | municipal road network   |  |
|   | Invest in broadband network     infrastructure                          |  |  |

| Outcome 7: Vibrant, equitable and sustainable rural communities and food security  |  |  |  |  |  |  |
|--|--|--|--|--|--|--|
| Outputs  | Key Spending Programmes  | Role of Local Government   |  |  |  |  |
| <ol> <li>Sustainable agrarian reform<br/>and improved access to<br/>markets for small farmers</li> </ol>                             | <ul> <li>Settle 7000 land restitution claims</li> <li>Redistribute 283 592ha of</li> </ul>   | Facilitate the development of<br>local markets for agricultural<br>produce                             |  |  |  |  |
| 2. Improve access to affordable and diverse food   | <ul><li>land use by 2014</li><li>Support emerging farmers</li></ul>  | <ul> <li>Improve transport links with<br/>urban centres so as to<br/>ensure better economic</li> </ul> |  |  |  |  |
| <ol> <li>Improve rural services and<br/>access to information to<br/>support live-hoods</li> <li>Improve rural employment</li> </ol> | <ul> <li>Soil conservation measures<br/>and sustainable land use<br/>management</li> </ul>   | <ul><li>integration</li><li>Promote home production to enhance food security</li></ul>                 |  |  |  |  |
| opportunities5. Enableinstitutional  | Nutrition education programmes   | Ensure effective spending of<br>grants for funding extension   |  |  |  |  |
| environment for sustainable<br>and inclusive growth  | <ul> <li>Improve rural access to<br/>services by 2014: -water -<br/>92% to 100% - Sanitation –<br/>69% to 100% - Refuse<br/>removal – 64% to 75% -<br/>Electricity – 81% to 92%</li> </ul> | of access to basic services  |  |  |  |  |

| Outcome 8: Sustainable human settlements and improved quality of household life   |   |   |  |  |  |  |
|---|---|---|--|--|--|--|
| Outputs   | Key Spending Programmes   | Role of Local Government  |  |  |  |  |
| <ol> <li>Accelerate housing delivery</li> <li>Improve property markets</li> </ol> | <ul> <li>Increase housing units built<br/>from 220 000 to 600 000 a<br/>year</li> </ul>   | <ul> <li>Cities must wait to be<br/>accredited for the housing<br/>function</li> </ul>  |  |  |  |  |
| 3. More efficient land<br>utilisation and release of<br>state owned land          | <ul> <li>Increase construction of<br/>social housing units to<br/>80 000 a year</li> </ul>  | ensure new housing<br>developments are in line with   |  |  |  |  |
|   | Upgrade informal settlement: 400 000 units by   | national policy on integrated<br>human settlement   |  |  |  |  |
|   | <ul><li>2014</li><li>Deliver 400 000 low-income houses on state owned land</li></ul>  | Participate in the<br>identification of suitable land<br>for social housing   |  |  |  |  |
|   | <ul> <li>Improve urban access to<br/>basic services: - water -<br/>92% to 100% - Sanitation -<br/>69% to 100% - Refuse<br/>removal - 64% to 75% -<br/>Electricity – 81% to 92%</li> </ul> | <ul> <li>Ensure capital budgets are<br/>appropriately prioritised to<br/>maximum existing services –<br/>water – 92% to 100% -<br/>Sanitation – 69% to 100% -<br/>Refuse removal – 64% to<br/>75% - Electricity – 81% to<br/>92%</li> </ul> |  |  |  |  |

| Outcome 9: A response and accountable, effective and efficient local government system           |  |   |  |  |  |  |
|--|--|---|--|--|--|--|
| Outputs  | Key Spending Programmes  | Role of Local Government  |  |  |  |  |
| <ul> <li>Differentiate approach to<br/>municipal financing,<br/>planning and support.</li> </ul> | <ol> <li>Municipal capacity- building<br/>grant.</li> <li>Systems improvement</li> </ol>                                   | <ul> <li>Adopt IDP planning<br/>processes appropriate to the<br/>capacity and sophistication<br/>of the municipality</li> </ul>   |  |  |  |  |
| <ul><li>Community work programme.</li><li>Support for human</li></ul>                            | 3. Financial management<br>(target: 100% unqualified<br>audits)  | Implement the community work programme  |  |  |  |  |
| settlements.<br>- Refine ward committee<br>model to deepen                                       | 4. Municipal infrastructure grant  | Ensure ward committees are<br>representative and fully<br>involved in community   |  |  |  |  |
| <ul><li>democracy.</li><li>Improve municipal financial administrative capacity.</li></ul>        | <ol> <li>5. Electrification programme</li> <li>6. Public transport &amp; systems<br/>grant</li> </ol>                      | consultation processes<br>around the ID, budget and<br>other strategic service<br>delivery issues   |  |  |  |  |
| <ul> <li>Single coordination window.</li> </ul>  | <ol> <li>Bulk infrastructure &amp; water<br/>grant</li> <li>Neighbourhood<br/>development partnership<br/>grant</li> </ol> | <ul> <li>Improve municipal financial<br/>and administrative capacity<br/>by capacity by competency<br/>norms and standards and<br/>acting against incompetence</li> </ul> |  |  |  |  |
|  | <ul> <li>9. Increase urban density</li> <li>10. Informal settlements upgrades</li> </ul>                                   | and corruption  |  |  |  |  |

| Outcome 10: Protection and enhancement of environmental assets and natural   |   |   |  |  |  |  |
|--|---|---|--|--|--|--|
| Outputs  | Key Spending Programmes   | Role of Local Government  |  |  |  |  |
| 1. Enhance quality and<br>quantity of water resources  | <ul> <li>National water resource<br/>infrastructure programme</li> </ul>  | Develop and implement<br>water management plans to  |  |  |  |  |
| <ol> <li>Reduce greenhouse gas<br/>emissions; mitigate climate<br/>change impacts; improve air<br/>quality</li> <li>Sustainable environmental</li> </ol> | <ul> <li>Expanded Public Works<br/>environmental programmes</li> <li>Biodiversity and<br/>conservation</li> </ul> | <ul> <li>reduce water losses</li> <li>Ensure effective maintenance and rehabilitation of infrastructure</li> </ul>              |  |  |  |  |
| <ul><li>4. Protect biodiversity</li></ul>  |   | <ul> <li>Run water and energy saving awareness campaigns</li> <li>Ensure development does not take place on wetlands</li> </ul> |  |  |  |  |

| Outcome 11: A better South Africa, a better and safer Africa and World                              |   |   |  |  |  |  |
|---|---|---|--|--|--|--|
| Outputs   | Key Spending Programmes   | Role of Local Government  |  |  |  |  |
| <ul> <li>Enhance Africa agenda and<br/>sustainable development</li> <li>Enhance regional</li> </ul> | <ol> <li>Proposed establishment of<br/>South African Development<br/>Partnership Agent</li> </ol> | <ul> <li>Ensuring basic infrastructure<br/>is in place and properly<br/>maintained</li> </ul> |  |  |  |  |
| <ul> <li>Reform global governance institutions</li> </ul>   | <ol> <li>Defence: peace support<br/>mechanisms</li> <li>Border control: upgrade</li> </ol>        | <ul> <li>Creating an enabling<br/>environment for investment</li> </ul>                       |  |  |  |  |
|   | inland ports of entry   |   |  |  |  |  |

|--|--|--|

| Outcome 12: A better South Africa, a better and safer Africa and World   |   |  |  |  |  |  |
|--|---|--|--|--|--|--|
| Outputs  | Key Spending Programmes Role of Local Governmen   |  |  |  |  |  |
| 1. Improve government performance  | Performance monitoring and evaluation   | Continue to develop performance monitoring and   |  |  |  |  |
| <ol> <li>Government wide<br/>performance and<br/>monitoring</li> <li>Conduct comprehensive<br/>expenditure review</li> <li>Celebrate cultural diversity</li> </ol> | <ul> <li>Stats SA: Census 2011 –<br/>reduce undercount</li> <li>Sport and Recreation:<br/>Support mass participation<br/>and school sport<br/>programmes</li> </ul> | <ul> <li>management system</li> <li>Comply with legal financial reporting requirements</li> <li>Review municipal expenditures to reduce wastage</li> </ul> |  |  |  |  |
|  |   | <ul> <li>Ensure councils behave in<br/>ways that restore trust in<br/>local government</li> </ul>  |  |  |  |  |

# 4.3 The Sustainable Development Goals (SDGs)

On September 25<sup>th</sup>, 2015, countries adopted a set of goals to **end Poverty, protect the planet and ensure prosperity for all** as part of the new development agenda. Each goal has its specific targets to be achieved over the next 15 years.

Over the next fourteen years, all countries will mobilise efforts to end all form of poverty, fight inequalities and tackle climate change, while ensuring that no one is left behind. The IDP, presents an opportunity to do replicate the global and national effort at the municipal level.

# 4.4 The National Development Plan (Vision 2030)

In 2009, when the current leadership of the country took office, two shortcomings were identified in the administration that needed immediate correction. One was the lack of performance monitoring mechanisms, to fill the monitoring gap, a Ministry and department responsible for performance monitoring and evaluation was established. The second was the need to introduce long-term planning so that government could align its policies with the long-term development plan. The intention was to move away from silos and narrow-minded planning and look at your country as one holistic entity that should develop comprehensively, in every corner. The Ministry for the National Planning Commission in the Presidency was established to full fill this task.

Expects in the areas: - economics, finance, social services, rural development, energy, public policy and governance, infrastructure development, urban and regional planning, education and training, health, agriculture and food security, climate change, local government and scenario planning were appointed to work with the Minister for National Planning Commission as commissioners. The team at National Planning Commission was tasked to produce reports on the range of issues that impact on the country's long-term development, such as water security, climate change, food security, energy security, infrastructure planning, human resource development, defence and security matters, the structure of the economy, spatial planning, demographic trends and so forth. The National Planning Commission conducted its work guided by the Constitution of the Republic, and the end results was the National Development Plan (NDP) which outlines what type of society the country must build. The National Development Plan offers a long-term perspective. It defines a desired destination and identifies the role of different sectors of society needs to play in reaching the goal.

The plan highlights the need to strengthen the ability of local government to fulfill its development role. Municipal Integrated Development Plan (IDPs) need to be used more strategically to focus attention on critical priorities in the NDP that relates to the mandate of the local government such as spatial planning, infrastructure and basic services. The municipal IDPs should therefore be used to focus on aspects of the NDP that fit within the municipality's core responsibilities. This way, the IDP process will become more manageable and the participation process more meaningful, thus helping to narrow the gap between the aspirations contained in these documents and what can actually be achieved.

# 4.5 Provincial Development plan

# Goal 1: An Inclusive, Equitable and Growing Economy

This goal emphasises a larger and more efficient provincial economy, increased employment, and reduced inequalities. This goal deals with: rural development; economic infrastructure; land reform; industry and enterprise support; and economic sector development. Proposals for priority interventions are district-specific.

#### Goal 2: A health population

This goal targets a healthy population through an improved healthcare system. The system should move from being hospital-centric to focusing on a primary care system that is integrated across primary, secondary, and tertiary levels. The proposals include: primary health care and strengthening of district health systems; improvement of leadership across the sector; infrastructure and facility improvement; health workforce planning and the social determinants of health.

#### Goal 3: An Educated, Innovative Citizenry

This goal seeks to ensure that people are empowered to define their identity, are capable of sustaining their livelihoods, living healthy lives and raising healthy families, developing a just

society and economy, and playing an effective role in the politics and governance of their communities. The proposals deal with: access to and quality of early childhood development; basic education and training, including foundation phase literacy and numeracy, mother-tongue education, teacher development, improved leadership, management and governance and infrastructure. For the post school education and training sector, it addresses adult education and training, community colleges, technical and vocational education training, universities and research and innovation.

#### **Goal 4: Vibrant, Cohesive Communities**

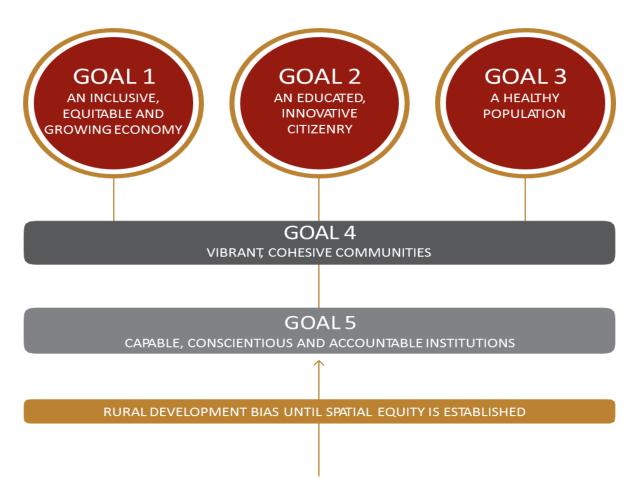

This goal seeks to generate a shift from a focus on state-driven housing delivery to one that that enables people to make their own decisions, build their own livable places and transform spatial patterns. The proposals deal with transformed human settlements, spatial planning and land use management, regional development, social infrastructure and community safety.

#### **Goal 5: Capable, Conscientious and Accountable Institutions**

This goal seeks to build capable, resilient and accountable institutions to champion rapid inclusive development. The proposals deal with the creation of capable provincial and local government; leadership renewal across society; citizen-centred development and multi-agency partnerships. Achievement of the vision is impossible without concurrent, systemic and continuous interaction between an inclusive and equitable economy, a healthy population, an educated, innovative citizenry, vibrant communities and capable, conscientious and accountable institutions. There are complex interrelations between the goals, as well as the objectives and strategic actions proposed in this plan. Given that over 70% of the population is rural, the fortunes of the province are inherently bound up with the future of its rural areas. While urbanisation is an undeniable trend, we estimate that the majority of the population will still be outside of the metropolitan areas in 2030. The Eastern Cape is set to remain a rural province for the foreseeable future and therefore rural development is a key priority and has been integrated into all of the goal areas.

# 4.6 District Development Plan (DDP)

The overall purpose of the OR Tambo Development Plan (Vision 2030) is to articulate development priorities of the District between 2017 – 2030 and beyond. The priorities and interventions were crafted to help achieve desired NDP/PDP linked outcomes and are informed by various national and provincial policies such as NDP (2012), the Eastern Cape Provincial Development plan (2014), Eastern Cape Economic Development Plan (PEDS 2016) and Eastern Cape Infrastructure Plan (2016). Embraces a host of current and planned major developments and initiatives in District IDP for 2017-2022. **Below** are the 5 and strategic Pillars of the DDP;

| 2030 Vision: A prosperous, vibrant, innovative and people-centered district   |
|---|
| Vision achieved through the realization of 5 Strategic Goals, accelerated in the short to medium term by 5 District |
| Catalytic Projects all driven by the following 3 Strategic Pillars and 3 Foundational Planks                        |

|     |                         |  | Human Development                                |   |  |  |  |
|-----|-------------------------|--|--|---|--|--|--|
|     |                         |  | <ul> <li>Education and Skills (Access</li> </ul> |   |  |  |  |
|     |                         | Inclusive Economic Development                                 | to quality ECD; Quality basic                    | Infrastructure & Basic Services                   |  |  |  |
|     |                         | <ul> <li>Primary Agriculture &amp; Agro-</li> </ul>            | education; Quality and                           | <ul> <li>N2 Wild Coast</li> </ul>                 |  |  |  |
|     |                         | industry (Wild Coast SEZ, Agri-                                | relevant post-school                             | <ul> <li>Mzimvubu Multipurpose</li> </ul>         |  |  |  |
|     |                         | parks, forestry)   | education and training (adult                    | Scheme  |  |  |  |

# 4.7 District Development Model (One plan)

Cabinet approved the DDM as an All of Government and Society Approach providing a method by which all three spheres of government and state entities work in unison in an impact-oriented way, where there is higher performance and accountability for coherent and effective service delivery and development outcomes.

The DDM aims to improve integrated planning and delivery across the three spheres of government in a spatially targeted way focused on the 52 district and metropolitan spaces as convergence points for all of government and private sector investment. The envisaged integrated planning and delivery in relation to district and metropolitan spaces will be enabled by joint planning, budgeting and implementation processes.

The DDM aims to improve integrated planning and delivery across the three spheres of government in a spatially targeted way focused on the 52 district and metropolitan spaces as convergence points for all of government and private sector investment. The envisaged integrated planning and delivery in relation to district and metropolitan spaces will be enabled by joint planning, budgeting and implementation processes.

The DDM focusses on implementation of immediate priority projects, stabilisation of local government and long-term institutionalisation of integrated planning, budgeting and delivery

anchored on the development and implementation of the "One Plan" in relation to each district and metropolitan space.

The DDM also focuses on building state capacity through the stabilization of Local Government with a view to improve cooperative governance, integrated planning and spatial transformation, and inclusive economic development where citizens are empowered to contribute and partner in development.

The DDM is anchored on the "One Plan". The "One Plan" is defined as an intergovernmental plan setting out a 25-30 years long-term strategic framework (consisting of short, medium and long-term actions) to guide investment and delivery in relation to each of the 52 district and metropolitan spaces. This plan for each space is to be jointly developed and agreed to by all three spheres of government.

# 4.8 Back to Basics

The Mhlontlo Local Municipality has adopted the Back-to-Basics programme local government. Immediate action must be taken by the municipality and government to make local government to deliver more efficiently on basic services including water and sanitation, electricity, human settlement and roads. The municipality has emphasized the need to deploy skilled and qualified staff into key municipal positions, strengthen accountability and political management. Government must also conduct a review of non-viable municipalities. The municipality must publicly and decisively deal with poor performance and corruption. We must be ever present amongst our people. We must serve our people with distinction not as merely an electoral act but as a matter of course. Constitution and other legislation spell out our responsibilities and tasks. Some municipalities perform well and others don't. An acceptable level of performance means that municipalities must:

- a. Put people and their concerns first and ensure constant contact with communities through effective public participation platforms. This is the essence of our 'back to basics' approach.
- b. Create conditions for decent living by consistently delivering municipal services to the right quality and standard. This includes planning for and delivery of infrastructure and amenities, maintenance and upkeep, including the budgeting to do this. Ensure no failures in services and where there are, restore services with urgency.
- c. Be well governed and demonstrate good governance and administration cut wastage, spend public funds prudently, hire competent staff, ensure transparency accountability.
- d. Ensure sound financial management and accounting, and prudently manage resources so as to sustainably deliver services and bring development to communities.

191 Issues Raised During 2018/2019 - 2022/2023 IDP Assessment

e. Build and maintain sound institutional and administrative capabilities, administered and managed by dedicated and skilled personnel at all levels.

# CHAPTER TWO: SITUATIONAL ANALYSIS

#### 5. Description of the Locality

#### 5.1 Location and Physical Attribution

It is bordered by King Sabata Dalindyebo Local Municipality to the South, Nyandeni Local Municipality to the East, both under OR Tambo District Municipality, Umzimvubu Local Municipality to the North, and Ntabankulu Local Municipality to the North East both under Alfred Nzo District Municipality and Elundini Local Municipality to the West which is under Joe Gqabi District Municipality. The Municipal Departments and Council Chambers are located in Qumbu with satellite offices in Tsolo. An official in a level of an Assistant Manager has been dedicated to manage the satellite offices in Tsolo.

Map 1: Mhlontlo Location

Source: Map Data 2017 AgriGIS

Mhlontlo Local Municipality was established in terms of Section 12 of the Local Government: Municipal Structures Act (Act 117 of 1998). As a result of this act, to Transitional Council, Qumbu TLC and Tsolo TLC and their respective Transitional council were integrated to form one municipality-Mhlontlo Local Municipality. It is one of the five municipalities that constitutes OR Tambo District Municipality which falls under the Province of the Eastern Cape. The municipal area covers 2,826km<sup>2</sup> and has a population density of 68,2901people per square km<sup>2</sup>.

# 6. Demography

"Demographics", or "population characteristics", includes analysis of the population of a region. Distributions of values within a demographic variable, and across households, as well as trends over time are of interest.

In this section, an overview is provided of the demography of the Mhlontlo Local Municipality and all its neighbouring regions, O.R. Tambo District Municipality, Eastern Cape Province and South Africa as a whole.

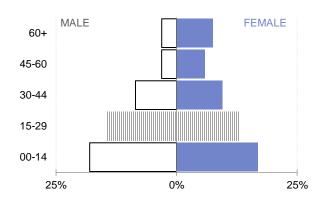

# 6.1 Total Population

Population statistics is important when analysing an economy, as the population growth directly and indirectly impacts employment and unemployment, as well as other economic indicators such as economic growth and per capita income.

#### Growth in population annual % change

|                | 2022 | 10 year avg. |
|----------------|------|--------------|
| Mhlontlo       | 0.6% | 0.3%         |
| National Total | 1.3% | 1.5%         |

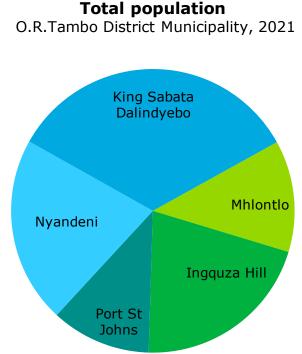

### Population pyramid: 2022

Source: South Africa Regional eXplorer v2404.

With 199 000 people, the Mhlontlo Local Municipality housed 0.3% of South Africa's total population in 2022. Between 2012 and 2022 the population growth averaged 0.3% per annum which is significantly lower than the growth rate of South Africa as a whole (1.50%). Compared to O.R. Tambo's average annual growth rate (1.03%), the growth rate in Mhlontlo's population at 0.13% was significantly lower than that of the district municipality.

CHART 1: TOTAL POPULATION – MHLONTLO AND THE REST OF THE OR TAMBO, 2021 [PERCENTAGE]

When compared to other regions, the Mhlontlo Local Municipality accounts for a total population of 199,000, or 12.7% of the total population in the O.R. Tambo District Municipality, with the King Sabata Dalindyebo being the most populous region in the O.R. Tambo District Municipality for 2021. The ranking in terms of the size of Mhlontlo compared to the other regions remained the same between 2011 and 2021. In terms of its share the Mhlontlo Local Municipality was significant smaller in 2021 (12.7%) compared to what it was in 2011 (13.9%). When looking at the average annual growth rate, it is noted that Mhlontlo ranked lowest (relative to its peers in terms of growth) with an average annual growth rate of 0.2% between 2011 and 2021.

#### 6.2 **Population Projections**

Based on the present age-gender structure and the present fertility, mortality and migration rates, Mhlontlo's population is projected to grow at an average annual rate of 0.3% from 199 000 in 2022 to 206 000 in 2026.

#### TABLE 2: POPULATION PROJECTIONS – MHLONTLO, OR TAMBO, EASTERN CAPE AND NATIONAL TOTAL, 2021 – 2026 [Numbers Percentage]

The population projection of Mhlontlo Local Municipality shows an estimated average annual growth rate of 0.3% between 2022 and 2026. The average annual growth rate in the population over the projection period for O.R. Tambo District Municipality, Eastern Cape Province and South Africa is 1.0%, 1.0% and 1.3% respectively. The Eastern Cape Province is estimated to have an average growth rate of 1.0% which is very similar than that of the Mhlontlo Local Municipality. The South Africa as a whole is estimated to have an average annual growth rate of 1.3% which is very similar than that of Mhlontlo's projected growth rate.

CHART 2: POPULATION PYRAMID – MHLONTLO LOCAL MUNICIPALITY, 2022 VS 2026 [percentage]

The population pyramid reflects a projected change in the structure of the population from 2022 and 2026. The differences can be explained as follows:

- In 2022, there is a significantly larger share of young working age people between 20 and 34 (23.7%), compared to what is estimated in 2026 (21.8%). This age category of young working age population will decrease over time.
- The fertility rate in 2026 is estimated to be slightly higher compared to that experienced in 2022.
- The share of children between the ages of 0 to 14 years is projected to be significant smaller (33.2%) in 2026 when compared to 2021 (35.3%).

In 2022, the female population for the 20 to 34 years age group amounts to 11.6% of the total female population while the male population group for the same age amounts to 12.1% of the total male population. In 2026, the male working age population at 11.2% still exceeds that of the female population working age population at 10.6%, although both are at a lower level compared to 2022.

# 6.3 Population by population group, Gender and Age

The total population of a region is the total number of people within that region measured in the middle of the year. Total population can be categorised according to the population group, as well as the sub-categories of age and gender. The population groups include African, White, Coloured and Asian, where the Asian group includes all people originating from Asia, India and China. The age subcategory divides the population into 5-year cohorts, e.g. 0-4, 5-9, 10-13, etc.

Source: IHS Global Insight 2022

|                        | Male    | Female  | Total     |
|------------------------|---------|---------|-----------|

# TABLE 3: POPULATION BY GENDER – MHLONTLO AND THE REST OF THE OR TAMBO DISTRICT MUNICIPALITY, 2022 [NUMBER]

Source: IHS Global Insight 2022

Mhlontlo Local Municipality's male/female split in population was 88.9 males per 100 females in 2021. The Mhlontlo Local Municipality has significantly more females (52.93%) than males, when compared to a typical stable population. This is most probably an area with high male out migration to look for work elsewhere. In total there were 105 000 (52.93%) females and 93 100 (47.07%) males. This is different from the O.R. Tambo District Municipality as a whole where the female population counted 826 000 which constitutes 53.17% of the total population of 1.55 million.

Source: IHS Global Insight 2022

In 2021, the Mhlontlo Local Municipality's population consisted of 99.20% African (196 000), 0.30% White (587), 0.25% Coloured (501) and 0.25% Asian (490) people.

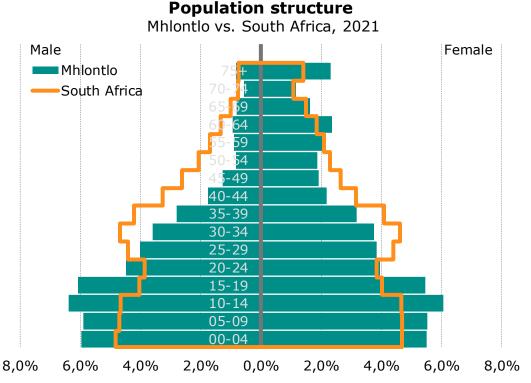

The largest share of population is within the babies and kids (0-14 years) age category with a total number of 69 900 or 35.3% of the total population. The age category with the second largest number of people is the young working age (25-44 years) age category with a total share of 25.2%, followed by the teenagers and youth (15-24 years) age category with 39 500 people. The age category with the least number of people is the retired / old age (65 years and older) age category with only 14 400 people, as reflected in the population pyramids below.

#### 6.4 Population Pyramid

**Definition:** A population pyramid is a graphic representation of the population categorised by gender and age, for the specific year and region. The horizontal axis depicts the share of people, where the male population is charted on the left-hand side and the female population on the right hand-side of the vertical axis. The vertical axis is divided in 5-year age categories.

With the African population group representing 99.2% of the Mhlontlo Local Municipality's total population, the overall population pyramid for the region will mostly reflect that of the African population group. The chart below compares Mhlontlo's population structure of 2019 to that of South Africa.

CHART 3: POPULATION PYRAMID – MHLONTLO LOCAL MUNICIPALITY VS SOUTH AFRICA, 2021 [PERCENTAGE]

Source: IHS Markit Regional eXplorer version 2257

By comparing the population pyramid of the Mhlontlo Local Municipality with the national age structure, the most significant differences are:

- There is a significant smaller share of young working age people aged 20 to 34 (23.7%) in Mhlontlo, compared to the national picture (25.8%).
- The area seems to be a migrant sending area, with many people leaving the area to find work in the bigger cities.
- Fertility in Mhlontlo is significantly higher compared to South Africa as a whole.
- Spatial policies changed since 1994.

The share of children between the ages of 0 to 14 years is significantly larger (35.3%) in Mhlontlo compared to South Africa (28.2%). Demand for expenditure on schooling as

percentage of total budget within Mhlontlo Local Municipality will therefore be higher than that of South Africa.

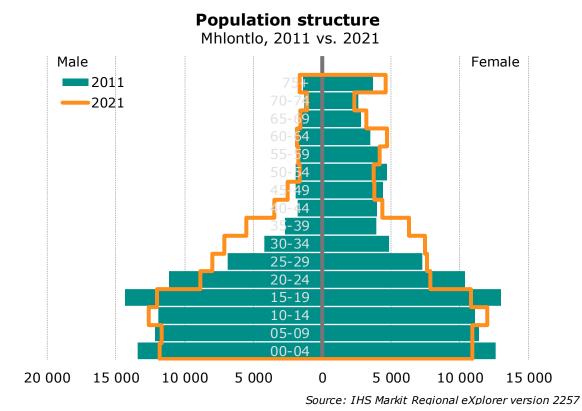

CHART 4: POPULATION PYRAMID – MHLONTLO LOCAL MUNICIPALITY, 2011 VS 2021 [PERCENTAGE]

When comparing the 2011 population pyramid with the 2021 pyramid for the Mhlontlo Local Municipality, some interesting differences are visible:

- In 2011, there were a slightly smaller share of young working age people aged 20 to 34 (22.9%) compared to 2021 (23.7%).
- Fertility in 2011 was significantly higher compared to that of 2021.
- The share of children between the ages of 0 to 14 years is significantly larger in 2011 (37.3%) compared to 2021 (35.3%).
- Life expectancy is increasing.

In 2021, the female population for the 20 to 34 years age group amounted to 11.6% of the total female population while the male population group for the same age amounted to 11.4% of the total male population. In 2011 the male working age population at 12.1% still exceeds that of the female population working age population at 11.6%.

# 6.5 Number of Households by Population Group

**Definition:** A household is either a group of people who live together and provide themselves jointly with food and or other essentials for living, or it is a single person living on his/her own. An individual is considered part of a household if he/she spends at least four nights a week within the household. To categorise a household according to population group, the population group to which the head

#### of the household belongs, is used.

If the number of households is growing at a faster rate than that of the population it means that the average household size is decreasing, and vice versa. In 2021, the Mhlontlo Local Municipality comprised of 46 000 households. This equates to an average annual growth rate of 0.13% in the number of households from 2011 to 2021. With an average annual growth rate of 0.15% in the total population, the average household size in the Mhlontlo Local Municipality is by implication increasing. This is confirmed by the data where the average household size in 2011 increased from approximately 4.3 individuals per household to 4.3 persons per household in 2021.

Source: IHS Global Insight 2022

Relative to the district municipality, the Mhlontlo Local Municipality had a lower average annual growth rate of 0.13% from 2011 to 2021. In contrast, the province had an average annual growth rate of 0.93% from 2011. The South Africa as a whole had a total of 16.6 million households, with a growth rate of 1.51%, thus growing at a higher rate than the Mhlontlo.

The composition of the households by population group consists of 99.1% which is ascribed to the African population group with the largest number of households by population group. The White population group had a total composition of 0.4% (ranking second). The Coloured population group had a total composition of 0.3% of the total households. The smallest population group by households is the Asian population group with only 0.3% in 2021.

CHART 5: NUMBER OF HOUSEHOLDS BY POPULATION GROUP – MHLONTLO LOCAL MUNICIPALITY, 2021 [PERCENTAGE]

# Number of Households by Population group Mhlontlo, 2021

Source: IHS Markit Regional eXplorer version 2257

The growth in the number of African headed households was on average 0.10% per annum between 2012 and 2022, which translates in the number of households increasing by 462 in the period. Although the Asian population group is not the biggest in size, it was however the fastest growing population group between 2012 and 2022 at 5.79%. The average annual growth rate in the number of households for all the other population groups has increased with 0.12%.

# 6.6 HIV+ and Aids Estimates

HIV and AIDS can have a substantial impact on the growth of a particular population. However, there are many factors affecting the impact of the HIV virus on population progression: adult HIV prevalence rates; the speed at which the virus progresses; age distribution of the virus; the mother-to-child transmission; child treatment; adult treatment; and the percentage by which the virus decreases total fertility. ARV treatment can also prolong the lifespan of people that are HIV+. In the absence of any treatment, people diagnosed with HIV live for approximately 10 years before reaching the final stage of the disease (called AIDS). When patients reach this stage, recovery is highly unlikely.

HIV+ and AIDS estimates are defined as follows:

The HIV+ estimates are calculated by using the prevalence rates from the HIV/AIDS model built by the Actuarial Society of Southern Africa (ASSA-2008). These rates are used as base rates on a provincial level. IHS slightly adjusted the provincial ASSA-2008 data to more accurately reflect the national HIV Prevalence rate per population group as used in the national demographic models. The ASSA model in turn uses the prevalence rates from various primary data sets, in particular the HIV/AIDS surveys conducted by the Department of Health and the Antenatal clinic surveys. Their rates are further adjusted for over-reporting

#### and then smoothed.

# TABLE 6: NUMBER OF HIV+ PEOPLE – MHLONTLO, OR TAMBO, EASTERN CAPE AND NATIONAL TOTAL, 2011 – 2021, [NUMBER AND PERCENTAGE]

In 2021, 23 300 people in the Mhlontlo Local Municipality were infected with HIV. This reflects an increase at an average annual rate of 1.20% since 2011, and in 2021 represented 11.76% of the local municipality's total population. The O.R. Tambo District Municipality had an average annual growth rate of 1.67% from 2011 to 2021 in the number of people infected with HIV, which is higher than that of the Mhlontlo Local Municipality. The number of infections in the Eastern Cape Province increased from 732,000 in 2011 to 879,000 in 2021. When looking at the South Africa as a whole it can be seen that the number of people that are infected increased from 2011 to 2021 with an average annual growth rate of 2.24%.

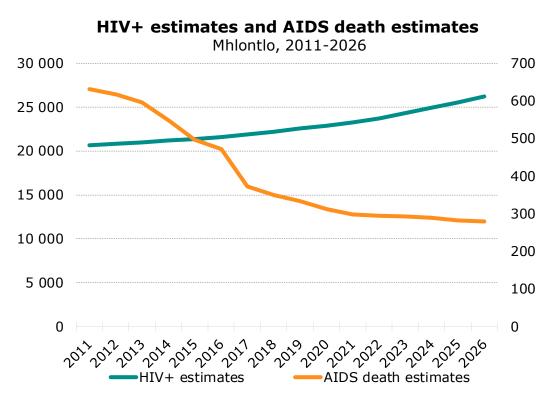

CHART 7: AIDS PROFILE AND FORECAST – MHLONTLO LOCAL MUNICIPALITY, 2011 TO 2026 [NUMBERS]

Source: IHS Markit Regional eXplorer version 2257

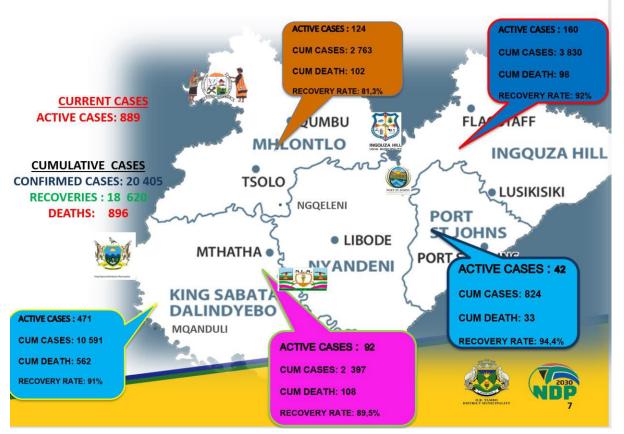

Presenting the number of HIV+ people against the number of people living with AIDS, the people with AIDS added up to 631 in 2011 and 299 for 2021. This number denotes an decrease from 2011 to 2021 with a high average annual rate of -7.21% (or -332 people). For the year 2021, they represented 0.15% of the total population of the entire local municipality.

#### 6.7 COVID-19 19 Pandemic

**COVID-19** is the name given by the World Health Organization (WHO) on February 11, 2020 for the disease caused by the novel **coronavirus** SARS-CoV2. It started in Wuhan, China in late 2019 and has since spread worldwide. **COVID-19** is an acronym that stands for coronavirus disease of 2019.

Current evidence suggests that transmission of SARS-CoV-2 occurs primarily between people through direct, indirect, or close contact with infected people through infected secretions such as saliva and respiratory secretions, or through their respiratory droplets, which are expelled when an infected person coughs, sneezes, talks or sings.

# 7. Economy

The economic state of Mhlontlo Local Municipality is put in perspective by comparing it on a spatial level with its neighbouring locals, O.R. Tambo District Municipality, Eastern Cape Province and South Africa.

The Mhlontlo Local Municipality does not function in isolation from O.R. Tambo, Eastern Cape Province, South Africa and the world and now, more than ever, it is crucial to have reliable information on its economy for effective planning. Information is needed that will empower the municipality to plan and implement policies that will encourage the social development and economic growth of the people and industries in the municipality respectively.

# 7.1 Gross Domestic Product by Region (GDP-R)

The Gross Domestic Product (GDP), an important indicator of economic performance, is used to compare economies and economic states.

**Definition:** Gross Domestic Product by Region (GDP-R) represents the value of all goods and services produced within a region, over a period of one year, plus taxes and minus subsidies.

GDP-R can be measured using either current or constant prices, where the current prices measures the economy in actual Rand, and constant prices measures the economy by removing the effect of inflation, and therefore captures the real growth in volumes, as if prices were fixed in a given base year.

Source: IHS Global Insight 2020

In 2021, the Mhlontlo Local Municipality achieved an annual growth rate of 3.91% which is a significant lower GDP growth than the Eastern Cape Province's 5.79%, but is lower than that

of South Africa, where the 2021 GDP growth rate was 4.91%. Similar to the short-term growth rate of 2021, the longer-term average growth rate for Mhlontlo (0.28%) is also significantly lower than that of South Africa (0.95%).

CHART 8: GROSS DOMESTIC PRODUCT (GDP) – MHLONTLO LOCAL MUNICIPALITY AND THE REST OF OR TAMBO DISTRICT, 2021 [PERCENTAGE]

# Gross Domestic Product (GDP)

The Mhlontlo Local Municipality had a total GDP of R 5.85 billion and in terms of total contribution towards O.R. Tambo District Municipality the Mhlontlo Local Municipality ranked second relative to all the regional economies to total O.R. Tambo District Municipality GDP. This ranking in terms of size compared to other regions of Mhlontlo remained the same since 2011. In terms of its share, it was in 2021 (10.5%) significant smaller compared to what it was in 2011 (11.8%). For the period 2011 to 2021, the average annual growth rate of 0.3% of Mhlontlo was the third relative to its peers in terms of growth in constant 2010 prices.

Source: IHS Global Insight 2020

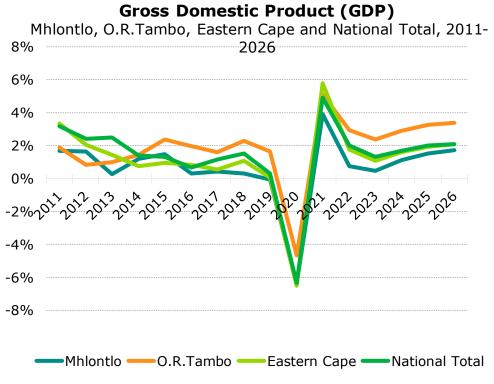

Source: IHS Markit Regional eXplorer version 2257

King Sabata Dalindyebo had the highest average annual economic growth, averaging 1.98% between 2011 and 2021, when compared to the rest of the regions within O.R. Tambo District Municipality. The Nyandeni Local Municipality had the second highest average annual growth rate of 0.72%. Ingquza Hill Local Municipality had the lowest average annual growth rate of -0.32% between 2011 and 2021.

### 7.1.1. Economic Growth Forecast

It is expected that Mhlontlo Local Municipality will grow at an average annual rate of 1.13% from 2021 to 2026. The average annual growth rate in the GDP of O.R. Tambo District Municipality and Eastern Cape Province is expected to be 2.96% and 1.69% respectively. South Africa is forecasted to grow at an average annual growth rate of 1.81%, which is higher than that of the Mhlontlo Local Municipality.

TABLE 10: GROSS DOMESTIC PRODUCT (GDP) – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2011 T0 2026, [AVERAGE ANNUAL GROWTH RATE, CONSTANT 2010 PRICES]

Source: IHS Markit Regional eXplorer version 2257

In 2026, Mhlontlo's forecasted GDP will be an estimated R 4.47 billion (constant 2010 prices) or 9.7% of the total GDP of O.R. Tambo District Municipality. The ranking in terms of size of the Mhlontlo Local Municipality will remain the same between 2021 and 2026, with a contribution to the O.R. Tambo District Municipality GDP of 9.7% in 2026 compared to the 10.6% in 2021. At a 1.13% average annual GDP growth rate between 2021 and 2026, Mhlontlo ranked the fourth compared to the other regional economies.

TABLE 12: GROSS VALUE ADDED (GVA) BY BROAD ECONOMIC SECTOR – MHLONTLO LOCAL MUNICIPALITY, 2021 [R BILLIONS, CURRENT PRICES]

Source: IHS Global Insight 2022

In 2021, the community services sector is the largest within Mhlontlo Local Municipality accounting for R 2.73 billion or 50.9% of the total GVA in the local municipality's economy. The sector that contributes the second most to the GVA of the Mhlontlo Local Municipality is the trade sector at 20.8%, followed by the finance sector with 13.3%. The sector that contributes the least to the economy of Mhlontlo Local Municipality is the mining sector with a contribution of R 15.4 million or 0.29% of the total GVA.

CHART 9: GROSS VALUE ADDED (GVA) BY BROAD ECONOMIC SECTOR – MHLONTLO LOCAL MUNICIPALITY, 2021, [PERCENTAGE COMPOSITION]

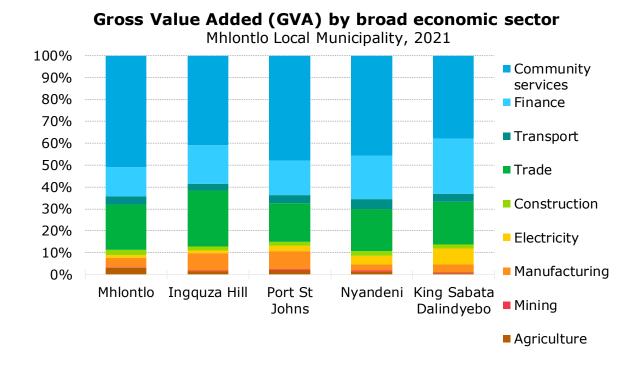

Gross Value Added (GVA) by broad economic sector Mhlontlo Local Municipality, 2021

The community sector, which includes the government services, is generally a large contributor towards GVA. When looking at all the regions within the O.R. Tambo District Municipality, it is clear that the King Sabata Dalindyebo contributes the most community services towards its own GVA, with 62.80%, relative to the other regions within O.R. Tambo District Municipality. The King Sabata Dalindyebo contributed R 34.6 billion or 67.56% to the GVA of O.R. Tambo District Municipality. The King Sabata Dalindyebo also contributes the most the overall GVA of O.R. Tambo District Municipality.

# 7.2.1 Historical Economic Growth

For the period 2021 and 2011, the GVA in the finance sector had the highest average annual growth rate in Mhlontlo at 2.28%. The industry with the second highest average annual growth rate is the community services sector averaging at 0.54% per year. The electricity sector had an average annual growth rate of -1.82%, while the construction sector had the lowest average annual growth of -2.77%. Overall a positive growth existed for all the industries in 2021 with an annual growth rate of 3.56% since 2020.

Source: IHS Global Insight 2022

The tertiary sector contributes the most to the Gross Value Added within the Mhlontlo Local Municipality at 88.7%. This is significantly higher than the national economy (70.0%). The secondary sector contributed a total of 8.0% (ranking second), while the primary sector contributed the least at 3.2%.

CHART 11: GROSS VALUE ADDED (GVA) BY AGGREGATE ECONOMIC SECTOR – MHLONTLO LOCAL MUNICIPALITY, 2021, [PERCENTAGE]

Gross Value Added (GVA) by aggregate sector Mhlontlo Local Municipality, 2021

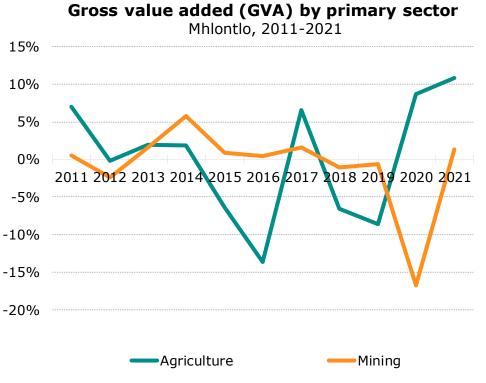

Source: IHS Markit Regional eXplorer version 2257

The following is a breakdown of Gross Value Added (GVA) by aggregate economic sector:

### 7.2.1.1 Primary Sector

The primary sector consists of two broad economic sectors namely the mining and the agricultural sector. The following chart represents the average growth rate in the GVA for both of these sectors in Mhlontlo Local Municipality from 2011 to 2021.

CHART 12: GROSS VALUE ADDED (GVA) BY PRIMARY SECTOR – MHLONTLO, 2011 – 2021, [ANNUAL PERCENTAGE CHANGE]

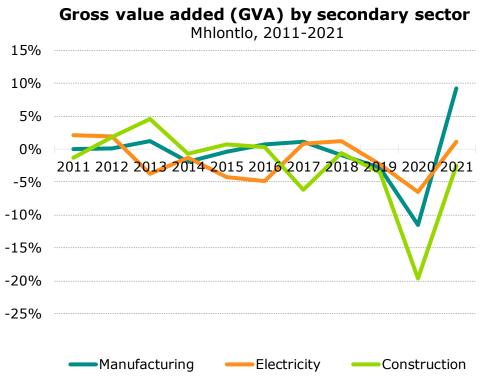

Source: IHS Markit Regional eXplorer version 2257

Between 2011 and 2021, the agriculture sector experienced the highest positive growth in 2021 with an average growth rate of 10.8%. The mining sector reached its highest point of growth of 5.8% in 2014. The agricultural sector experienced the lowest growth for the period during 2016 at -13.6%, while the mining sector reaching its lowest point of growth in 2020 at -16.7%. Both the agriculture and mining sectors are generally characterised by volatility in growth over the period.

# 7.2.1.2 Secondary Sector

The secondary sector consists of three broad economic sectors namely the manufacturing, electricity and the construction sector. The following chart represents the average growth rates in the GVA for these sectors in Mhlontlo Local Municipality from 2011 to 2021.

CHART 13: GROSS VALUE ADDED (GVA) BY SECONDARY SECTOR – MHLONTLO, 2011 – 2021 [ANNUAL PERCENTAGE CHANGE]

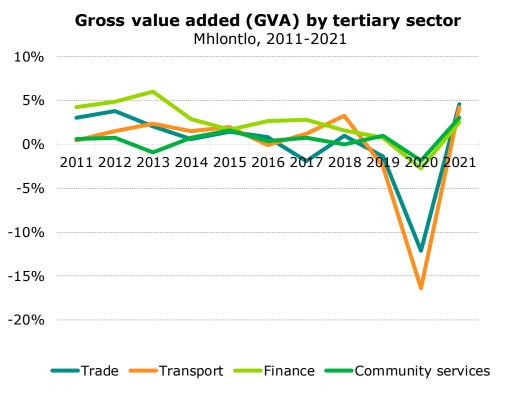

Source: IHS Markit Regional eXplorer version 2257

Between 2011 and 2021, the manufacturing sector experienced the highest positive growth in 2021 with a growth rate of 9.2%. The construction sector reached its highest growth in 2013 at 4.6%. The manufacturing sector experienced its lowest growth in 2020 of -11.5%, while construction sector also had the lowest growth rate in 2020 and it experiences a negative growth rate of -19.6% which is higher growth rate than that of the manufacturing sector. The electricity sector experienced the highest growth in 2011 at 2.1%, while it recorded the lowest growth of -6.5% in 2020.

# 7.2.1.3 Tertiary Sector

The tertiary sector consists of four broad economic sectors namely the trade, transport, finance and the community services sector. The following chart represents the average growth rates in the GVA for these sectors in Mhlontlo Local Municipality from 2011 to 2021.

CHART 14: GROSS VALUE ADDED (GVA) BY TERTIARY SECTOR – MHLONTLO, 2011 – 2021, [ANNUAL PERCENTAGE CHANGE]

Source: IHS Markit Regional eXplorer version 2257

The trade sector experienced the highest positive growth in 2021 with a growth rate of 4.6%. It is evident for the transport sector that the highest positive growth rate also existed in 2021 at 4.2% which is lower than that of the manufacturing sector. The finance sector experienced the highest growth rate in 2013 when it grew by 6.0% and recorded the lowest growth rate in 2020 at -2.7%. The Trade sector also had the lowest growth rate in 2020 at -12.1%. The community services sector, which largely consists of government, experienced its highest positive growth in 2021 with 3.0% and the lowest growth rate in 2020 with -1.9%.

# 7.2.2 Sector Growth Forecast

The GVA forecasts are based on forecasted growth rates derived from two sources: historical growth rate estimates and national level industry forecasts. The projections are therefore partly based on the notion that regions that have performed well in the recent past are likely to continue performing well (and vice versa) and partly on the notion that those regions that have prominent sectors that are forecast to grow rapidly in the national economy (e.g. finance and telecommunications) are likely to perform well (and vice versa). As the target year moves further from the base year (2010) so the emphasis moves from historical growth rates to national-level industry growth rates.

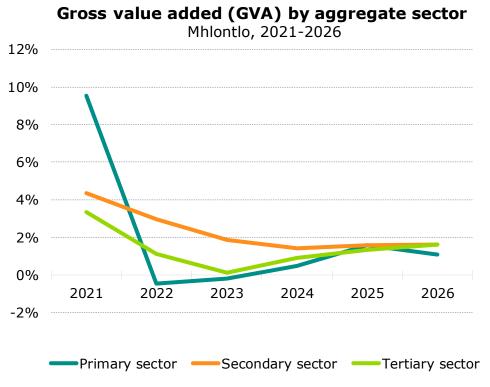

|                    | 2021    | 2022    | 2023    | 2024    | 2025    | 2026    | Average<br>Annual<br>growth |
|--------------------|---------|---------|---------|---------|---------|---------|-----------------------------|
| Agriculture        | 83.9    | 83.2    | 83.4    | 84.0    | 85.6    | 86.8    | <b>0.67</b> %               |
| Mining             | 12.1    | 12.4    | 12.0    | 11.9    | 11.8    | 11.7    | - <b>0.70</b> %             |

| Electricity        | 30.1    | 30.6    | 31.0    | 31.3    | 31.9    | 32.7    | <b>1.69</b> %               |
| Construction       | 96.1    | 99.2    | 102.5   | 104.9   | 107.2   | 109.7   | <b>2.69</b> %               |
| Trade              | 756.3   | 773.5   | 785.1   | 798.7   | 810.5   | 823.5   | <b>1.72</b> %               |
| Transport          | 169.2   | 171.3   | 172.9   | 174.9   | 178.0   | 181.5   | <b>1.42</b> %               |
| Finance            | 541.0   | 549.2   | 555.0   | 565.0   | 578.3   | 592.9   | <b>1.85</b> %               |
| Community services | 2,038.3 | 2,049.8 | 2,035.2 | 2,041.3 | 2,061.0 | 2,087.8 | <b>0.48</b> %               |
| Total Industries   | 3,899.1 | 3,946.6 | 3,956.4 | 3,993.1 | 4,047.6 | 4,111.9 | 1.07%                       |

# TABLE 14: GROSS VALUE ADDED (GVA) BY BROAD ECONOMIC SECTOR – MHLONTLO LOCAL MUNICIPALITY, 2021 TO 2026, [R MILLIONS, CONSTANT 2010 PRICES]

Source: IHS Global Insight 2022

The construction sector is expected to grow fastest at an average of 2.69% annually from R 96.1 million in Mhlontlo Local Municipality to R 110 million in 2026. The community services sector is estimated to be the largest sector within the Mhlontlo Local Municipality in 2026, with a total share of 50.8% of the total GVA (as measured in current prices), growing at an average annual rate of 0.5%. The sector that is estimated to grow the slowest is the mining sector with an average annual growth rate of -0.70%.

TABLE 15: GROSS VALUE ADDED (GVA) BY AGGREGATE ECONOMIC SECTOR – MHLONTLO LOCAL MUNICIPALITY, 2021 – 2026, [ANNUAL GROWTH RATE, CONSTANT 2010 PRICES]

Source: IHS Markit Regional eXplorer version 2257

The Primary sector is expected to grow at an average annual rate of 0.50% between 2021

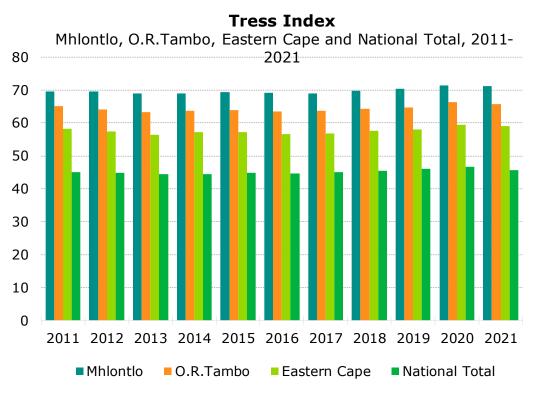

Page 70 of 325

and 2026, with the Secondary sector growing at 1.89% on average annually. The Tertiary sector is expected to grow at an average annual rate of 1.01% for the same period.

#### 7.3 Tress Index

**Definition: Definition:** The Tress index measures the degree of concentration of an area's economy on a sector basis. A Tress index value of 0 means that all economic sectors in the region contribute equally to GVA, whereas a Tress index of 100 means that only one economic sector makes up the whole GVA of the region.

CHART 15: TRESS INDEX – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTALS, 2011 – 2021, [NUMBERS]

Source: IHS Markit Regional eXplorer version 2257

In 2021, Mhlontlo's Tress Index was estimated at 71.1 which are higher than the 65.8 of the district municipality and higher than the 65.8 of the Province. This implies that - on average - Mhlontlo Local Municipality is less diversified in terms of its economic activity spread than the province's economy as a whole.

The Mhlontlo Local Municipality has a concentrated community services sector.

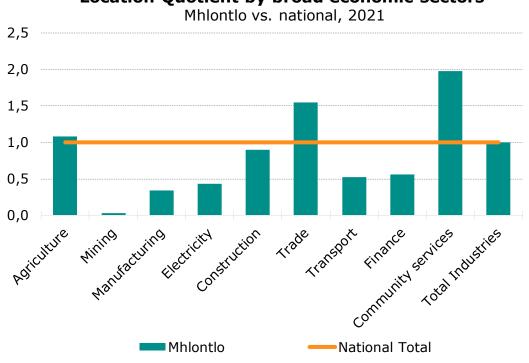

# 7.4 Location Quotient

**Definition:** A specific regional economy has a comparative advantage over other regional economies if it can more efficiently produce the same good. The location quotient is one way of measuring this comparative advantage.

If the location quotient is larger than one for a specified sector within a region, then that

region has a comparative advantage in that sector. This is because the share of that sector of the specified regional economy is greater than the same sector in the national economy. The location quotient is usually computed by taking the percentage share of the sector in the regional economy divided by the percentage share of that same sector in the national economy.

CHART 16: LOCATION QUOTIENT BY BROAD ECONOMIC SECTORS - MHLONTLO LOCAL MUNICIPALITY AND SOUTH AFRICA, 2021, [NUMBERS]

# Location Quotient by broad economic sectors

For 2021 Mhlontlo Local Municipality has a very large comparative advantage in the community services sector. The trade sector also has a very large comparative advantage. The agriculture also has a comparative advantage when comparing it to the South Africa economy as a whole, although less prominent. The Mhlontlo Local Municipality has a comparative disadvantage when it comes to the mining and manufacturing sector which has a very large comparative disadvantage. In general mining is a very concentrated economic sector. Unfortunately, the Mhlontlo Local Municipality area currently does not have a lot of mining activity, with an LQ of only 0.0336.

# 8. Labour

The labour force of a country consists of everyone of working age (above a certain age and below retirement) that are participating as workers, i.e. people who are actively employed or seeking employment. This is also called the economically active population (EAP). People not included are students, retired people, stay-at-home parents, people in prisons or similar institutions, people employed in jobs or professions with unreported income, as well as discouraged workers who cannot find work.

### TABLE 16: WORKING AGE POPULATION IN MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2011 AND 2021 [NUMBER]

Source: IHS Global Insight 2022

The working age population in Mhlontlo in 2021 was 114 000, increasing at an average annual rate of 0.42% since 2011. For the same period the working age population for O.R. Tambo District Municipality increased at 1.32% annually, while that of Eastern Cape Province increased at 1.14% annually. South Africa's working age population has increased annually by 1.51% from 33.9 million in 2011 to 39.4 million in 2021.

The graph below combines all the facets of the labour force in the Mhlontlo Local Municipality into one compact view. The chart is divided into "place of residence" on the left, which is measured from the population side, and "place of work" on the right, which is measured from the business side.

#### CHART 17: LABOUR GLIMPSE - MHLONTLO LOCAL MUNICIPALITY, 2021

Reading the chart from the left-most bar, breaking down the total population of the Mhlontlo Local Municipality (198 000) into working age and non-working age, the number of people that are of working age is about 114 000. As per definition, those that are of age 0 - 19 (youth) or age 65 and up (pensioners) are part of the non-working age population. Out of the working age group, 41.8% are participating in the labour force, meaning 47 400 residents of the local municipality forms currently part of the economically active population (EAP). Comparing this with the non-economically active population (NEAP) of the local municipality: fulltime students at tertiary institutions, disabled people, and those choosing not to work, sum to 66 000 people. Out of the economically active population, there are 29 200 that are unemployed, or when expressed as a percentage, an unemployment rate of 61.6%. Up to here all the statistics are measured at the place of residence.

On the far right we have the formal non-Agriculture jobs in Mhlontlo, broken down by the primary (mining), secondary and tertiary industries. The majority of the formal employment lies in the Tertiary industry, with 9 750 jobs. When including the informal, agricultural and domestic workers, we have a total number of 19 500 jobs in the area. Formal jobs make up 57.7% of all jobs in the Mhlontlo Local Municipality. The difference between the employment measured at the place of work, and the people employed living in the area can be explained by the net commuters that commute every day into the local municipality.

#### 8.1 Economically Active Population (EAP)

The economically active population (EAP) is a good indicator of how many of the total working age population are in reality participating in the labour market of a region. If a person is economically active, he or she forms part of the labour force.

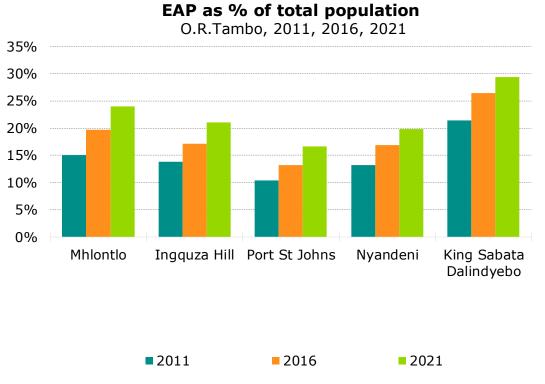

**Definition:** The economically active population (EAP) is defined as the number of people (between the age of 15 and 65) who are able and willing to work, and who are actively looking for work. It includes both employed and unemployed people. People, who recently have not taken any active steps to find employment, are not included in the measure. These people may (or may not) consider themselves unemployed. Regardless, they are counted as discouraged work seekers, and thus form part of the non-economically active population.

# TABLE 17: ECONOMICALLY ACTIVE POPULATION (EAP) – MHLONTLO. OR TAMBO, EASTERN CAPE, NATIONAL TOTALS, 2011-2021 [NUMBER, PERCENTAGE]

|               | Mhlontlo           | O.R.Tambo     | Eastern<br>Cape | National<br>Total | Mhlontlo as<br>% of district<br>municipality | Mhlontlo<br>as % of<br>province | Mhlontlo<br>as % of<br>national |

Mhlontlo Local Municipality's EAP was 47 400 in 2021, which is 23.98% of its total population of 198 000, and roughly 13.00% of the total EAP of the O.R. Tambo District Municipality. From 2011 to 2021, the average annual increase in the EAP in the Mhlontlo Local Municipality was 4.89%, which is 0.0869 percentage points lower than the growth in the EAP of O.R. Tambo's for the same period.

CHART 18: EAP AS % OF TOTAL POPULATION – MHLONTLO AND THE REST OF OR TAMBO, 2011, 2016, 2021, [PERCENTAGE]

Source: IHS Markit Regional eXplorer version 2257

In 2011, 15.1% of the total population in Mhlontlo Local Municipality were classified as economically active which increased to 24.0% in 2021. Compared to the other regions in O.R. Tambo District Municipality, King Sabata Dalindyebo Local Municipality had the highest EAP as a percentage of the total population within its own region relative to the other regions. On the other hand, Port St Johns Local Municipality had the lowest EAP with 16.6% people classified as economically active population in 2021.

#### 8.1.1 Labour Force Participation Rate

**Definition:** The labour force participation rate (LFPR) is the Economically Active Population (EAP) expressed as a percentage of the total working age population.

The following is the labour participation rate of the Mhlontlo, O.R. Tambo, Eastern Cape and National Total as a whole.

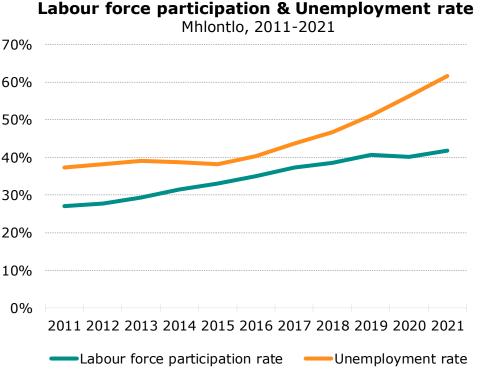

|      | Mhlontlo | O.R.Tambo | Eastern Cape | National Total |  |  |  |
|------|----------|-----------|--------------|----------------|--|--|--|
| 2011 | 27.1%    | 28.1%     | 42.2%        | 53.9%          |  |  |  |
| 2012 | 27.7%    | 28.4%     | 42.5%        | 54.3%          |  |  |  |
| 2013 | 29.3%    | 29.8%     | 43.8%        | 55.2%          |  |  |  |
| 2014 | 31.4%    | 31.7%     | 45.6%        | 56.6%          |  |  |  |
| 2015 | 33.0%    | 33.1%     | 47.0%        | 57.7%          |  |  |  |
| 2016 | 35.0%    | 35.0%     | 48.5%        | 58.8%          |  |  |  |
| 2017 | 37.4%    | 37.0%     | 50.2%        | 59.5%          |  |  |  |
| 2018 | 38.5%    | 37.9%     | 50.9%        | 59.4%          |  |  |  |
| 2019 | 40.6%    | 39.7%     | 52.3%        | 59.4%          |  |  |  |
| 2020 | 40.1%    | 38.8%     | 51.5%        | 57.0%          |  |  |  |
| 2021 | 41.8%    | 40.1%     | 52.4%        | 56.3%          |  |  |  |

### TABLE 18: THE LABOUR FORCE PARTICIPATION RATE – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2011 – 2021, [PERCENTAGE]

Source: IHS Global Insight 2022

The Mhlontlo Local Municipality's labour force participation rate increased from 27.05% to 41.80% which is an increase of 15 percentage points. The O.R. Tambo District Municipality increased from 28.11% to 40.08%, Eastern Cape Province increased from 42.15% to 52.36% and South Africa increased from 53.90% to 56.33% from 2011 to 2021. The Mhlontlo Local Municipality labour force participation rate exhibited a higher percentage point change compared to the Eastern Cape Province from 2011 to 2021. The Mhlontlo Local Municipality had a lower labour force participation rate when compared to South Africa in 2021.

CHART 19: LABOUR FORCE PARTICIPATION AND UNEMPLOYMENT RATES – MHLONTLO LOCAL MUNICIPALITY, 2011 – 2021, [PERCENTAGE]

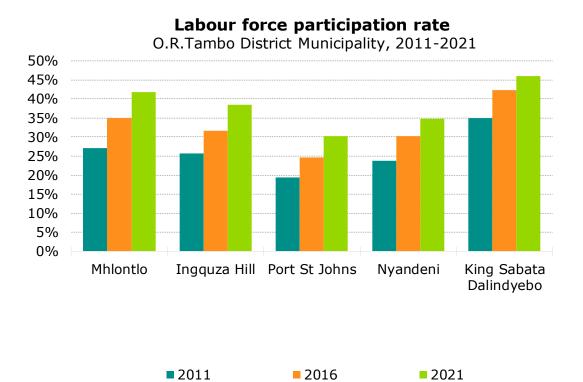

Source: IHS Markit Regional eXplorer version 2257

In 2021 the labour force participation rate for Mhlontlo was at 41.8% which is significantly higher when compared to the 27.1% in 2011. The unemployment rate is an efficient indicator

Page 77 of 325

that measures the success rate of the labour force relative to employment. In 2011, the unemployment rate for Mhlontlo was 37.3% and increased overtime to 61.6% in 2021. The gap between the labour force participation rate and the unemployment rate decreased which indicates a negative outlook for the employment within Mhlontlo Local Municipality.

CHART 20: THE LABOUR FORCE PARTICIPATION RATE – MHLONTLO AND THE REST OF OR TAMBO, 2016 AND 2021 [PERCENTAGE]

Source: IHS Markit Regional eXplorer version 2257

King Sabata Dalindyebo Local Municipality had the highest labour force participation rate with 46.0% in 2021 increasing from 34.9% in 2011. Port St Johns Local Municipality had the lowest labour force participation rate of 30.3% in 2021, this increased from 19.5% in 2011.

#### 8.2 TOTAL EMPLOYMENT

Employment data is a key element in the estimation of unemployment. In addition, trends in employment within different sectors and industries normally indicate significant structural changes in the economy. Employment data is also used in the calculation of productivity, earnings per worker, and other economic indicators.

<u>Definition:</u> Total employment consists of two parts: employment in the formal sector, and employment in the informal sector

Mhlontlo Local Municipality employs a total number of 19 500 people within its local municipality. The local municipality that employs the highest number of people relative to the other regions within O.R. Tambo District Municipality is King Sabata Dalindyebo local municipality with a total number of 90 500. The local municipality that employs the lowest number of people relative to the other regions within O.R. Tambo District Municipality that employs the lowest stables of people relative to the other regions within O.R. Tambo District Municipality that employs the lowest number of people relative to the other regions within O.R. Tambo District Municipality is Port St Johns local municipality with a total number of 12 200 employed people.

In Mhlontlo Local Municipality the economic sectors that recorded the largest number of employments in 2021 were the community services sector with a total of 7 100 employed people or 36.4% of total employment in the local municipality. The trade sector with a total of 3 620 (18.6%) employs the second highest number of people relative to the rest of the sectors. The mining sector with 14.7 (0.1%) is the sector that employs the least number of people in Mhlontlo Local Municipality, followed by the electricity sector with 83.8 (0.4%)

people employed.

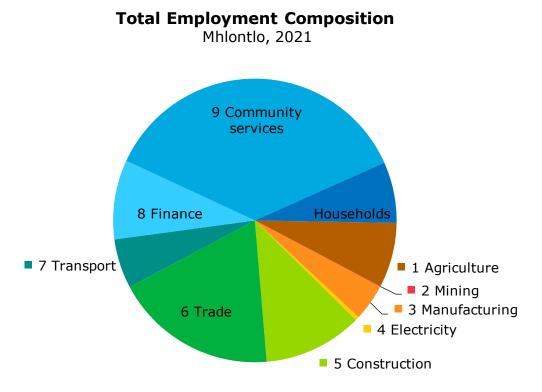

CHART 21: TOTAL EMPLOYMENT PER BROAD ECONOMIC SECTOR – MHLONTLO LOCAL MUNICIPALITY, 2021, [PERCENTAGE]

#### 8.3 Formal and Informal Employment

Total employment can be broken down into formal and informal sector employment. Formal sector employment is measured from the formal business side, and the informal employment is measured from the household side where formal businesses have not been established.

Formal employment is much more stable than informal employment. Informal employment is much harder to measure and manage, simply because it cannot be tracked through the formal business side of the economy. Informal employment is however a reality in South Africa and cannot be ignored.

The number of formally employed people in Mhlontlo Local Municipality counted 14 000 in 2021, which is about 72.01% of total employment, while the number of people employed in the informal sector counted 5 460 or 27.99% of the total employment. Informal employment in Mhlontlo increased from 4 970 in 2011 to an estimated 5 460 in 2021.

Source: IHS Markit Regional eXplorer version 2257

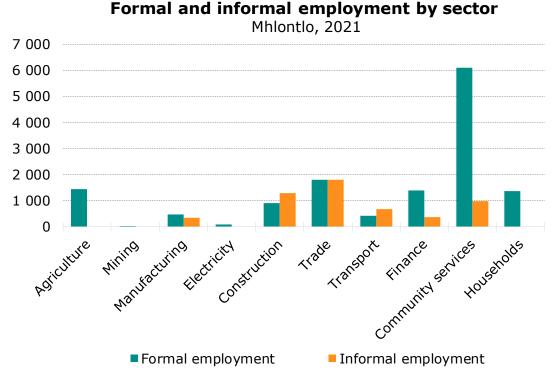

CHART 22: FORMAL AND INFORMAL EMPLOYMENT BY BROAD ECONOMIC SECTOR – MHLONTLO LOCAL MUNICIPALITY, 2021 [NUMBERS]

In 2021 the Trade sector recorded the highest number of informally employed, with a total of 1 800 employees or 33.06% of the total informal employment. This can be expected as the barriers to enter the Trade sector in terms of capital and skills required is less than with most of the other sectors. The Manufacturing sector has the lowest informal employment with 337 and only contributes 6.18% to total informal employment.

#### **8.4 UNEMPLOYMENT**

**Definition:** The unemployed includes all persons between 15 and 65 who are currently not working, but who are actively looking for work. It therefore excludes people who are not actively seeking work (referred to as discouraged work seekers).

The choice of definition for what constitutes being unemployed has a large impact on the final estimates for all measured labour force variables. The following definition was adopted by the Thirteenth International Conference of Labour Statisticians (Geneva, 1982): The "unemployed" comprise all persons above a specified age who during the reference period were:

- "Without work", i.e. not in paid employment or self-employment;
- "Currently available for work", i.e. were available for paid employment or self-employment during the reference period; and
- "Seeking work", i.e. had taken specific steps in a specified reference period to seek paid employment or self-employment. The specific steps may include registration at a public or private employment exchange; application to employers; checking at worksites, farms, factory gates, market or other assembly places; placing or answering newspaper advertisements; seeking assistance of friends or relatives; looking for land.

#### 9. Income and Expenditure

In a growing economy among which production factors are increasing, most of the household incomes are spent on purchasing goods and services. Therefore, the measuring of the income and expenditure of households is a major indicator of a number of economic trends. It is also a good marker of growth as well as consumer tendencies.

#### 9.1 Number of Households by Income Category

The number of households is grouped according to predefined income categories or brackets, where income is calculated as the sum of all household gross disposable income: payments in kind, gifts, homemade goods sold, old age pensions, income from informal sector activities, subsistence income, etc.). Note that income tax is included in the income distribution.

Income categories start at R0 - R2,400 per annum and go up to R2,400,000+ per annum. A household is either a group of people who live together and provide themselves jointly with food and/or other essentials for living, or it is a single person living on his/her own. These income brackets do not take into account inflation creep: over time, movement of households "up" the brackets is natural, even if they are not earning any more in real terms.

Source: IHS Global Insight 2022

It was estimated that in 2021 12.95% of all the households in the Mhlontlo Local

Municipality, were living on R30,000 or less per annum. In comparison with 2011's 34.13%, the number is more than half. The 54000-72000 income category has the highest number of households with a total number of 6 790, followed by the 72000-96000 income category with 5 870 households. Only 3.1 households fall within the 0-2400 income category.

CHART 25: HOUSEHOLDS BY INCOME BRACKET – MHLONTLO LOCAL MUNICIPALITY, 2011 – 2021 [PERCENTAGE]

For the period 2011 to 2021 the number of households earning more than R30,000 per annum has increased from 65.87% to 87.05%. It can be seen that the number of households with income equal to or lower than R6,000 per year has decreased by a significant amount.

#### 9.2 Annual Personal Total Income

Personal income is an even broader concept than labour remuneration. Personal income includes profits, income from property, net current transfers and net social benefits.

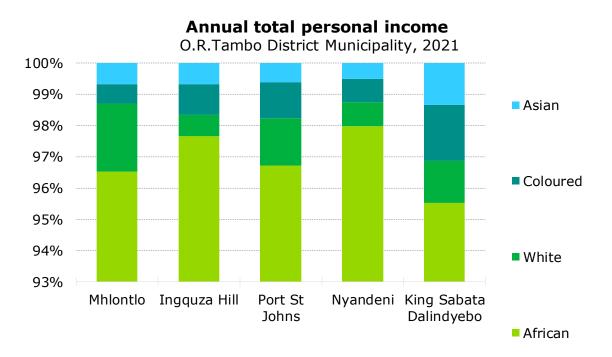

**Definition:** Annual total personal income is the sum of the total personal income for all households in a specific region. The definition of income is the same as used in the income brackets (Number of Households by Income Category), also including the income tax. For this variable, current prices are used, meaning that inflation has not been considered.

|                       | Mhlontlo      | O.R.Tambo     | Eastern Cape  | National Total |

### TABLE 25: ANNUAL TOTAL PERSONAL INCOME – MHLOTNLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL [CURRENT PRICES, R BILLIONS]

Mhlontlo Local Municipality recorded an average annual growth rate of 7.08% (from R 2.98 billion to R 5.91 billion) from 2011 to 2021, which is less than both O.R. Tambo's (7.22%) as well as Eastern Cape Province's (7.23%) average annual growth rates. South Africa had an average annual growth rate of 6.66% (from R 2.31 trillion to R 4.41 trillion) which is less than the growth rate in Mhlontlo Local Municipality.

CHART 26: ANNUAL TOTAL PERSONAL INCOME BY POPULATION GROUP – MHLONTLO AND THE REST OF OR TAMBO [CURRENT PRICES, R BILLIONS]

Source: IHS Markit Regional eXplorer version 2257

Page 87 of 325

The total personal income of Mhlontlo Local Municipality amounted to approximately R 5.91 billion in 2021. The African population group earned R 5.71 billion, or 96.52% of total personal income, while the White population group earned R 129 million, or 2.19% of the total personal income. The Asian and the Coloured population groups only had a share of 0.69% and 0.61% of total personal income respectively.

| 2011-2021             | <b>7.08</b> % | <b>6.59</b> % | <b>7.49</b> % | <b>7.35</b> % | <b>7.40</b> %             |

Source: IHS Global Insight 2022

When looking at the annual total personal income for the regions within O.R. Tambo District Municipality it can be seen that the King Sabata Dalindyebo Local Municipality had the highest total personal income with R 21 billion which increased from R 10.3 billion recorded in 2011. It can be seen that the Port St Johns Local Municipality had the lowest total personal income of R 4 billion in 2021, this increased from R 1.94 billion in 2011.

#### 9.3 Annual Per Capital Income

**Definition:** Per capita income refers to the income per person. Thus, it takes the total personal income per annum and divides it equally among the population.

Per capita income is often used as a measure of wealth particularly when comparing economies or population groups. Rising per capita income usually indicates a likely swell in demand for consumption.

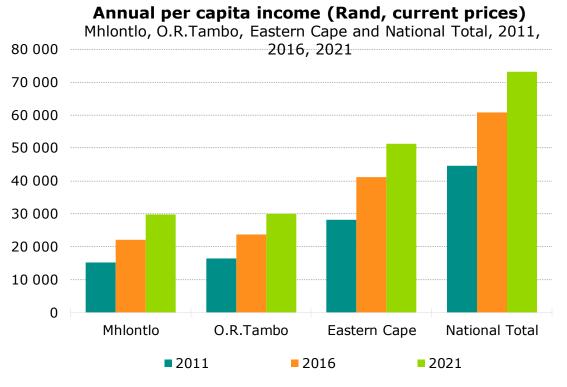

CHART 27: PER CAPITA INCOME – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, [CURRENT PRICE, RAND]

The per capita income in Mhlontlo Local Municipality is R 29,900 and is lower than both the Eastern Cape (R 51,300) and of the O.R. Tambo District Municipality (R 30,000) per capita income. The per capita income for Mhlontlo Local Municipality (R 29,900) is lower than that of the South Africa as a whole which is R 73,100.

King Sabata Dalindyebo Local Municipality has the highest per capita income with a total of R 40,000. Mhlontlo Local Municipality had the second highest per capita income at R 29,900, whereas Port St Johns Local Municipality had the lowest per capita income at R 22,600. In Mhlontlo Local Municipality, the African population group has the highest per capita income, with R 29,100, relative to the other population groups. Some of the population groups - where there are less than 1,000 people living in the area were excluded from the analysis.

#### 9.4 Index of Buying Power

**Definition:** The Index of Buying Power (IBP) is a measure of a region's overall capacity to absorb products and/or services. The index is useful when comparing two regions in terms of their capacity to buy products. Values range from 0 to 1 (where the national index equals 1), and can be interpreted as the percentage of national buying power attributable to the specific region. Regions' buying power usually depends on three factors: the size of the population; the ability of the population to spend (measured by total income); and the willingness of the population to spend (measured by total retail sales).

TABLE 27: INDEX OF BUYING POWER – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2021 [NUMBER]

|   | Mhlontlo  | O.R.Tambo  | Eastern Cape | National Total |
|---|-----------|------------|--------------|----------------|
| Population                              | 197,816   | 1,552,805  | 7,398,907    | 60,324,819     |
| Population - share of<br>national total | 0.3%      | 2.6%       | 12.3%        | 100.0%         |
| Income                                  | 5,912     | 46,526     | 379,610      | 4,411,524      |
| Income - share of<br>national total     | 0.1%      | 1.1%       | 8.6%         | 100.0%         |
| Retail                                  | 1,809,676 | 14,069,049 | 98,308,665   | 1,166,202,000  |
| Retail - share of national total        | 0.2%      | 1.2%       | 8.4%         | 100.0%         |
| Index                                   | 0.00      | 0.01       | 0.09         | 1.00           |

Source: IHS Global Insight

Mhlontlo Local Municipality has a 0.3% share of the national population, 0.1% share of the total national income and a 0.2% share in the total national retail, this all equates to an IBP index value of 0.0016 relative to South Africa as a whole. O.R. Tambo has an IBP of 0.013, were Eastern Cape Province has and IBP index value of 0.089 and South Africa a value of 1 relative to South Africa as a whole.

The considerable low index of buying power of the Mhlontlo Local Municipality suggests that the local municipality has access to only a small percentage of the goods and services available in all of the O.R. Tambo District Municipality. Its residents are most likely spending some of their income in neighbouring areas.

CHART 29: INDEX OF BUYING POWER MHLONTLO LOCAL MUNICIPALITY, 2011 - 2021 [INDEX VALUE]

Between 2011 and 2021, the index of buying power within Mhlontlo Local Municipality increased to its highest level in 2011 (0.001618) from its lowest in 2016 (0.00156). The buying power within Mhlontlo Local Municipality is relatively small compared to other regions and it decreased at an average annual growth rate of -0.13%.

### 10. Development

Indicators of development, like the Human Development Index (HDI), Gini Coefficient (income inequality), poverty and the poverty gap, and education, are used to estimate the level of development of a given region in South Africa relative to the rest of the country.

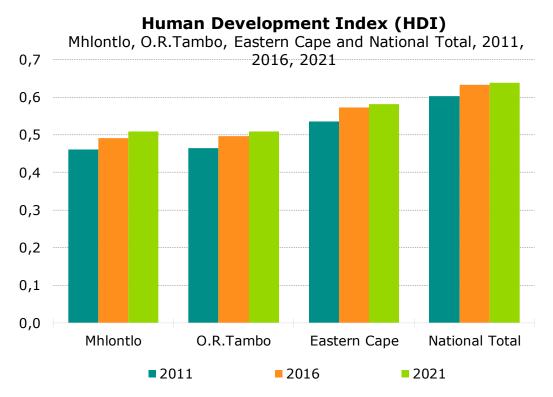

Another indicator that is widely used is the number (or percentage) of people living in poverty. Poverty is defined as the deprivation of those things that determine the quality of life, including food, clothing, shelter and safe drinking water. More than that, other "intangibles" is also included such as the opportunity to learn, and the privilege to enjoy the respect of fellow citizens. Curbing poverty and alleviating the effects thereof should be a premise in the compilation of all policies that aspire towards a better life for all.

#### 10.1 Human Development Index (HDI)

**Definition:** The Human Development Index (HDI) is a composite relative index used to compare human development across population groups or regions.

HDI is the combination of three basic dimensions of human development: A long and healthy life, knowledge and a decent standard of living. A long and healthy life is typically measured using life expectancy at birth. Knowledge is normally based on adult literacy and / or the combination of enrolment in primary, secondary and tertiary schools. In order to gauge a decent standard of living, we make use of GDP per capita. On a technical note, the HDI can have a maximum value of 1, indicating a very high level of human development, while the minimum value is 0, indicating no human development.

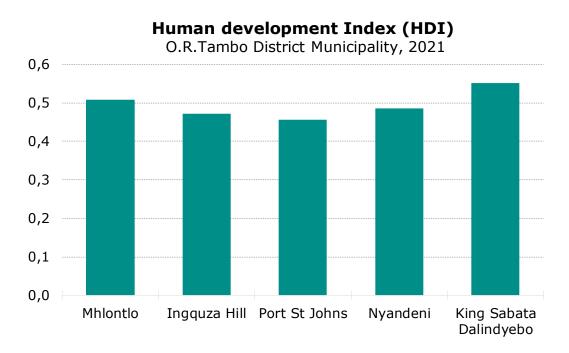

CHART 30: HUMAN DEVELOPMENT INDEX (HDI) MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2011, 2016, 2021 [NUMBER]

Source: IHS Markit Regional eXplorer version 2257

In 2021 Mhlontlo Local Municipality had an HDI of 0.508 compared to the O.R.Tambo with a HDI of 0.508, 0.581 of Eastern Cape and 0.639 of National Total as a whole. Seeing that South Africa recorded a higher HDI in 2021 when compared to Mhlontlo Local Municipality which translates to worse human development for Mhlontlo Local Municipality compared to South Africa. South Africa's HDI increased at an average annual growth rate of 0.58% and this increase is lower than that of Mhlontlo Local Municipality (1.00%).

CHART 31: HUMAN DEVELOPMENT INDEX (HDI) – MHLONTLO AND THE REST OF OR TAMBO DISTRICT MUNICIPALITY, 2021 [NUMBER]

Source: IHS Markit Regional eXplorer version 2257

In terms of the HDI for each the regions within the O.R. Tambo District Municipality, King Sabata Dalindyebo Local Municipality has the highest HDI, with an index value of 0.551. The lowest can be observed in the Port St Johns Local Municipality with an index value of 0.456.

#### 10.2 Gini Coefficient

**Definition:** The Gini coefficient is a summary statistic of income inequality. It varies from 0 to 1.

If the Gini coefficient is equal to zero, income is distributed in a perfectly equal manner, in other words there is no variance between the high- and low-income earners within the population. In contrast, if the Gini coefficient equals 1, income is completely inequitable, i.e. one individual in the population is earning all the income and the rest has no income. Generally, this coefficient lies in the range between 0.25 and 0.70.

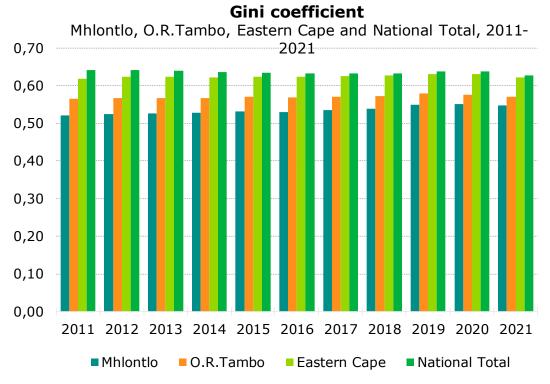

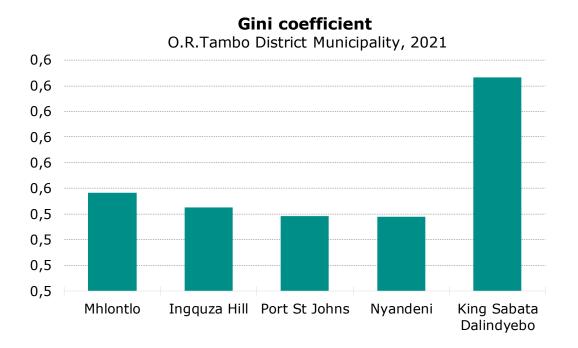

CHART 32: GINI COEFFICIENT – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2011 – 2021 [NUMBER]

Source: IHS Markit Regional eXplorer version 2257

In 2021, the Gini coefficient in Mhlontlo Local Municipality was at 0.548, which reflects a increase in the number over the ten-year period from 2011 to 2021. The O.R. Tambo District Municipality and the Eastern Cape Province, both had a more unequal spread of income amongst their residents (at 0.57 and 0.622 respectively) when compared to Mhlontlo Local Municipality.

CHART 33: GINI COEFFICIENT – MHLONTLO AND REST OF OR TAMBO DISTRICT MUNICIPALITY, 2021 [NUMBER]

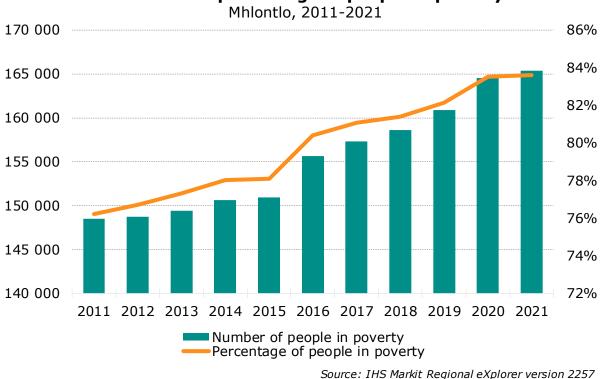

Source: IHS Markit Regional eXplorer version 2257

In terms of the Gini coefficient for each of the regions within the O.R. Tambo District Municipality, King Sabata Dalindyebo Local Municipality has the highest Gini coefficient, with an index value of 0.593. The lowest Gini coefficient can be observed in the Nyandeni Local Municipality with an index value of 0.539.

#### 10.3 Poverty

**Definition:** The upper poverty line is defined by StatsSA as the level of consumption at which individuals are able to purchase both sufficient food and non-food items without sacrificing one for the other. This variable measures the number of individuals living below that particular level of consumption for the given area, and is balanced directly to the official upper poverty rate as measured by StatsSA.

CHART 34: NUMBER AND PERCENTAGE OF PEOPLE LIVING IN POVERTY – MHLONTLO LOCAL MUNICIPALITY, 2011 – 2021 [NUMBER, PERCENTAGE]

### Number and percentage of people in poverty

In 2021, there were 165 000 people living in poverty, using the upper poverty line definition, across Mhlontlo Local Municipality - this is 11.37% higher than the 148 000 in 2011. The percentage of people living in poverty has increased from 76.22% in 2011 to 83.61% in 2021, which indicates a increase of -7.39 percentage points.

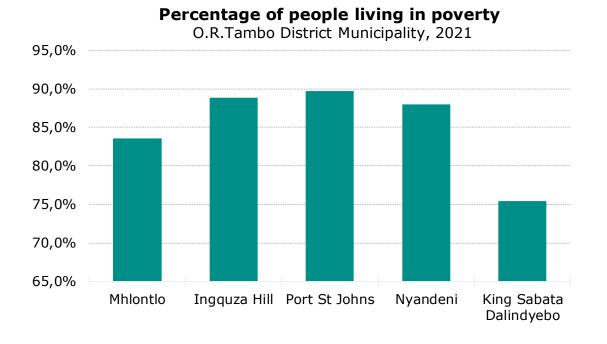

| TABLE 28: PERCENTAGE OF PEOPLE LIVING IN POVERTY BY POPULATION GROUP – |
|--|
| MHLONTLO, 2011 – 2021 [PERCENTAGE]                                     |
|  |

|      | African |
|------|---------|
| 2011 | 76.5%   |
| 2012 | 77.0%   |
| 2013 | 77.6%   |
| 2014 | 78.4%   |
| 2015 | 78.5%   |
| 2016 | 80.8%   |
| 2017 | 81.5%   |
| 2018 | 81.8%   |
| 2019 | 82.5%   |
| 2020 | 83.9%   |
| 2021 | 84.0%   |

Source: IHS Global Insight 2020

In 2021, the population group with the highest percentage of people living in poverty was the African population group with a total of 84.0% people living in poverty, using the upper poverty line definition. The proportion of the African population group, living in poverty, decreased by -7.5 percentage points, as can be seen by the change from 76.52% in 2011 to 84.02% in 2021.

CHART 35: PERCENTAGE OF PEOPLE LIVING IN POVERTY - MHLONTLO AND THE REST OF

#### OR TAMBO DISTRICT MUNICIPALITY, 2021 [PERCENTAGE]

Source: IHS Markit Regional eXplorer version 2257

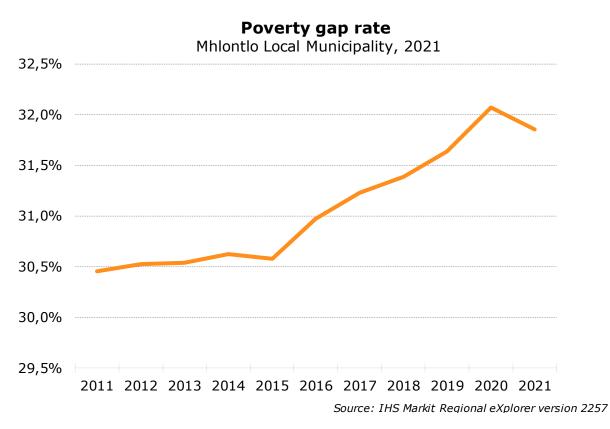

In terms of the percentage of people living in poverty for each of the regions within the O.R. Tambo District Municipality, Port St Johns Local Municipality has the highest percentage of people living in poverty, with a total of 89.7%. The lowest percentage of people living in poverty can be observed in the King Sabata Dalindyebo Local Municipality with a total of 75.5% living in poverty, using the upper poverty line definition.

#### 10.3.1 Poverty Gap Rate

**Definition:** The poverty gap is used as an indicator to measure the depth of poverty. The gap measures the average distance of the population from the poverty line and is expressed as a percentage of the upper bound poverty line, as defined by StatsSA. The Poverty Gap deals with a major shortcoming of the poverty rate, which does not give any indication of the depth, of poverty. The upper poverty line is defined by StatsSA as the level of consumption at which individuals are able to purchase both sufficient food and non-food items without sacrificing one for the other.

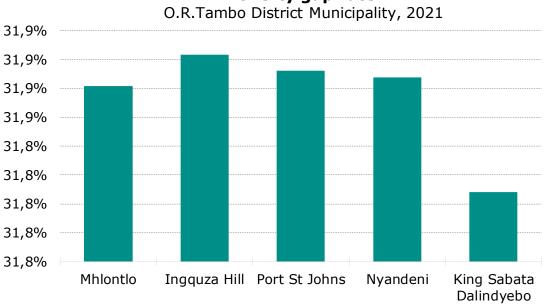

It is estimated that the poverty gap rate in Mhlontlo Local Municipality amounted to 31.9% in 2021 - the rate needed to bring all poor households up to the poverty line and out of poverty.

TABLE 29: POVERTY GAP RATE BY POPULATION GROUPS – MHLONTLO LOCAL MUNICIPALITY, 2011, 2021 [PERCENTAGE]

In 2021, the poverty gap rate was 31.9% and in 2011 the poverty gap rate was 30.5%, it can be seen that the poverty gap rate increased from 2011 to 2021, which means that there were no improvements in terms of the depth of the poverty within Mhlontlo Local Municipality.

#### CHART 36: POVERTY GAP RATE - MHLONTLO LOCAL MUNICIPALITY AND THE REST OF OR TAMBO DISTRICT MUNICIPALITY, 2021 [PERCENTAGE]

Poverty gap rate

Source: IHS Markit Regional eXplorer version 2257

In terms of the poverty gap rate for each of the regions within the O.R. Tambo District Municipality, Ingguza Hill Local Municipality had the highest poverty gap rate, with a rand value of 31.9%. The lowest poverty gap rate can be observed in the King Sabata Dalindyebo Local Municipality with a total of 31.8%.

#### 10.4 Education

Educating is important to the economic growth in a country and the development of its industries, providing a trained workforce and skilled professionals required.

The education measure represents the highest level of education of an individual, using the 15 years and older age category. (According to the United Nations definition of education, one is an adult when 15 years or older. IHS uses this cut-off point to allow for cross-country comparisons. Furthermore, the age of 15 is also the legal age at which children may leave school in South Africa).

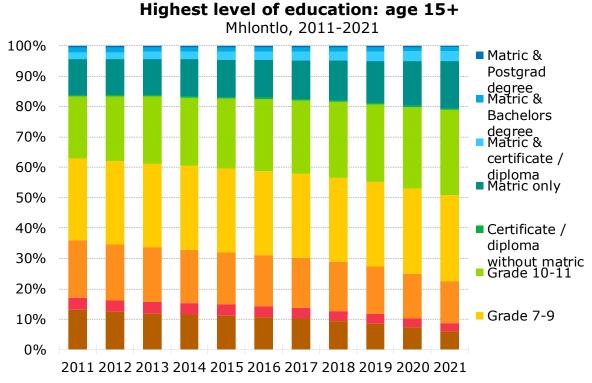

CHART 37: HIGHEST LEVEL OF EDUCATION: AGE 15+ - MHLONTLO LOCAL MUNICIPALITY, 2011 – 2021 [PERCENTAGE]

Within Mhlontlo Local Municipality, the number of people without any schooling decreased from 2011 to 2021 with an average annual rate of -6.48%, while the number of people within the 'matric only' category, increased from 11,400 to 16,400. The number of people with 'matric and a certificate/diploma' increased with an average annual rate of 5.19%, with the number of people with a 'matric and a Bachelor's' degree decreasing with an average annual rate of -1.27%.

Source: IHS Markit Regional eXplorer version 2257

#### 10.5 Functional Literacy

**Definition:** For the purpose of this report, IHS defines functional literacy as the number of people in a region that are 20 years and older and have completed at least their primary education (i.e. grade 7).

Functional literacy describes the reading and writing skills that are adequate for an individual to cope with the demands of everyday life - including the demands posed in the workplace. This is contrasted with illiteracy in the strictest sense, meaning the inability to read or write. Functional literacy enables individuals to enter the labour market and contribute towards economic growth thereby reducing poverty.

#### TABLE 31: FUNCTIONAL LITERACY: AGE 20+, COMPLETED GRADE 7 OR HIGHER -MHI ONTLO LOCAL MUNICIPALITY 2011 - 2021 INUMBER PERCENTAGE

Source: IHS Global Insight 2020

A total of 102 000 individuals in Mhlontlo Local Municipality were considered functionally literate in 2021, while 25 900 people were considered to be illiterate. Expressed as a rate, this amounts to 79.76% of the population, which is an increase of 0.11 percentage points since 2011 (69.23%). The number of illiterate individuals decreased on average by -3.64% annually from 2011 to 2021, with the number of functional literate people increasing at 1.91% annually.

CHART 39: FUNCTIONAL LITERACY AGE 20+: COMPLETED GARDE 7 OR HIGH - MHLONTLO, OR TAMBO, EASTERN CAPE. NATIONAL TOTAL, 2011 - 2021 [PERCENTAGE]

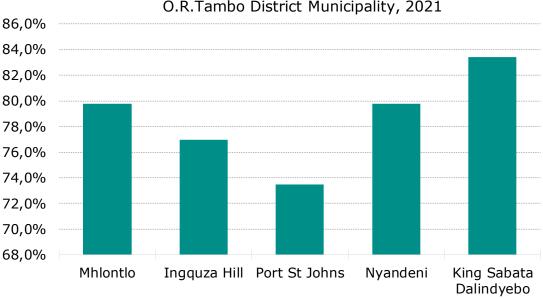

#### Functional literacy rate: age 20+

Source: IHS Markit Regional eXplorer version 2257

Mhlontlo Local Municipality's functional literacy rate of 79.76% in 2021 is lower than that of O.R. Tambo at 79.86%, and is lower than the province rate of 84.19%. When comparing to National Total as whole, which has a functional literacy rate of 89.15%, it can be seen that the functional literacy rate is higher than that of the Mhlontlo Local Municipality.

CHART 40: LITERACY RATE – MHLONTLO LOCAL MUNICIPALITY AND THE REST OF THE OR TAMBO DISTRICT MUNICIPALITY, 2021 [PERCENTAGE]

**Functional literacy rate** O.R.Tambo District Municipality, 2021

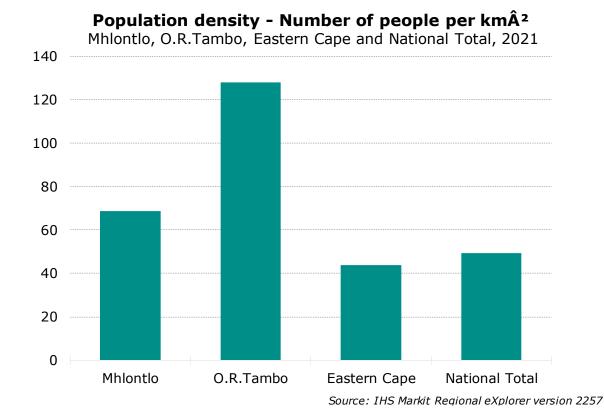

Source: IHS Markit Regional eXplorer version 2257

In terms of the literacy rate for each of the regions within the O.R. Tambo District Municipality, King Sabata Dalindyebo Local Municipality had the highest literacy rate, with a total of 83.4%. The lowest literacy rate can be observed in the Port St Johns Local Municipality with a total of 73.5%.

### 10.6 Population Density

**Definition:** Population density measures the concentration of people in a region. To calculate this, the population of a region is divided by the area size of that region. The output is presented as the number of people per square kilometre.

CHART 41: POPULATION DENSITY - MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL,

#### 2021 [NUMBER OF PEOPLE PER KM]

In 2021, with an average of 68.7 people per square kilometre, Mhlontlo Local Municipality had a lower population density than O.R. Tambo (128 people per square kilometre). Compared to Eastern Cape Province (43.8 per square kilometre) it can be seen that there are more people living per square kilometre in Mhlontlo Local Municipality than in Eastern Cape Province.

In terms of the population density for each of the regions within the O.R. Tambo District Municipality, King Sabata Dalindyebo Local Municipality had the highest density, with 174 people per square kilometre. The lowest population density can be observed in the Mhlontlo Local Municipality with a total of 68.7 people per square kilometre.

#### 11. Crime

The state of crime in South Africa has been the topic of many media articles and papers in the past years, and although many would acknowledge that the country has a crime problem, very little research has been done on the relative level of crime. The media often tend to focus on more negative or sensational information, while the progress made in combating crime is neglected.

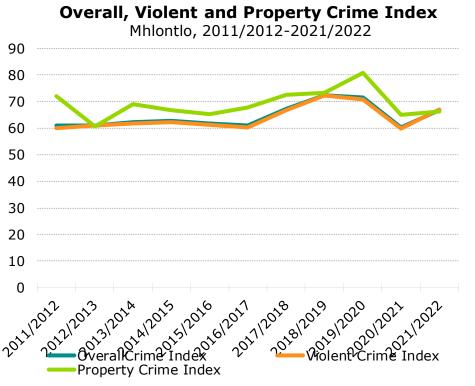

#### 11.1 IHS Composite Crime Index

The IHS Composite Crime Index makes use of the official SAPS data, which is reported in 27 crime categories (ranging from murder to crime injuries). These 27 categories are divided into two groups according to the nature of the crime: i.e. violent crimes and property crimes. IHS uses the (a) Length-of-sentence and the (b) Cost-of-crime in order to apply a weight to each category.

#### 11.1.1 Overall Crime Index

**Definition:** The crime index is a composite, weighted index which measures crime. The higher the index number, the higher the level of crime for that specific year in a particular region. The index is best used by looking at the change over time, or comparing the crime levels across regions.

CHART 43: IHS CRIME INDEX – CALENDER YEARS (WEIGHTED AVG / 100 000 PEOPLE) MHLONTLO LOCAL MUNICIPALITY, 2011/2012 – 2021/2022 [INDEX VALUE]

Source: IHS Markit Regional eXplorer version 2257

For the period 2011/2012 to 2021/2022 overall crime has increase at an average annual rate of 0.94% within the Mhlontlo Local Municipality. Violent crime increased by 1.11% since 2011/2012, while property crimes decreased by 0.80% between the 2011/2012 and 2021/2022 financial years.

#### TABLE 33: OVERALL CRIME INDEX – MHLONTLO AND THE REST OF THE OR TAMBO DISTRICT MUNICIPALITY, 2011/2012 – 2021/2022 [INDEX VALUE]

Source: IHS Global Insight 2020

In 2021/2022, the King Sabata Dalindyebo Local Municipality has the highest overall crime rate of the sub-regions within the overall O.R. Tambo District Municipality with an index value of 86.5. Mhlontlo Local Municipality has the second highest overall crime index at 66.9, with Port St Johns Local Municipality having the third highest overall crime index of 51.1. Nyandeni Local Municipality has the second lowest overall crime index of 50.8 and the Ingquza Hill Local Municipality has the lowest overall crime rate of 43.1. The region that decreased the most in overall crime since 2011/2012 was Nyandeni Local Municipality with an average annual decrease of 0.7% followed by King Sabata Dalindyebo Local Municipality with an average annual decrease of 0.6%.

CHART 44: IHS CRIME INDEX – CALENDER YEARS (WEIGHTED AVG / 100 000 PEOPLE) – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2021/2022 [INDEX VALUE]

Source: IHS Markit Regional eXplorer version 2257

From the chart above it is evident that property crime is a major problem for all the regions relative to violent crime.

#### 12. Household infrastructure

Drawing on the household infrastructure data of a region is of essential value in economic planning and social development. Assessing household infrastructure involves the measurement of four indicators:

- Access to dwelling units
- Access to proper sanitation
- Access to running water
- Access to refuse removal
- Access to electricity

A household is considered "serviced" if it has access to all four of these basic services. If not, the household is considered to be part of the backlog. The way access to a given service is defined (and how to accurately measure that specific Definition over time) gives rise to some distinct problems. IHS has therefore developed a unique model to capture the number of households and their level of access to the four basic services.

A household is defined as a group of persons who live together and provide themselves jointly with food and/or other essentials for living, or a single person who lives alone. The next few sections offer an overview of the household infrastructure of the Mhlontlo Local

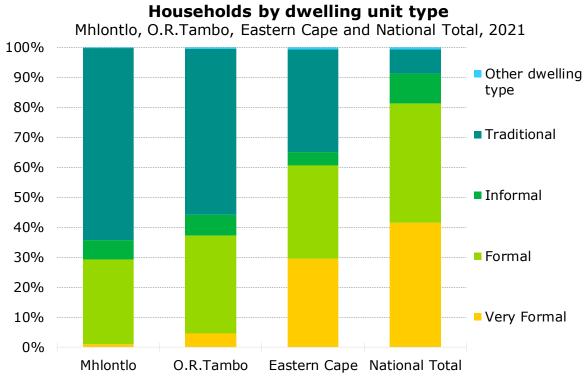

Municipality between 2021 and 2011.

#### 12.1 Household by dwelling type

Using the StatsSA definition of a household and a dwelling unit, households can be categorised according to type of dwelling. The categories are:

- Very formal dwellings structures built according to approved plans, e.g. houses on a separate stand, flats or apartments, townhouses, rooms in backyards that also have running water and flush toilets within the dwelling.
- **Formal dwellings** structures built according to approved plans, i.e. house on a separate stand, flat or apartment, townhouse, room in backyard, rooms or flatlet elsewhere etc, but without running water or without a flush toilet within the dwelling.
- **Informal dwellings** shacks or shanties in informal settlements, serviced stands, or proclaimed townships, as well as shacks in the backyards of other dwelling types.
- **Traditional dwellings** structures made of clay, mud, reeds, or other locally available material.
- Other dwelling units tents, ships, caravans, etc.

CHART 45: HOUSEHOLD BY DWELLING UNIT TYPE – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2021 [PERCENTAGE]

Source: IHS Markit Regional eXplorer version 2257

Mhlontlo Local Municipality had a total number of 496 (1.08% of total households) very formal dwelling units, a total of 12 900 (28.13% of total households) formal dwelling units and a total number of 2 940 (6.40% of total households) informal dwelling units.

| TAMBO DISTRICT MUNICIPALITY, 2021 [NUMBER]                               |

Source: IHS Global Insight 2022

The region within the O.R. Tambo District Municipality with the highest number of very formal dwelling units is King Sabata Dalindyebo Local Municipality with 13 700 or a share of 89.26% of the total very formal dwelling units within O.R. Tambo. The region with the lowest number of very formal dwelling units is Nyandeni Local Municipality with a total of 300 or a share of 1.96% of the total very formal dwelling units within O.R. Tambo.

CHART 46: FORMAL DWELLING BACKLOG – NUMBER OF HOUSEHOLDS NOT LIVING IN A FORMAL DWELLING – MHLONTLO LOCAL MUNICIPALITY, 2011 – 20 [N21UMBER OF HOUSEHOLDS]

Source: IHS Markit Regional eXplorer version 2257

When looking at the formal dwelling unit backlog (number of households not living in a formal dwelling) over time, it can be seen that in 2011 the number of households not living in a formal dwelling were 32 300 within Mhlontlo Local Municipality. From 2011 this number increased annually at 0.08% to 32 600 in 2021.

The total number of households within Mhlontlo Local Municipality increased at an average annual rate of 0.13% from 2011 to 2021, which is higher than the annual increase of 1.51% in the number of households in South Africa.

#### 12.2 Household by type of Sanitation

Sanitation can be divided into specific types of sanitation to which a household has access. We use the following categories:

- No toilet No access to any of the toilet systems explained below.
- **Bucket system** A top structure with a seat over a bucket. The bucket is periodically removed and the contents disposed of. (Note: this system is widely used but poses health risks to the collectors. Most authorities are actively attempting to discontinue the use of these buckets in their local regions).
- **Pit toilet** A top structure over a pit.
- Ventilation improved pit A pit toilet but with a fly screen and vented by a pipe. Depending on soil conditions, the pit may be lined.

• Flush toilet - Waste is flushed into an enclosed tank, thus preventing the waste to flow into the surrounding environment. The tanks need to be emptied or the contents pumped elsewhere.

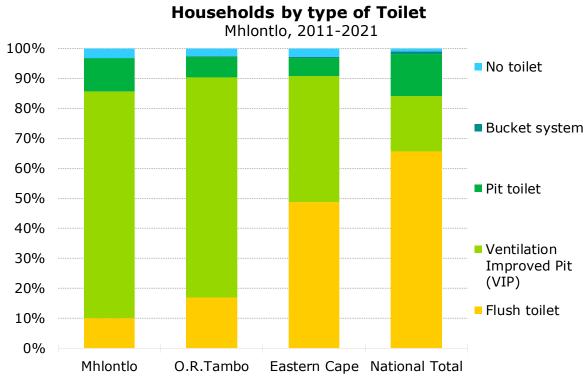

CHART 47: HOUSEHOLDS BY TYPE OF SANITATION – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2021 [PERCENTAGE]

Mhlontlo Local Municipality had a total number of 4 640 flush toilets (10.08% of total households), 34 800 Ventilation Improved Pit (VIP) (75.71% of total households) and 5 080 (11.04%) of total household's pit toilets.

CHART 48: SANITATION BACKLOG – MHLONTLO LOCAL MUNICIPALITY, 2011 – 2021 [NUMBER OF HOUSEHOLDS WITHOUT HYGIENIC TOILETS]

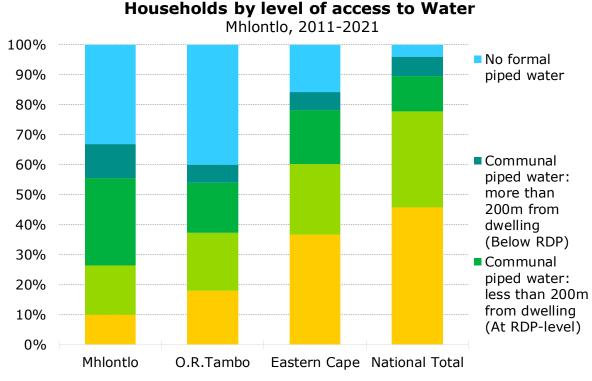

Source: IHS Markit Regional eXplorer version 2257

When looking at the sanitation backlog (number of households without hygienic toilets) over time, it can be seen that in 2011 the number of Households without any hygienic toilets in Mhlontlo Local Municipality was 25 800, this decreased annually at a rate of -12.82% to 6 540 in 2021.

#### 12.3 Households by access to water

A household is categorised according to its main access to water, as follows: Regional/local water scheme, Borehole and spring, Water tank, Dam/pool/stagnant water, River/stream and other main access to water methods. No formal piped water includes households that obtain water via water carriers and tankers, rain water, boreholes, dams, rivers and springs.

CHART 49: HOUSEHOLDS BY TYPES OF WATER ACCESS – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2021 [PERCENTAGE]

Source: IHS Markit Regional eXplorer version 2257

Mhlontlo Local Municipality had a total number of 4 520 (or 9.82%) households with piped water inside the dwelling, a total of 7 650 (16.62%) households had piped water inside the yard and a total number of 15 200 (33.10%) households had no formal piped water.

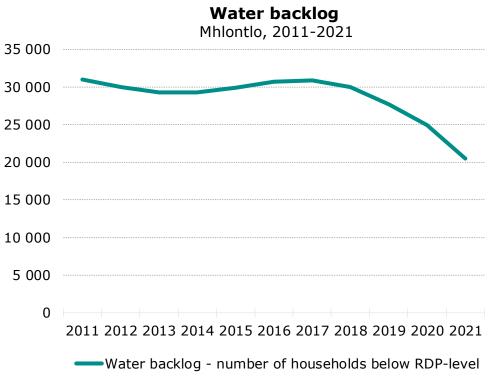

|                           | Piped water<br>inside<br>dwelling | Piped water<br>in yard | Communal<br>piped water:<br>less than 200m<br>from dwelling<br>(At RDP-level) | Communal<br>piped water:<br>more than<br>200m from<br>dwelling<br>(Below RDP) | No formal<br>piped water | Total   |

| TAMBO DISTRICT MUNICIPALITY, 2021 [NUMBER]                     |              |

Source: IHS Global Insight 2022

The region within the O.R. Tambo District Municipality with the highest number of households that have piped water inside the dwelling is the King Sabata Dalindyebo Local Municipality with 35 000 or 57.23% of the households. The region with the lowest number of households that have piped water inside the dwelling is the Port St Johns Local Municipality with a total of 4 410 or 7.22% of the households.

CHART 50: WATER BACKLOG – MHLONTLO LOCAL MUNICIPALITY, 2011 – 2021 [NUMBER OF HOUSEHOLDS BELOW RDP LEVEL]

Source: IHS Markit Regional eXplorer version 2257

When looking at the water backlog (number of households below RDP-level) over time, it can be seen that in 2011 the number of households below the RDP-level were 31 000 within Mhlontlo Local Municipality, this decreased annually at -4.05% per annum to 20 500 in 2021.

#### 12.4 Households by type of electricity

Households are distributed into 3 electricity usage categories: Households using electricity for cooking, Households using electricity for heating, households using electricity for lighting. Household using solar power are included as part of households with an electrical connection. This time series categorises households in a region according to their access to electricity (electrical connection).

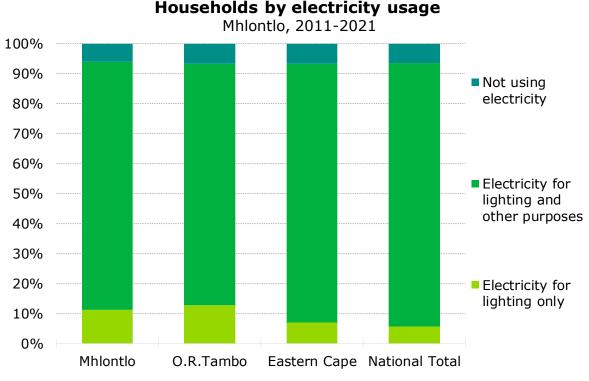

CHART 51: HOUSEHOLDS BY TYPE OF ELECTRICITY CONNECTION – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2021 [PERCENTAGE]

Mhlontlo Local Municipality had a total number of 5 190 (11.28%) households with electricity for lighting only, a total of 38 000 (82.66%) households had electricity for lighting and other purposes and a total number of 2 790 (6.07%) households did not use electricity.

| TABLE 37: HOUSEHOLDS BY TYPE OF ELECTRICITY CONNECTION - MHLONTLO AND REST |  |

Source: IHS Global Insight 2022

The region within O.R. Tambo with the highest number of households with electricity for lighting and other purposes is King Sabata Dalindyebo Local Municipality with 109 000 or a share of 39.51% of the households with electricity for lighting and other purposes within O.R. Tambo District Municipality. The region with the lowest number of households with electricity for lighting and other purposes is Port St Johns Local Municipality with a total of 24 200 or a share of 8.80% of the total households with electricity for lighting and other purposes within O.R. Tambo District Municipality.

Source: IHS Markit Regional eXplorer version 2257

#### CHART 52: ELECTRICITY CONNECTION – MHLONTLO LOCAL MUNICIPALITY, 2011 -2021 [NUMBER OF HOUSEHOLDS WITH NO ELECTRICITY CONNECTION]

Source: IHS Markit Regional eXplorer version 2257

When looking at the number of households with no electrical connection over time, it can be seen that in 2011 the households without an electrical connection in Mhlontlo Local Municipality was 18 000, this decreased annually at -17.02% per annum to 2 790 in 2021.

#### 12.5 Households by refuse removal

A distinction is made between formal and informal refuse removal. When refuse is removed by the local authorities, it is referred to as formal refuse removal. Informal refuse removal is where either the household or the community disposes of the waste, or where there is no refuse removal at all. A further breakdown is used in terms of the frequency by which the refuge is taken away, thus leading to the following categories:

- Removed weekly by authority
- Removed less often than weekly by authority
- Removed by community members
- Personal removal / (own dump)
- No refuse removal

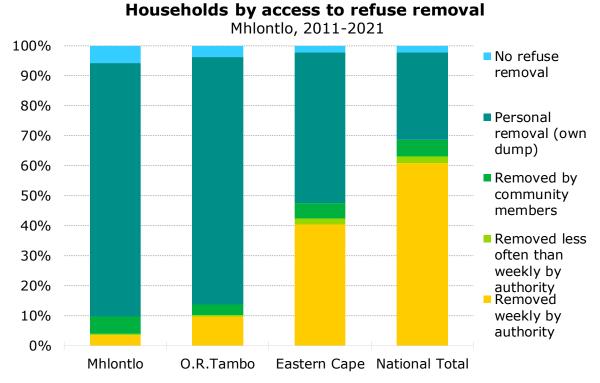

CHART 53: HOUSEHOLDS BY REFUSE DISPOSAL – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2021 [PERCENTAGE]

Mhlontlo Local Municipality had a total number of 1 590 (3.46%) households which had their refuse removed weekly by the authority, a total of 279 (0.61%) households had their refuse removed less often than weekly by the authority and a total number of 38 900 (84.55%) households which had to remove their refuse personally (own dump).

There are two licensed landfill sites in Mhlontlo Local Municipality, Qumbu landfill site and Tsolo landfill site. Qumbu landfill site is compliant and designated as a general waste, communal land fill site (G: C: B+) and accordingly only permitted to accept general waste. However, there are very few mechanisms on site to controls on site to prevent hazardous waste from entering the site. Tsolo landfill site has deteriorated and de-commissioned because it was not being maintained. Some refuse by-laws are in place but not gazetted and with no tariffs. They will be reviewed during 2023/2024-year end.

# TABLE 38: HOUSEHOLDS BY REFUSE DISPOSAL – MHLONTLO AND THE REST OF OR TAMBO DISTRICT MUNICIPALITY, 2021 [NUMBER]

Source: IHS Global Insight 2022

The region within O.R. Tambo with the highest number of households where the refuse is removed weekly by the authority is King Sabata Dalindyebo Local Municipality with 26 900 or a share of 80.92% of the households where the refuse is removed weekly by the authority within O.R. Tambo. The region with the lowest number of households where the refuse is removed weekly by the authority is Port St Johns Local Municipality with a total of 600 or a share of 1.80% of the total households where the refuse is removed weekly by the authority within the district municipality.

CHART 54: REFUSE REMOVAL – MHLONTLO LOCAL MUNICIPALITY, 2011 – 2021 [NUMBER OF HOUSEHOLDS WITH NO FORMAL REFUSE REMOVAL]

Source: IHS Markit Regional eXplorer version 2257

When looking at the number of households with no formal refuse removal, it can be seen that in 2011 the households with no formal refuse removal in Mhlontlo Local Municipality was

Page 120 of 325

41 900, this increased annually at 0.52% per annum to 44 100 in 2021.

The total number of households within Mhlontlo Local Municipality increased at an average annual rate of 0.13% from 2011 to 2021, which is higher than the annual increase of 1.51% in the number of households in South Africa.

#### 13. Tourism

Tourism can be defined as the non-commercial organisation plus operation of vacations and visits to a place of interest. Whether you visit a relative or friend, travel for business purposes, go on holiday or on medical and religious trips - these are all included in tourism.

#### 13.1 Trips by purpose of trips

**Definition:** As defined by the United Nations World Tourism Organisation (UN WTO), a trip refers to travel, by a person, from the time they leave their usual residence until they return to that residence. This is usually referred to as a round trip. IHS likes to narrow this definition down to overnight trips only, and only those made by adult visitors (over 18 years). Also note that the number of "person" trips are measured, not household or "party trips".

The main purpose for an overnight trip is grouped into these categories:

- Leisure / Holiday
- Business
- Visits to friends and relatives
- Other (Medical, Religious, etc.)

# 13.3 Tourism spending

**Definition:** In their Tourism Satellite Account, StatsSA defines tourism spending as all expenditure by visitors for their trip to the particular region. This excludes capital expenditure as well as the shopping expenditure of traders (called shuttle trade). The amounts are presented in current prices, meaning that inflation has not been considered.

It is important to note that this type of spending differs from the concept of contribution to GDP. Tourism spending merely represents a nominal spend of trips made to each region.

Source: IHS Global Insight 2022

Mhlontlo Local Municipality had a total tourism spending of R 149 million in 2021 with an average annual growth rate of 2.2% since 2011 (R 119 million). O.R. Tambo District Municipality had a total tourism spending of R 1.86 billion in 2021 and an average annual growth rate of 3.1% over the period. Total spending in Eastern Cape Province increased from R 15.2 billion in 2011 to R 19.6 billion in 2021 at an average annual rate of 2.6%. South Africa as whole had an average annual rate of 3.7% and increased from R 206 billion in 2021.

#### 13.3.1 Tourism spend per resident capita

Another interesting topic to look at is tourism spending per resident capita. To calculate this, the total amount of tourism spending in the region is divided by the number of residents living within that region. This gives a relative indication of how important tourism is for a particular area.

|                                 |         | - , , - |         |

TABLE 43: TOURISM SPEND PER RESIDENT CAPITA – MHLONTLO LOCAL MUNICIPALITY AND THE REST OF OR TAMBO DISTRICT MUNICIPALITY. 2011, 2016, 2021 [R THOUSANDS]

In 2021, Mhlontlo Local Municipality had a tourism spend per capita of R 751 and an average annual growth rate of 2.06%, Mhlontlo Local Municipality ranked third amongst all the regions within O.R. Tambo in terms of tourism spend per capita. The region within O.R. Tambo District Municipality that ranked first in terms of tourism spend per capita is King Sabata Dalindyebo Local Municipality with a total per capita spending of R 2,130 which reflects an average annual increase of 2.37% from 2011. The local municipality that ranked lowest in terms of tourism spend per capita is Nyandeni with a total of R 423 which reflects a decrease at an average annual rate of -1.24% from 2011.

#### 13.3.2 Tourism spent as a share of GDP

**Definition:** This measure presents tourism spending as a percentage of the GDP of a region. It provides a gauge of how important tourism is to the local economy. An important note about this variable is that it does not reflect what is spent in the tourism industry of that region, but only what is spent by tourists visiting that region as their main destination.

| NATIONAL TO | TAL, 2011 – 2021 [PERCE | NIAGL     |              |                |

TABLE 44: TOTAL SPENDING % SHARE OF GDP – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2011 – 2021 [PERCENTAGE]

Source: IHS Global Insight 2020

2021

In Mhlontlo Local Municipality the tourism spending as a percentage of GDP in 2021 was 2.54%. Tourism spending as a percentage of GDP for 2021 was 3.34% in O.R. Tambo District Municipality, 4.15% in Eastern Cape Province. Looking at South Africa as a whole, it can be seen that total tourism spending had a total percentage share of GDP of 4.76%.

#### 14. International trade

The Mhlontlo Local Municipality is a very closed economy in terms on international trade, with very little imports and exports. The various breakdowns that you would typically find under this heading for larger areas, is of limited value, and one should be careful to base any decisions on such small numbers. Therefor the details of this section have been omitted.

#### 14.1 Relative importance of international trade

2.5%

In the table below, the Mhlontlo Local Municipality is compared to O.R. Tambo, Eastern Cape Province and South Africa, in terms of actual imports and exports, the Trade Balance, as well the contribution to GDP and the region's contribution to total national exports and imports.

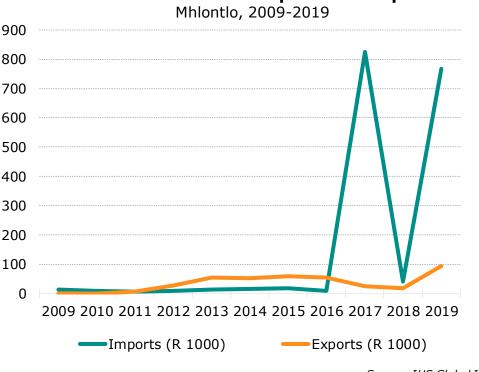

|                                 | Mhlontlo | O.R. Tambo | Eastern Cape | National Total |
|---------------------------------|----------|------------|--------------|----------------|
| Exports (R 1000)                | 93       | 4,487      | 59,328,575   | 1,303,145,000  |
| Imports (R 1000)                | 768      | 13,598     | 61,842,938   | 1,263,824,000  |
| Total Trade (R 1000)            | 861      | 18,085     | 121,171,514  | 2,566,969,000  |
| Trade Balance (R 1000)          | -675     | -9,112     | -2,514,363   | 39,321,000     |
| Exports as % of GDP             | 0.0%     | 0.0%       | 15.2%        | 25.7%          |
| Total trade as % of GDP         | 0.0%     | 0.0%       | 31.0%        | 50.6%          |
| Regional share - Exports        | 0.0%     | 0.0%       | 4.6%         | 100.0%         |
| Regional share - Imports        | 0.0%     | 0.0%       | 4.9%         | 100.0%         |
| Regional share - Total<br>Trade | 0.0%     | 0.0%       | 4.7%         | 100.0%         |

TABLE 45: MERCHADISE EXPORTS AND IMPORTS – MHLONTLO, OR TAMBO, EASTERN CAPE, NATIONAL TOTAL, 2019 [R 1000, CURRENT PRICES]

Source: IHS Global Insight 2020

The merchandise export from Mhlontlo Local Municipality amounts to R 93,400 and as a percentage of total national exports constitutes about 0.00%. The exports from Mhlontlo Local Municipality constitute 0.00% of total Mhlontlo Local Municipality's GDP. Merchandise imports of R 768,000 constitute about 0.00% of the national imports. Total trade within Mhlontlo is about 0.00% of total national trade. Mhlontlo Local Municipality had a negative trade balance in 2019 to the value of R 675,000.

CHART 58: IMPORT AND EXPORTS IN MHLONTLO LOCAL MUNICIPALITY, 2009 - 2019 [R 1000]

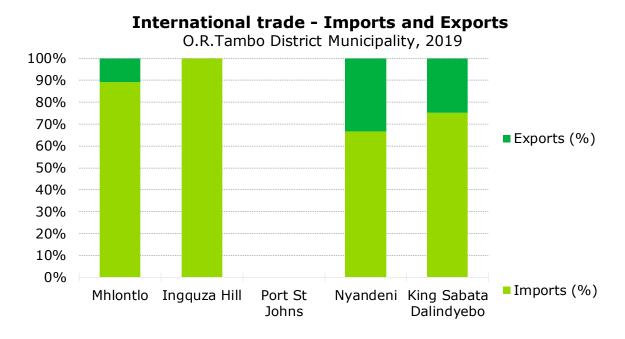

International trade - Imports and Exports

Source: IHS Global Insight 2020

Analysing the trade movements over time, total trade increased from 2009 to 2019 at an average annual growth rate of 51.59%. Merchandise exports decreased at an average annual rate of 0.00%, with the highest level of exports of R 93,400 experienced in 2019.

Merchandise imports increased at an average annual growth rate of 49.86% between 2009 and 2019, with the lowest level of imports experienced in 2011. CHART 59: MERCHANDISE EXPORTS AND IMPORTS – MHLONTLO AND THE REST OF OR TAMBO DISTRICT MUNICIPALITY, 2019 [PERCENTAGE]

Source: IHS Global Insight 2020

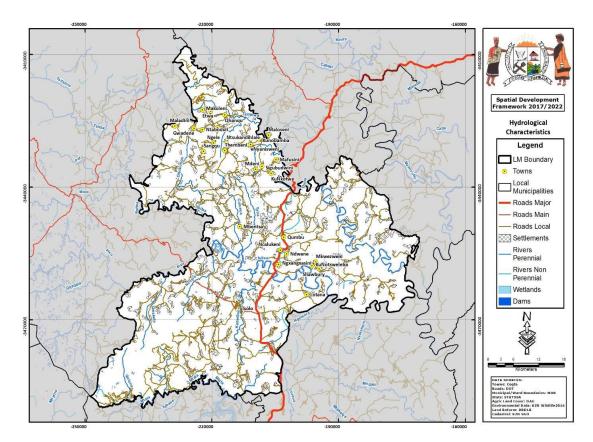

When comparing the Mhlontlo Local Municipality with the other regions in the O.R. Tambo District Municipality, King Sabata Dalindyebo has the biggest amount of international trade (when aggregating imports and exports, in absolute terms) with a total of R 14.9 million. This is also true for exports - with a total of R 3.68 million in 2019. Port St Johns had the lowest total trade figure at R 0. The Port St Johns also had the lowest exports in terms of currency value with a total of R 0 exports.

#### 15. Environment

# 15.1 Rivers, Hydrological Water Features and Ecosystem

Mhlontlo Local Municipality is transversed by two major perennial rivers which are Tsitsa River and Tina River. The municipality is located within UMzimvubu River Catchment and there are a number of additional wetlands and non-perennial rivers within the area. Freshwater Ecosystem Priority Areas (FEPA) are important water resource and aquatic ecosystems areas that need protection for promoting sustainable water resource use and achieving the freshwater ecosystem goals of the country. Mhlontlo is still faced with challenges of not being able to provide water in some areas.

Access to clean water is a deep challenge in rural areas because people there have no option but to utilise spring, dam and rivers as sources of water and are prone to a number of water borne diseases. The National Water Act (1998) recognises that water is a scarce resource and that there is a need for the integrated management of all aspects of water resources. The National FEPA project aims to achieve such integration with the National Environmental Management Biodiversity Act (2004). The implementation of the measures in this Act must be improved in the area, specifically in respect of the protection, conservation, and sustainable use of the water resource assets in the Mhlontlo.

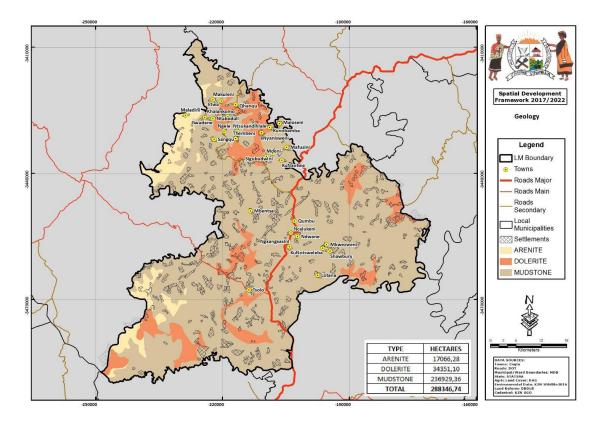

#### 15.2 Geology

Mhlontlo Municipality comprises of a range of soil geology formations which includes Mudstone, Dolerite and Arenite. Mudstone (also called mudrock) is a fine-grained sedimentary rock whose original constituents were clays or muds. Grain size is up to 0.0625 mm (0.0025 in) with individual grains too small to be distinguished without a microscope. With increased pressure over time the platey clay minerals may become aligned, with the appearance of fissility or parallel layering. This finely bedded material that splits readily into thin layers is called shale, as distinct from mudstone.

The lack of fissility or layering in mudstone may be due either to original texture or to the disruption of layering by burrowing organisms in the sediment prior to lithification. Mud rocks, such as mudstone and shale comprise some 65% of all sedimentary rocks. Mudstone looks like hardened clay and, depending upon circumstances under which it was formed, it may show cracks or fissures, like a sun-baked clay deposit.

In terms of construction mudstone is characterized with few serious geotechnical problems compared with other, soil but it is significant to the construction industry because it is frequently encountered in civil engineering activities involving foundations, excavations and earthworks. Its nature is such that its properties may vary between a soil and a rock depending on its detailed lithology and its state of weathering. Because of this, in some cases, weaker material may be found below stronger rather than the more normal weathering progression where the weakest material occurs at the surface and becomes fresher and stronger with depth. Dolerite is also widely distributed into both groups of sediments. Although the dolerites occur over large areas, there are usually underlain by shale even on what appears to be dolerite ridges. This also implies that these tend to be very narrow and shale is the most predominant parent material. There are poorly drained soils that occur on older alluvial.

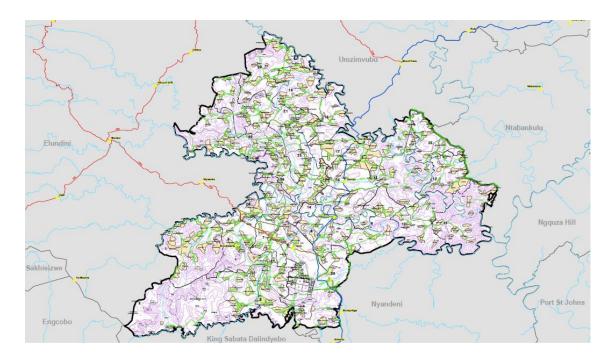

#### 15.3 Topography

The topography of Mhlontlo shows that the western area is relatively steep, while the eastern portion is relatively flatter. The major rivers in the municipality area are the Tina River and Tsitsa River, which cut through the eastern and western section of the municipality.

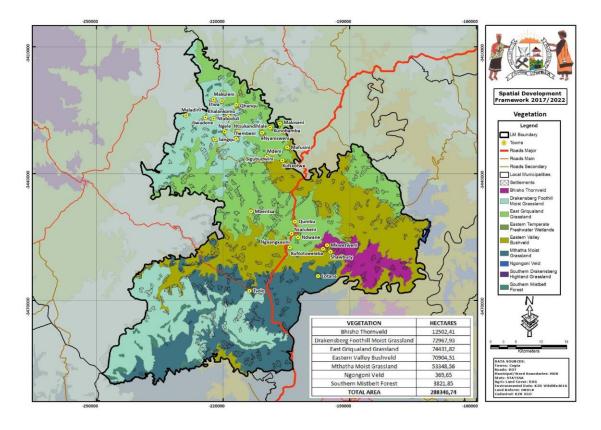

#### 15.4 Climate

Annual average rainfall for the majority of the area is between 701 and 800mm, with a portion of the western area having a higher rainfall and a small portion of the eastern area with a rainfall of less than 600mm per annum. The topography and rainfall together have implications for the potential productive use of the land, and this will be further examined under the sections dealing with land capability, land cover and vegetation.

# 15.5 Vegetation types

Majority of the area is Moist Upland Grassland, with a portion along the major water courses being Valley Thicket and a small pocket of North-Eastern Mountain Grassland in the extreme north of the area.

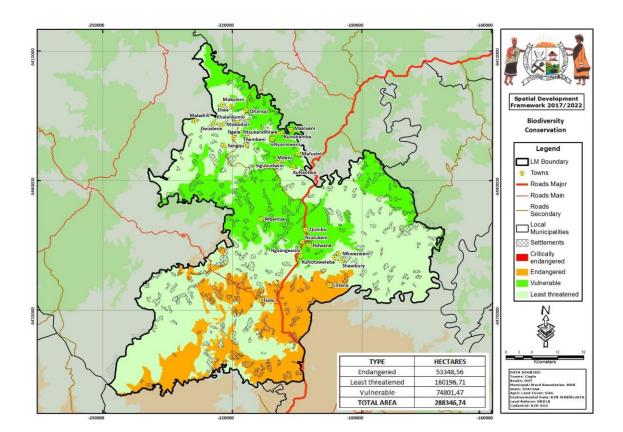

#### 15.6 Biodiversity

Biodiversity provides us with clean water, air and soil as well as medicinal plants, fuel wood, food products (from fishing, hunting and vodkas), building materials and grazing. Plants roots stabilise the soil and prevent erosion. All of these are vitally important for human wellbeing, Biodiversity also contributes significantly to rural livelihoods. The scenic beauty of the Province provides valuable products for the tourism and wildlife industry, with potential to generate considerable economic revenue from nature reserves, game farms and hunting lodges.

At the global scale, we depend on nature, particularly forests, to absorb the carbon dioxide that is generated, and to regulate the climate. All of these resources depend directly on biodiversity. In terms of the Biodiversity Act (Act 10 of 2004), the Minister or the MEC for environmental affairs in a province may determine a geographic region as a bioregion for the purposes of the Act and publish a plan for the management of biodiversity in the region. There is an obligation for government on the one hand to promote rural development poverty alleviation and service delivery, and on the other hand to ensure that the rich natural capital of the Province is sustainably used and conserved such that both current and future generations may benefit.

Critical Biodiversity Areas (CBAs) are terrestrial and aquatic features in the landscape that are critical for conserving biodiversity and maintaining ecosystem functioning. The ECBCP developed two maps, one showing terrestrial (land-based) CBAs and the other showing aquatic (freshwater) CBAs. The map of terrestrial CBAs was compiled by undertaking a systematic biodiversity planning analysis and adding all biodiversity priority areas identified by other systematic Biodiversity Planning projects (such as STEP) in the Province. Aquatic CBAs were identified on the basis of sub-quaternary catchments, addressing the linkages between catchments, important rivers and sensitive estuaries. Priorities were identified through a systematic conservation planning analysis.

# 15.7 Nature Conservation

There is a newly proclaimed Nature Conservation within Tsitsa Falls. It covers the existing natural waterfall and ancillary facilities which include a lodge, viewing area and Tsitsa River. It is home to a number of plant species and natural endowment. A need exists to protect the ecological integrity of this natural area.

# 15.8 Environmental change, Impact and Priorities

Environmental change refers to the modification of the natural environment, either through humanly or natural (climate change) and human induced factors. These factors influence the biophysical environment and drives environmental change. These changes place pressures on the environment and create outcomes, which are not always desirable. Therefore, environmental pressures must be maintained within their limits to avoid sudden ecological change that can drastically reduce the flow of ecosystem services, and, thereby increase pressures on the social and economic systems. This is the basis of sustainability.

Key strategies include the determination of flood lines and the need for people to move out of flood plains, the preservation of grasslands and forests and the planting of trees. Increased fire risk means education on how to make homes safer, and the burning/creation of fire breaks. Infrastructure will need to be improved to be able to respond to increased storm water and higher temperatures. Farming and Conservation approaches will need to adapt.

#### 15.9 Environmental Governance

The prevailing environmental governance system in the Mhlontlo Local Municipality has the potential to create change and undesirable outcomes for the people and the environment. Environmental governance is defined as "the exercising of authority over the use and management of natural resources, and the environment. It is essentially about making decisions and about who makes decisions. It includes rules, processes and behaviours that affect the manner in which decisions are made. These decisions ultimately determine whether the environment is harmed or improved" (DAEARD, 2010). Good Governance is identified in Mhlontlo Local Municipality as one of the Key Performance Indicators. Mhlontlo Local Municipality has prioritised this KPI and through good governance, the municipality aims to ensure efficient and effective public participation processes; ensure cooperative governance with the district, neighbouring municipalities and other stakeholders.

#### 15.10 Proposal for the declaration of Mhlontlo Nature Reserve

#### 15.10.1 Introduction

The MEC for the Department in his outreach programme in June 2007 also visited the O. R. Tambo District Municipality, Mhlontlo local municipality. The municipality had identified a project which is environmentally related (a land which can be set aside and be used as protected area and a tourism destination).

The land in question is within Mhlontlo local municipality in Shawbury village and abuts with the Tsitsa Rive to the West and the Shawbury College to the East. The land is communally owned meaning it is state land and is about  $+/_{-}$  50 hectares.

# 15.10.2 Legislation Framework considered

National Environmental Management Protected Areas Act no. 57 of 2003 Chapter 3, Section 23 (1)(a)(i), empowers;

- The Minister or the MEC that he may by notice in the Gazette:
- Declare an area specified in the notice:
- As a nature reserve

- Has significant natural features
- Is in need of long-term protection for the maintenance of its biodiversity
- To provide for a suitable flow natural products and services to meet the needs of a local community.
- To provide a nature-based recreation and tourism opportunities.

Chapter 3, Section 34 (2)(a)(b), affected organs of state, communities and other beneficiaries;

• Land held in trust by the state or an organ of state for a community or other beneficiary, the minister or the MEC may declare that area only with the concurrence of the trustee and the community involved.

Chapter 3 Part 5: Consultation section 32 (subject to section 34) & section 33 of the act.

# 15.10.3 Aims and Objectives

- Expansion of area under biodiversity conservation
- Promote tourism
- Enhance job opportunities (EPWP: fencing project) & post establishment
- To fulfill our national constitution, Act 108 of 1996, Chapter 2, Section 24.

#### 15.10.4 Key Outputs

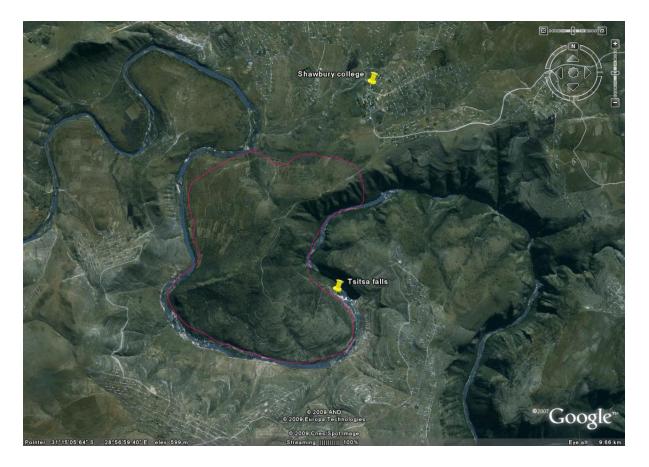

- Conservation area.
- Local economic spin-offs through:
- (a) Jobs
- (b) Training
- Tourism development through the following:
- I. Hiking trail
- II. River Canoeing
- III. Mountain climbing
- IV. Ecotourism and/or cultural tourism
- V. Game viewing.
- VI. Camping and Caravanning
- VII. Tourists Accommodation
- VIII. Tour guiding
  - Alternative land-use practice towards sustainable development.
  - Hunting for: introduce game through donation by ECPB
  - a) Trophy
  - b) Venison

# 15.10.5 Status of the affected area

# Land use map

Reserve area

Currently the land is communally for grazing, some old fallow fields and fire wood harvesting (generally subsistence).

#### 15.10.6 Physical environment

The area is on the deep river valley (Tsitsa River valley) and is about +/\_ 50 hectares.

# 15.10.7 Biodiversity (Fauna and Flora)

The area identified has a high biodiversity potential and the following species of animals are found in the area:

- Blue duiker
- Grey duiker
- Baboons
- Dassies, and variety of small cats including genets
- A diverse range of bird species are found in that area

The following are some of the plants species found in the area:

The vegetation is generally that of the valley Bushveld:

| Common name | Vernacular name | Scientific/Botanical name |  |
|-------------|-----------------|---------------------------|--|
| Bitter aloe | Ikhala          | Aloe ferox                |  |
| Aloe        | Inkalane        | Aloe speciosa             |  |

| Cycad                 | Umnguza                     | Encephalothas sp     |
|-----------------------|-----------------------------|----------------------|
| Aloe                  | Ingcelwane                  | Aloe variegata       |
| Tinderwood            | Ugangazane                  | Clerodendrum glabrum |
| Small bone-apple      | Intsinde                    | Coddia rudis         |
|                       |                             | Crassula spp         |
| Cabbage tree          | Umsenge                     | Cussonia spp         |
| Climbing flat-bean    | Uzungu                      | Dalbergia obovata    |
| Blue-bush             | Umbongisa                   | Diospyros lycoides   |
| Kei apple             | Umqokolo                    | Dovyalis caffra      |
| Beanlike tree         | Umnqwane/umsintsi           | Erythrina latissima  |
| Common tree euphorbia | Umhlontlo                   | Euphorbia ingens     |
| Fig                   | Umthombe                    | Ficus natalensis     |
| Natal bottle-brush    | Indalu usingalwamaxhegokazi | Greyia sutherlandii  |
| Old wood              | Isidwadwa                   | Lucosidea sericea    |
| Red grass             | Uqaqaqa                     | Themeda trianda      |
| Wild medlar           | Umvilo                      | Vanguera fausta      |

The following stakeholders have been identified and therefore will be roped in because their involvement is very critical:

- Department of Land Affairs,
- Department of Water Affairs Forestry
- Department of Environmental Affairs & Tourism
- Eastern Cape Parks Board
- Traditional Authority,
- Mhlontlo local & O.R Tambo District municipality

#### 15.10.8 Socio-economic

The natural resources in the Transkei area of the Eastern Cape are a basic component of local subsistence strategies. The local people's perceptions of benefits arising from the natural resources are expressed within the ambit of their subsistence needs. Thatching grass, fuel wood, non-timber forest products, medicinal herbs, water, wild game, and fish are some of the major benefits from natural resources. The common activities in the area are informal hunting, fishing, subsistence farming (cropping with maize and livestock) and traditional purposes including rituals. Dependence on remittances e.g. income through migrant labour system; subsistence agricultural production; welfare payments i.e. through social pensions or disability grants form part of livelihood strategies at Mhlontlo.

#### 15.10.9 Conclusion and Recommendations

This initiative will significantly contribute to conservation of biological diversity as South Africa is a signatory on Biodiversity Convention. Through implementation of this proposed development, local people from the area will be empowered through participating in different capacity building initiatives.

#### 15.10.10 Process plan

- 1. DEDEA has held a number of meetings with the municipality and community
- 2. Consultation with relevant Departments (Land Affairs, ECPB)

- 3. SLA agreement has been signed, await confirmation of funding for fencing
- 4. A working committee is in place
- 5. Land Affairs to finalize land use rights, community resolution, survey & valuation
- 6. Declaration by MEC
- 7. Develop management objectives and plan

#### 16. Health

The Constitution makes a distinction between health services -which is a concurrent national and provincial function- and municipal health services which is an exclusive municipal function. The National Health Act defines 'Health Services' as:

- a. Health care services including reproductive health care and emergency medical treatment, contemplated in section 27 of the Constitution,
- b. Basic nutrition and basic health care services contemplated in section 28 (1) (c) of the Constitution,
- c. Medical treatment contemplated in section 35(2) (e) of the Constitution, and
- d. Municipal health services.

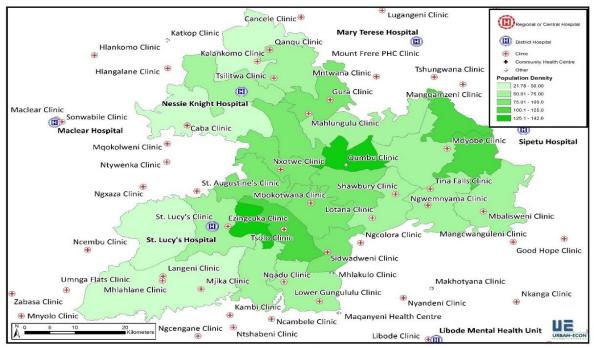

Provincial departments of health continue to take primary responsibility for hospital services, with oversight and coordination from the national department. The National Health Act further defines 'Municipal Health Services' as:

- a. Water quality monitoring,
- b. Food control,
- c. Waste management,
- d. Health surveillance of premises,
- e. Surveillance of prevention of communicable diseases, excluding immunisations,
- f. Vector control,
- g. Environmental pollution control,
- h. Disposal of the dead, and
- i. Chemical safety

#### Mhlontlo Health District

| DATA/PERIOD              | JANUARY 2023 |
|--------------------------|--------------|
| Total remaining on ARV's | 224 150      |
| Total defaults           | 1551         |

The Mhlontlo – Qumbu Health District has issued in the table **above** the HIV/Aids report. It shows that approximately 21.6% of the Mhlontlo population is on ARVs. All Hospital and clinics in Mhlontlo have access to issue ARVs. Nessie Night Hospital has 6 permanent doctors, Dr Malizo Mpehle has 8 permanent doctors and St Lucy's Hospital has 2 permanent doctor. There are 3 permanent doctors in clinics, 3 of Mhlakulo health Centre and 3 of Qumbu health Centre.

#### The map below shows the location of the health posts in Mhlontlo Municipality

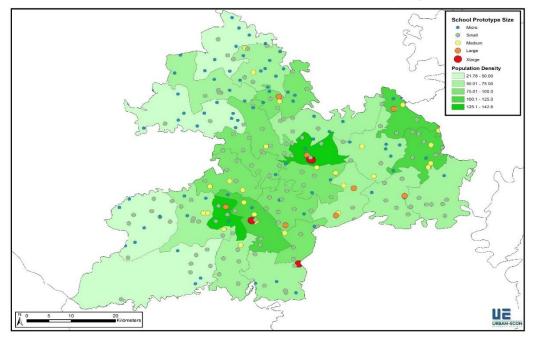

# 17. Education

#### 17.1 School results

The Mhlontlo circuit has 34 Senior Secondary Schools 1949 learners in 2023 sat for grade 12 exams and 1405 passed which is 72.1%. In 2022 the number of learners wrote exams was 1814 and 1226 has passed the exams which is 68% of the learners. That shows an increase from 68% in 2018 to 72.1% 2022.

#### 18. Human Settlement

The provision of housing is currently a shared responsibility across the 3 spheres of government with provincial government being the main implementing agency. According to the National Housing Act; municipalities are required to undertake planning of housing development, provide the infrastructure for housing projects and take over responsibility for the management of housing developments. They are also expected to identify land for human settlement in relation to their spatial development framework. Furthermore, municipalities are responsible for the identification of people who are eligible for receiving housing subsidies and, in selected case they are responsible for contracting with developers. However, provinces retain control over housing subsidies and the approval of projects to be supported.

The most recent official government definition of Formal Housing comes from the Comprehensive Plan, passed by Cabinet in 2004 – and informed largely by the Housing White Paper, 1994. This definition, summarised, states that a formal dwelling should be;

- a. A permanent residential structure
- b. Under secure tenure
- c. Internally and externally private
- d. Able to provide sufficient protection from the elements
- e. Able to meet the sanitation, water and electricity demands of the occupants
- f. In an area that is close to social amenities, health and education services and employment opportunities

In planning for the provision of human settlement, municipalities are expected to ensure its integration with spatial planning, land use management, roads and other plot-based services, public transport, public places and community development. All of these are expected to be detailed in a Municipal Housing Sector Plan. While there is a sector plan in place, it requires a review to factor in the necessary updates to both ensure its bases and analysis on the latest

situational analysis as well as anchoring all proposed housing projects on the imperatives of the municipal spatial development framework.

Proccesses of conducted land audit for the municipality are taking place under the current financial 2022/2023. There is identified land that can be banked and the land is available for new human settlement development purposes. The municipality has developed by-laws to control people from invading land under the commonage.

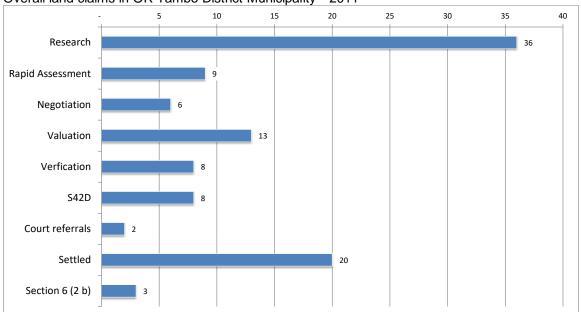

#### 18.1 Land claims

The following is the Land claims of the O.R. Tambo District Municipality;

|                  | Ngquza Hill Local<br>Municipality | Port St Johns Local<br>Municipality | Nyandeni Local<br>Municipality | Mhlontlo Local<br>Municipality | King Sabata<br>Dalindyebo Local<br>Municipality | Total |

| Settled          | 6                                 | 5                                   | 5                              | 3                              | 1   | 20    |
| 62(b)            | 2                                 | -                                   | -                              | -                              | 1   | 3     |
| Total            | 33                                | 14                                  | 16                             | 20                             | 35  | 118   |

Overall land claims in OR Tambo District Municipality - 2011

The overall land claims in O.R. Tambo District Municipality amounts to a total of 118, but it is not necessarily all been approved. The land claims process is done by different approaches.

Overall land claims in OR Tambo District Municipality - 2011

Land claims under research amounts to 36 in 2011. The number of settled land claims amounts to 20 and the number of valuations under process amounts to 13. Court referrals is only 2 and the number of land claims still under rapid assessment is 9.

There is Amanxasane Land Claim, Lower Kroza Land Claim and and Xhokonxa land claim and the Municipality is busy negotiating with all the land claimants in trying to resolve some issues. All the three land claims are validated and the municipality is also in process of speeding up the resolution of the land as it has a potential of hindering service delivery.

# 18.2 Public Places and Community Facilities

The constitutional schedules have a number of functional areas which relates to public places and these need rationalising. Local government is responsible for public places within human settlements. Even Section 84 of the Systems Act is consistent with this notion. However, there are some concerns with the location and responsibility for municipal libraries. Municipal libraries are integral to public spaces and should be a key component of Multi-purpose Centres. There is a space identified for the construction of Qumbu library in Qumbu town. The Qumbu library is operating in a place set aside as youth development centre and the other library in Tsolo has been completed construction and operational. As such they belong with cities. However outside cities the importance of public places declines and the ability of provinces to manage libraries regionally become more important. There is one modular library in Sulenkama ward 21 and one container library in Bele Zingcuka ward 03. Although the is a budget ring fenced by Department of Recreation, Arts and Culture for the upgrading of the Bele Zingcuka Library.

The first issue is the allocation of funding to such facilities, both on the capital and operating account. But then there is a problem of organisational arrangements to manage the facility. All too often municipalities are not able to do this well. In the case of operating expenditure municipalities serving economically weaker areas, B4s in particular, are not able to allocate revenue to cover the costs of running community facilities. Ten (10) wards within Mhlontlo Municipality have ward centres and 16 wards have not. There is also a lack of funding for office equipment and personnel to assist the communities in the centres.

#### 18.3 Sport facilities, Arts and Culture

The Mhlontlo Municipality has an annual sport event called Mayors Cup where all the wards are participating. The winning team participates at level of the District. All member municipalities with teams won at district level compete in the Eastern Cape Provincial SALGA games. There are two sport grounds in both towns and their condition is not conducive for sport. There are also another five sport grounds and they are all incomplete (ward 02, 07, 09,13 and 14). The Mhlontlo Traditional leaders in collaboration with the Municipality have an annual event where they celebrate the life of King Mhlontlo during the month of September. This event is revolving around the ethnic groups existing in Mhlontlo jurisdiction.

#### **19. Roads Infrastructure**

There is clearly a hierarchy in the roads system with roads ranging from national roads (a 'plenary' function which is the responsibility of national government as it is not mentioned in the schedules), provincial roads and municipal roads. The hierarchy is continued further with respect to district roads, which are recognised through the provisions of Section 84 of the Structures Act.

The roads within human settlements, particularly larger ones, are an integral part of such settlements and in fact define the shape and density of settlements and the way people move within them. To a greater extent, planning local economies require clarity in terms of both planned and state of access to and linkage with major routes in-between economic hubs. However, the Municipal Spatial Development Framework clearly provide a mapped

detail in terms of the state of access roads to and the level of backlog to this service by category. For each category of roads, the mapped outline will indicate where the existing roads are and to what extent are such appropriately linked to the municipal strategic infrastructure provision and the local transport planning. Transport Forum is convened quarterly. The municipality is using Rural Road Asset Management System (RRAMS) to manage completed access roads.

According to the Ward Based Needs analysis that was conducted during 2023/2024, the Mhlontlo Local Municipality is experiencing a big challenge on roads infrastructure. The existing roads infrastructure was damaged by floods and the municipality does not have enough resources to rehabilitate them. About 5200+/\_ km's of roads that are needed by the community of Mhlontlo. The Mhlontlo Municipality has developed a Road and Storm Water master plan and approved by the council and it details how to address the above backlog.

### 19.1 Access to Transport Services

Although this has been a trend only in urban municipalities, all municipalities are required to develop their own Integrated Transport Plans. In the context of Mhlontlo the transport vision outlined in such Integrated Transport Plan will be typically weighted towards public transport. The proposed transport system in terms of mode, routes and interfaces including planned provision of related public facilities will be anchored on the imperatives of the Spatial Development Framework. The Mhlontlo Municipality has developed Integrated Transport Plan and has approved by the council. The municipality is participating in the District Transport Forum which is convened quarterly. It identifies and define three implementation mechanisms that are relevant to the spatial development framework's movement policy and also the implementation of an appropriate public transport system. That is:

A **Strategic Public Transport Network** which links major areas with high impact economic activities and interventions

- a. A transportation nodal programme which outlines interfaces, interchanges and transfers amongst different modes and categories of roads
- b. Strategic Public Transport Network flagship projects, which will guide the municipality in terms which type of transport mode, will be responsible for which route etc. In terms of the Strategic Public Transport Network (SPTN) which is more relevant for the context of Mhlontlo Municipal area, some of the important operating concepts will include following:
- c. All road-based services that are subsidised should be confined to the identified routes.
- d. Transfers should happen at identified interchange nodes.
- e. Routes should be serviced in the peak and off-peak times.
- f. The public transport (buses) routes need to be advertised and marketed.
- g. A standard fares system needs to be introduced.
- h. Improve standards of living; by providing safe and affordable transport access to employment, education, recreation and markets.
- i. Poverty reduction, which includes providing, targeted interventions to support access to income opportunities and affordable transport for the poor.

Given the fact that majority of public transport users rely on minibus taxis and LDVs, worth noting would be the cost effect of the fluctuating fuel prices as well as the connectivity of different transport modes between taxis and buses. The Municipality have four ranks, two taxi ranks and two bus ranks. There are 5 bus shelters within Mhlontlo Municipality jurisdiction. The state of access to transport service is still a challenge. It is expected that a number of relevant aspects are part of the critical questions which are addressed in the SDF.

### 20. Access to social welfare

In order to understand this 'sector' it is necessary to unpack the terms 'economic development' and 'social development'. These are really outcomes rather than functions. It is suggested here that function associated with economic development is 'business and enterprise support' and that the social development incorporates the following functions:

- a. **Social services**: the 'public good' type of services provided to individuals and aimed at improving their individual well-being and at developing their ability to engage with the economy. This includes social welfare.
- b. Social welfare: a set of activities aimed at providing relief to those who are facing acute stress due to their individual circumstances, including: childcare and protection services; care and services to older people; HIV and Aids support; support to victims of crime; services to persons with disabilities; substance abuse; victim empowerment; and care and support services to families.
- c. **Social security (grants):** the transfer of funds to individuals who are unable, even in a well-functioning economy, to earn an income themselves sufficient to allow them to satisfy their basic needs.

### 20.1 Mhlontlo Social Grants and Child Grants Statistics Report January 2024

| Local office | Type of Grants    | Number of     | Number of | Amount       |
|--------------|-------------------|---------------|-----------|--------------|
|              |                   | Beneficiaries | Children  |              |
| Qumbu        | Old age grant     | 11206         |           | R22, 364,020 |
|              | Disability grant  | 2 824         |           | R5 619 760   |
|              | Grant in Aid      | 1 480         |           | R710 400     |
|              | Foster care grant |               | 1 125     | R1 203 750   |
|              | Care dependency   |               | 401       | R797,990     |
|              | grant             |               |           |              |
|              | Child support     |               | 41 466    | R21,000,620  |
|              | grant             |               |           |              |
| TOTAL        |                   | 15 510        | 42 992    | R51,696,540  |
|              |                   |               |           |              |
| Tsolo        | Old age grant     | 7 663         |           | R15,289,010  |
|              | Disability grant  | 2 572         |           | R5,118,280   |
|              | Grant in aid      | 1 491         |           | R715,680     |
|              | Foster care grant |               | 1 177     | R1 259,39    |
|              | Care dependency   |               | 502       | R998,980     |
|              | Child support     |               | 31,657    | R15,195,360  |
| TOTAL        |                   | 11 726        | 33,336    | R38,576,700  |

Mhlontlo Municipality has a total of 102 237 people receiving government grant which is 52.2% of the Mhlontlo Municipal total population. **See table below:** 

### 21. Institutional Development and Transformation

This section is a detailed internal analysis of the municipal status quo, focusing on powers and functions, delegation framework, municipal composition, staff establishment and financial viability. The situation analysis provides a high-level overview of the progress achieved towards the implementation of the priorities set for 2023/2024. In addition, the

report emphasises issues raised by the Auditor General and the steps taken to address them.

### 21.1 Municipal Powers and Functions

Powers and functions of local municipalities are stipulated in Section 156 of the Constitution of the Republic of South Africa, 1996. Utilising information gathered from the annual capacity assessment report conducted by the Demarcation Board, **Table 13** below tabulates key priorities set out in the current IDP and a high-level progress on each priority.

| Priority in IDP  | Progress   |
|--|--|
| Conduct assessments as per Section 78  | Completed  |
| Establish service level agreements for functions outsourced and/or performed by another government entities. | Service Level Agreement for Billboards and display advertisement in public places.   |
| Establishment of service level agreement with other organs of state and private organisation                 | SEDA, LGSETA, SASSETA  |
| Increase functions performed by Mhlontlo<br>Local Municipality   | Licensing authority complete and is fully<br>functioning. Construction of Weigh Bridge is<br>still underway with the Department of<br>Transport. |
| Projects that need Environmental Impact<br>Assessment (EIA)  | Nomhala to st Curthberts A/R, Gqubela to Mhlabathi, Siqikini to Bajodini A/R   |

High Level Progress Review

A review of functions performed or not performed by Mhlontlo; capacity levels to perform the respective function; details of any external arrangements related to the respective functions are shown in **Table 44** below.

| # | Local<br>Government<br>Function | Description<br>of function<br>performed<br>by Mhlontlo<br>Local<br>Municipality <sup>1</sup> | Mhlontlo<br>Performing<br>(Yes/No) <sup>2</sup> | Comment by<br>Management | Municipal<br>Demarcation<br>Board<br>Assessment<br>2008/2009 | Use of<br>External<br>Entity,<br>Service Level<br>Agreement in<br>place and<br>Section 78<br>completed |

|----------------------------------|---|-------------------|
| Municipal abattoirs              | Municipal capacity and lack of<br>adequate infrastructure | Low               |

### 21.2 System of Delegation within Mhlontlo Local Municipality

The Republic of South African Constitution states that the Legislative and Executive Authority of a Municipality is vested in its Municipal Council. Section 156 and 229 of the Constitution stipulates the functions and powers assigned to Municipalities. However, it is impractical for a municipal council to exercise both its legislative and executive authority efficiently and effectively without a delegation framework.

Section 32(1) of the Structures Act and Section 59(1) of the Systems Act require a municipal council to develop a system of delegation that will maximize administrative and operational efficiency and provide for adequate checks and balances, and, in accordance with that system, council may delegate appropriate powers to any of the municipality's political structures, political office bearers, Councillors and staff members, instruct any such political structure, political office bearer, Councillor or staff member to perform any of the municipality's duties; and withdraw any delegation or instruction.

The Mhlontlo Local Municipality council have reviewed and adopted a delegation framework but needs to develop a delegation register. The delegation framework clearly stipulates roles and responsibilities of the political office bearers, Council structures, the municipal manager and the departmental managers. It indicates the delegated power, the limitations and conditions under which those powers have been delegated. Delegation framework further points out the circumstances and manner in which the delegated power may and can be reviewed and/or withdrawn.

The municipal delegation policy document has identified issues like skills shortage and staff shortages as hindering factors to effectively segregate duties and enable fully functioning committees. Capacity challenges have been cited as negatively impacting in program delivery. The only thing that has been addressed is the hiring of staff.

Attention is drawn to a legal requirement as per section 32 (1) of the Structures Act to review delegation allocated to committees when a new council is elected and Section 65 of the Systems Act who stipules conditions under which delegated functions may be reviewed.

| Priority in IDP                                      | Progress   |
|--|--|
| Employment Equity Plan and Work Place<br>Skills Plan | EEP developed and adopted by the council and is reviewed annually. EEP is in place and implemented all |
|  | though there are challenges.   |
|  | WSP developed and adopted by the council and is reviewed annually                                      |
| Critical appointment                                 | 90% achieved.  |

## 21.4 Staff Establishment

Staff establishment statistics confirm that significant progress has been made towards filing vacant posts. While insufficient funding continues to be a challenge; more than 74.1% of the posts have been filled, while 25.9% of the posts is vacant with some funded and others unfunded. The Institution is planning to fill all the vacant position during the 2023/2024 and 2024/2025 financial years. **Table 49** below tabulates a summary of the staff complement.

#### Table 51: Management Profiles

# 22. Good Governance and Community Participation Structures

In this section of the report, we reflect on structures in place to ensure effective public participation, accountability and transparency.

# 22.1 Ward Committees

260 ward committee members have been elected in all 26 wards and each ward has elected 10. Ward centres still have no resources or support to adequately plan, conduct and record ward committee meetings. Capacitation is done in collaboration with the district municipality. The municipality has eight community centres used for ward committee meetings, where such infrastructure does not exist; local churches, Traditional Authorities or schools are utilised for ward committee meetings. Ward Committees report find space to the council through the office of the Speaker.

# 22.2 Community Development Workers (CDW)

23 Community Development Workers were employed in the municipality and only three wards without CDWs, ward 03, 09 and 18. They form part of the municipal activities and ward structures. They are the secretaries in War rooms and also sit in the ward committee meetings and other municipal activities. CDWs prepare reports of challenges of the wards and report to the office of the Speaker.

## 22.3 Council Meetings

The council meetings are convened as per the Legislation and Standing Rules of the council as approved by the council and council calendar. Transparency in the council meetings is promoted through various means including open council meetings advertised in the local newspaper and website for the public to attend and live broadcasting by community radios.

# 22.4 Section 79 Committees

**Petitions Committee:** It has been established within the office of the Speaker with seven members. They register the petitions in the petitions register and make a follow up on each petition and prepare a report to the council.

**Woman's Caucus:** It has been established with 7 members focusing on the well-being of the women in the council and outside the council.

**MPAC:** It has been established with 8 members playing an oversight role in the municipality and it is functional

**Ethics & Members Interest:** it has been established with 6 members focusing in the interest of the council and traditional leaders in the council.

# 22.5 Public Participation

Community participation is conducted by the Office of the Mayor through Mayoral Imbizo's, IDP Rep Forums and IDP Roadshows. The Office of the Speaker conducts Public Participation and Open Council Meetings.

### 22.6 Corporate Governance

Audit Committee: The Audit Committee was appointed by the council and is fully functional.

The Audit Committee Charter was also approved by council with the terms of reference.

**Disciplinary Board:** Mhlontlo Municipal Council has appointed the Financial Misconduct Disciplinary Board as per the legislation (Four members- Chairperson of the Audit Committee, Member of the Community, Provincial Treasury Representative and Chief Audit Executive) and it is functional.

**Internal Audit:** Mhlontlo Local Municipality has established its Internal Audit Unit with two personnel Chief Audit Executive and Internal Auditor but still have shared service with the district municipality. It is fully functional and compile reports for the Municipal Audit Committee.

**Litigations:** The municipality has not yet employed a Legal Service Manager but it is part of the organisational structure with no funding. The litigation register is in place and is within the office of the Municipal Manager. The municipality has appointed three (3) Legal Firms for a period of three (3) years.

**Fraud and Anti-corruption:** The Municipality has developed its Fraud and anti-corruption policy and plan is in place.

**Risk Management Committee:** The Municipality has established Risk Management Committee with Risk Committee Charter and Risk Register. Councillors have been workshopped on risk management and is functional.

**Information Communication and Technology (ICT):** The Mhlontlo ICT office has been established with two personnel, ICT Systems Administrator and IT Technician. The ICT Steering Committee has been established and is responsible to manage all ICT governance and ICT Risks and is sitting quarterly. It is constituted by all senior managers and the Municipal Manager is presiding over the steering committee meetings. Following are the ICT policies and plans; Corporate Governance of ICT, Integrated ICT Policies, ICT Disaster Recovery Plan, Corporate Governance of ICT Charter, ICT Strategic Plan, User Access management and ICT General Controls Framework.

**BID Committees:** BID Committees are in place to assist in the procurement of services and are appointed by the office of the Municipal Manager and they are as follows: BID specification Committee, BID evaluation committee and BID adjudication committee.

**Performance Management Committee:** It has been established as per the legislation and is functional. The committee is convened quartely

**Local Labour Forum:** it has been established and is functional and is convened quarterly. Members of the forum includes councilors, employees and unions.

### 22.7 Inter-governmental Relations Structures

Regulation governing Intergovernmental Relations (IGR) requires the establishment of structures and mechanisms aimed at enabling integrated planning and management within the different spheres of government. In striving towards effective intergovernmental relations, the IGR Policy was developed and approved by the council with terms of reference.

**Operation Masiphathisane (War Rooms):** Operation Masiphathisane was piloted in Mhlontlo Municipality by the Premier Phumulo Masualle in July 2016 as a Integrated Service Deelivery Model and 7 wards were launched. A programme was developed with the assistance of the OR Tambo District to launch the remaining 19 wards.

All the 26 wards of Mhlontlo have War Rooms and training conducted and it was facilitated by the District Municipality. An official has been allocated by the district municipality to assist Mhlontlo Municipality in ensuring functionality of the war rooms but they are not functional.

**District IGR Forum:** Political heads (Mayors) from the local municipalities, the district municipality, municipal managers from both locals and district and managers from sector departments constitute the district mayor's forum (DIMAFO). The forum aims to provide political leadership in aligning planning, implementation and monitoring of government programs. The DIMAFO prepares a report to be tabled by the Executive Mayor to the Political MuniMEC.

**Local Inter-Governmental Relations Forum (IGR):** The heads of sector departments residing with Mhlontlo, District Municipality, District Sector Departments, municipal heads of departments, SOEs and NGOs constitutes the technical local IGR and is chaired by the municipal manager. It seats quarterly as per the approved council calendar. The forum precedes the political IGR that is chaired by the mayor. Sector Department District Directors and heads of Departments from Mhlontlo Municipality, SOEs, NGO form part of the Political IGR.

**Municipal Manager's Forum:** Municipal Managers from the local municipalities under the leadership of the District Municipal Manager, and senior managers from the sector departments constitute the municipal manager's forum. The forum aims to integrate and align implementation of government programs. This structure precedes the sitting of the DIMAFO by preparing a report to be presented to the DIMAFO.

**Indigent Steering Committee:** It has been established and it is composed of members from Mhlontlo LM and members from the OR Tambo District. Indigent register is updated annually with the assistance of the district. Meetings are convened quarterly.

### 23. Financial Planning and Management

### 23.1 Valuation roll

The Mhlontlo Local Municipality has conducted its general valuation during the 2023/2024 – 2027/2028 circle. The previous valuation roll is fully implemented. Supplementary valuation roll was conducted during 2023/2024.

# 23.2 Finance Policies

Mhlontlo Local Municipality is a small municipality operating with a limited revenue base. This section of the report gives a high-level overview of the progress achieved towards improving the financial viability of the municipality. Municipality has allocated resources towards ensuring that all policies that are critical to financial management are developed and are reviewed annually. Table 52 below tabulates the status of financial policies.

| Policy & Procedures              | Develop<br>ed | Council<br>Approved | Reviewed | Fully<br>Implemented | Need<br>Review |
|----------------------------------|---------------|---------------------|----------|----------------------|----------------|

# 23.3 Municipal Funding

The municipality has a limited revenue base in terms of size and our ability to innovatively generate revenue is further constrained by our social and economic situation. While we constantly strive to maintain a balanced budget by ensuring that our income covers our expenditure; challenge of dependence on grants remains. The municipality is preparing its financial statements in-house according GRAP. The municipality has developed Annual Financial Statements Process Plan for the financial year 2023/2024.

The following reports are prepared and submitted to the Internal audit, Audit Committee and council structures, Section 71, Section 52d, Section 72, and Yearly Reports. The municipality have separate accounts for equitable share and Conditional Grants. The Municipality is financially liquid, there are no threats on the finances as the municipality does not have loans and overdraft. The assets exceed the current liabilities.

## 23.5 Expenditure

## 23.5.1 Operating Expenditure

Expenditure for salaries, wages and allowances (**see Table 54)** has increased as a result of the posts that are filled excluding some critical posts identified in the last IDP. The Municipality is using e-filling system to keep records. Salaries, wages and allowances have increased from 29.92% in 2023/2024 to 39.61% in 2023/2024 of total operating expenditure.

The implementation of the reviewed expenditure controls and monitoring mechanisms, general expenses have decreased from 69.34% in 2018/2019 to 59.81% in 2020/2021 and Repairs and maintenance have decreased from 0.74% in 2018/2019 to 0.58% in 2020/2021.

| EXPENDITURE                    | Actual       | % total     | Actual       | % total     |
|--------------------------------|--------------|-------------|--------------|-------------|
|                                | 2022/23      | expenditure | 2023/24      | expenditure |
| Salaries, wages and allowances | R109 068 543 | 46.42       | R109 897 000 | 47.27       |
| General Expenses               | R103 593 039 | 44.09       | R81 147 000  | 34.91       |
| Repairs and Maintenance        | R22 262 964  | 9.47        | R41 423 000  | 17.81       |
| Total                          | R234 924 546 | 100         | R232 467 000 | 100         |

### Table 54: Operating Expenditure (2023/2024)

### 23.5.2 Capital Expenditure

In line with our priorities, the municipal capital expenditure increased by 49,88% from **R96 571 000** during the 2021/2022 financial year, to **R112 150 000** in 2022/2023. The municipality has managed to spend 100% on MIG and there was no rollover approved for the additional R19,6 million allocation, the municipality has also managed to spend 100% on INEP in 2021/2022 financial year.

| Capital expenditure | Actual    | % of total  | Actual    | % of total  |

| TOTAL                             | R37 301 555 | 100%       | R74 778 595 | 100%  |

# 23.6 Fiscal Oversight and Control

### 23.6.1 Internal Audit Function

The internal audit has been functional within Mhlontlo Local Municipality. Internal audit processes and/or reports are made available on quarterly basis. It improves internal controls and successfully address issues raised in the auditor general's report.

### 23.6.2 mSCOA

The municipality is developing its budget using mSCOA. The council has taken a resolution on the mSCOA. Implementation plan has been developed as per the National Treasury regulations. mSCOA champion is the Municipal Manager and the oversight committee is composed of all the senior managers in the municipality.

### 23.6.3 Auditor General's Findings

| Financial year | Audit Opinion Issued |
|----------------|----------------------|
| 2019/2020      | Unqualified          |
| 2020/2021      | Unqualified          |
| 2021/2022      | Qualified            |
| 2022/2023      | Qualified            |

Mhlontlo Municipality got the same audit opinion (qualified) as Auditor General has issued Qualified audit opinion on the financial statements submitted for the financial year ended 30 June 2023.

The Mhlontlo Local Municipal management has developed an audit action plan to address the issues raised by the auditor general.

### Audit Action Plan

See Attached Annexure A

### 24. Local Economic Development

### 24.1 Development Corridors

With regards to the development corridors; whilst they are strongly influenced by access to, and key roads, they can be defined as areas of greatest activity that should be managed in a particular long-term planning manner to catalyse social and economic development as growth anchors. They have major implications in terms of zones of activity be it:

- a. Hazards and risk factors
- b. Potential revenue
- c. Potential businesses and investment potential
- d. Potential development
- e. Potential contributory capacity in terms of economies of scope and scale.

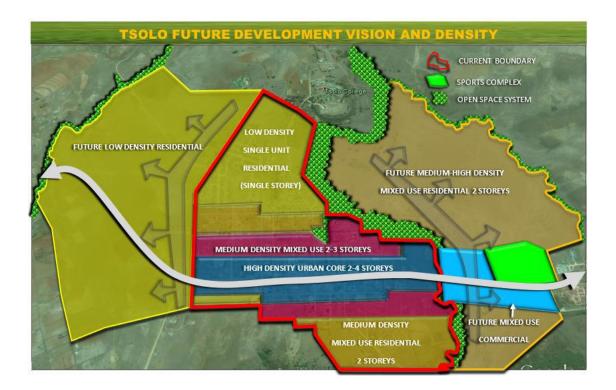

In most municipalities and from a planning perspective, there are generally two levels of development corridors. These are secondary and primary corridors based on the extent and magnitude of socio – economic and development impact. In the case of Mhlontlo, the two urban spaces linked to Tsolo junction and Langeni will be considered primary corridors to some extent including the corridor linking neighbouring towns such as Mthatha, Maclear and Mt Frere through N2 whilst the road network linking Tsitsa Falls, Tina Falls and or Selunkama to Caba or St Cuthbert's to Tsolo will be considered secondary corridors.

### 24.2 Development nodes

On the other hand, development nodes are the main centres, which are being fed by development corridors in terms of traffic flow, people and physical thresholds. Development nodes are important points providing concentration of different social, services and economic activities. Development nodes can be used to concentrate activities, which could have a multiplier effect to a broader municipal area. Accordingly, Mhlontlo plans to use nodes such as Qumbu and Tsolo urban centres as growth poles to anchor future growth. Some work has been done towards realising this planning approach in the municipality. The Spatial Development Framework has been reviewed and it has municipal plans to anchor its urban or corridor planning in the two urban areas.

The municipality will therefore consider putting mixed land uses together for economies of scale and scope. High order services will be accessed by the public from these two major urban spaces with essential services accessible from all secondary nodes. The municipality's Spatial Development Framework has graded its development nodes into three categories:

a. Primary nodes such as Tsolo and Qumbu main urban centres – it is the most strategically located commercial and administrative centre which is centrally positioned to service the entire municipality. It has been identified as a municipal development node.

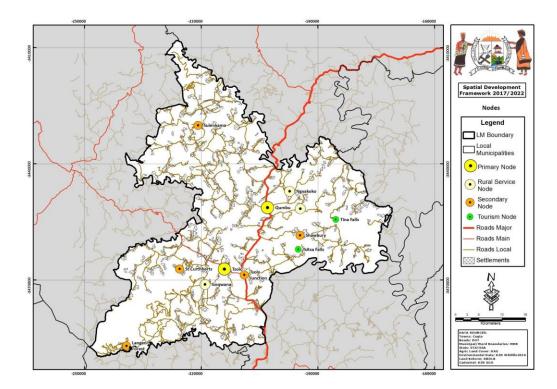

b. Secondary nodes such as Sulenkama, Shawbury, Tsolo Junction, St Cuthbert's and Langeni Forest – they provide higher-level administrative services that cannot be found in settlement development nodes and offer vocational and secondary education, health, childcare services and rural commercial services.

The secondary nodes boost with a number of unique advantages which have not been explored and taken advantage of and these include: -

- Tsolo Junction boosts with a high level of visibility due to a very close proximity in relation to N2 and R396;
- Langeni Forest is located along R61 and R412 to Engcobo; and
- Linkages with Qumbu and Tsolo which raises a number of opportunities.
- c. Tertiary nodes such as Tsitsa and Tina Falls these serves as a link between the local communities and the major towns as such they should locate in accessible areas along or at the intersection of the public transport routes. There are currently limited developments in these areas.

In addition, the municipality has several areas of strategic importance though the measure of development impact is not similar to those listed above. The municipality has thus identified through its Spatial Development Framework a number of sectors. These are clearly depicted in the SDF maps as areas of potential investment such as agriculture (various sub sectors by soil type) forestry, tourism, and manufacturing.

# 24.3 High Impact Catalytic Projects

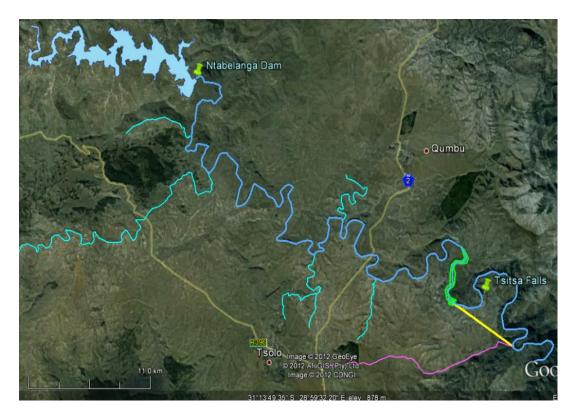

# 24.3.1 Mzimvubu Multi-purpose Project

The Mzimvubu Multi-Purpose Project is a Strategic Integrated Project (SIP project) that is intended to inject stimulus for economic development and social upliftment in the project area. The project scope entails the development of a multipurpose dam on Tsitsa River, a tributary of the Mzimvubu River, to supply irrigated agriculture, domestic and industrial water requirements and hydropower generation. The project footprint spreads over OR Tambo, Alfred Nzo and Joe Gqabi District Municipalities. The Mhlontlo Local Municipality with the assistance of the District Municipality has developed the LSDF for Mzimvubu Multi-purpose dam and Ntabelanga dam and both adopted by the OR Tambo District.

# 24.3.2 Ntabelanga-Laleni Conjunctive Scheme

The scheme being investigated is a conjunctive scheme comprising a large dam at Ntabelanga and a smaller dam at Laleni, both to be operated as an integrated scheme. In addition to supplying domestic and irrigation water, the upstream Ntabelanga dam will also serve to regulate stream flow required to generate hydropower at Laleni. While Ntabelanga dam is investigated at detailed level of feasibility, Laleni hydropower scheme has so far only been investigated at preliminary level. The conjunctive scheme marks the initial phase of a broader development programme of the Mzimvubu Catchment to be phased over time.

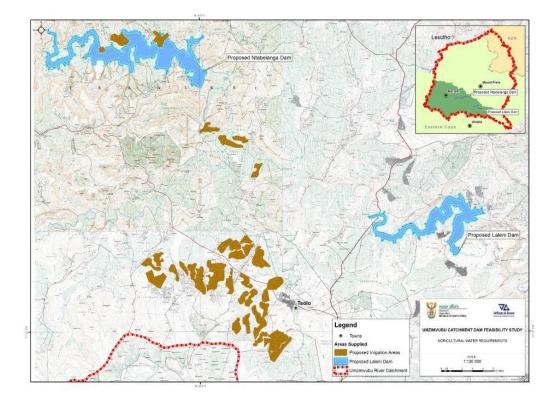

Ntabelanga-Laleni Dam

# 24.3.3 Irrigation Water requirements

Study has identified 2 868 ha of high potential land suitable for irrigated agriculture. 2 450 ha in the Tsolo area and the rest near to the dam and along the river. Water requirements based upon average of 880 mm per annum application rate which includes losses/wastage.

## 24.3.4 Proposed Irrigation Areas

### 24.3.5 Determination of Farm Unit Size

Commercial irrigation farming relies of planting and harvesting at certain times. Timing can be critical. Shared use of implements sounds good in theory, but seldom works in practice. Everyone wants the implements at the same time. One method to determine farm size is according to justified economic use of a typical tractor and cultivation implements per farming unit: each farmer owns his own.

| Implement    | Number Required | Work rate |
|--------------|-----------------|-----------|
| 50kw Tractor | 1               |           |
| Plough       | 1               | 6 ha/day  |
| Disc         | 1               | 15 ha/day |
| Planter      | 1               | 15 ha/day |
| Cultivator   | 1               | 20 ha/day |

A 60ha farming unit would justify its own implements, based on the above work rates and a 35calendar day (21 productive day) critical planting window. The identified lands can be divided up into 45 rationalised farming units of between 40 and 90 ha each (ave 63.7ha).

### 24.3.6 Combined bulk water requirements

Including system losses:

- Potable water: 32.86 million m3/a
  Irrigation water: 27.76 million m3/a
- Total requirements to be supplied by Ntabelanga dam = 60.62 million m3/a
- excludes hydropower requirements

### 24.3.7 Hydropower Potential

Hydropower generation is possible:

- At Ntabelanga Dam 0.75 MW to 5 MW (average 2.1 MW)
- At Laleni Dam & Tunnel (used conjunctively with Ntabelanga) 15 to 30 MW continuous base load output.

### 24.3.8 Establish Wild Coast Special Economic Zone (WC SEZ) Hub

- WC SEZ Project Management Office Established with specialized personnel.
- Feasibility study completed by team of consultants. •
- WC SEZ Hub foot print around Mthatha Airport.
- Finalize Business case.
- Process to facilitate land acquisition for the SEZ Hub (500 ha).
- Ensure backward linkages to primary production & stimulate value chains.
- Submit SEZ designation application. •

# WC SEZ Hub & Regional Linkages

### 24.4 Africa's Best 350 Ltd

Africa's Best 350 Ltd (AB350) is a public company based in the Eastern Cape with its core business which is simply passenger bus services. The business boasts of 116 buses offering safe, reliable and affordable transport services to the people of the Eastern Cape. The company is building its structure for mechanical and body repair workshop in ward 4 Gungululu village in Tsolo. It has currently employed 420 permanent employees with indirect social impact spinoffs within the Eastern Cape.

# 25. CHAPTER FOUR: SPATIAL RATIONALE AND ANALYSIS

### 25.1 Spatial Development Framework

In terms of Section 26(e) of the Municipal Systems Act (Act 32 of 2000), every municipality is required to formulate a Spatial Development Framework (SDF) as part of its Integrated Development Plan (IDP). Considering the current pattern of land use and the nature of development in the municipal area, a Spatial Development Framework is required to describe in words and illustrations how the Municipality sees desirable future patterns of land use and development in its area of jurisdiction. In essence, it serves as an anchor document which guides the Municipality's spatial "Vision" of what the Mhlontlo Municipal area will look like in many years to come.

The Spatial Development Framework was adopted by the council on the 15/03/2011 and has been reviewed during the year 2018/2019. It is a legally enforceable component of the IDP,

which indicates both to the Municipality (Councillors and officials) and to the public (investors, developers and land owners etc.) where certain types of land use and associated developments are permissible, and where certain activities are unlikely to be permitted. As such, it forms the basis for land use management and serves as a guideline to inform the Mhlontlo Local Municipality in its decisions on land development (new development and changes to existing land uses) in its area of jurisdiction. Therefore, the Spatial Development Framework (SDF) also functions as a framework for public and private sector investment in different types or levels of development in those areas of Mhlontlo that have been identified as appropriate or suited to such development.

### 25.2 National Spatial Development Perspective and Spatial Distribution of Development Potential in Mhlontlo

The release of the National Spatial Development Perspective (NSDP) in 2009 has provided planners with a further tool in assessing the logical and most efficient arrangement of spatial priorities in a planning area.

For the purposes of the Mhlontlo SDF, it is useful to review briefly the proposed categories of development potential identified in the NSDP and to assess how and where this may apply in Mhlontlo Area, based on what is set out in the Mhlontlo IDP. These categories are set out in the Mhlontlo SDF, from the interpretation of the Mhlontlo IDP, it is proposed that they may be applied in the Mhlontlo Municipal Area as set in the Mhlontlo Municipal SDF.

## 26. CHAPTER FIVE: DEVELOPMENT OBJECTIVES

## 26.1 Municipal Priority Objectives

The municipal strategic objectives are formulated in line with Local Government's Back to Basics Approach. In addition, and in recognition of the selection of Mhlontlo as a rural development pilot project, rural development has been incorporated into LED key performance area.

| Strategic Focus Area (1)    | Delivery on Basic Services   |
|-----------------------------|--|
| Strategic Goal              | To ensure universal access to basic socio-economic services to communities and households. |
| Strategic Priority Area (2) | Institutional Capacity Building and Transformation   |
| Strategic Goal              | To build a strong and capable municipal administration                                     |
| Strategic Focus Area (3)    | Sound Financial Management   |
| Strategic Goal              | To be a financially viable municipality  |
| Strategic Focus Area (4)    | Good governance and Public Participation   |
| Strategic Goal              | A responsive, accountable, Inclusive municipal governance and administrative capacity      |
| Strategic Focus Area (5)    | 5. Local economic development  |
| Strategic Goal              | A thriving economy that creates wealth, employment, and sustainable livelihoods for all    |

### 26.2 Five-year priority objectives

## 27. CHAPTER SIX: REVIEW OF MUNICIPAL SECTOR PLANS

### 27.1 Status of Sector Plans

As part of the IDP, municipalities are required to formulate specific sector plans and policies. The purpose thereof is to ensure that clear and workable plans that interface and complement each other, in support of the IDP are in place. Sector plans must be updated or reviewed annually as part of the IDP review to ensure their alignment with the IDP. As the municipality we have covered considerable ground towards formulating the required sector plans. However, and as shown in the **table 56 below**, a number of these plans remain outstanding or need review.

| Sector Policy                                | Develop<br>ed<br>(Yes/No | Year of<br>Adoption | Last<br>Review | Planned<br>Developmen<br>t/ Review | Need<br>Review<br>(Yes/No) |
|--|--------------------------|---------------------|----------------|------------------------------------|----------------------------|
| Water Services Development<br>Plan (WSDP)    | No                       |                     |                |                                    | N/A                        |
| Three Year Capital Projects                  | Yes                      | 2020                | N/A            | 2023                               | No                         |
| Integrated Transport Plan<br>(ITP)           | Yes                      | 2013                |                | 2020/2021                          | Yes                        |
| Integrated Waste<br>Management Plan (IWMP)   | Yes                      | 2006                | 2015/201<br>6  | 2020/2021                          | Yes                        |
| Spatial Development<br>Framework (SDF)       | Yes                      | 2007                | 2018/201<br>9  | 2020/2021                          | Yes                        |
| Local Economic<br>Development Strategy (LED) | Yes                      | 2007                | 2018/201<br>9  | 2020/2021                          | Yes                        |
| Storm Water Management<br>Plan               | Yes                      | 2013                |                | 2019/2020                          | Yes                        |
| Integrated energy plans                      | No                       |                     |                |                                    | N/A                        |
| Communications<br>Strategy/Plan              | Yes                      | 2011                | 2017/201<br>8  | 2020/2021                          | Yes                        |

| Strategic Environmental<br>Assessment (SEA)  | Yes                      |                     |                | 2020/2021                          | No                         |
| Land Use Management Plan                     | No                       |                     |                | 2020/2021                          | N/A                        |
| Housing Sector Plan                          | Yes                      | 2006                |                | 2020/2021                          | Yes                        |
| Forestry and agricultural development plan   | No                       |                     |                |                                    | N/A                        |
| SPU Mainstreaming Plan                       | Yes                      |                     |                | 2020/2021                          | Yes                        |
| Tourism master plan                          | Yes                      | 2011/201<br>2       |                | 2020/2021                          | Yes                        |
| Ward Based Plans (Ward 02                    | Yes                      | 2014/201            |                |                                    | Yes                        |

#### Table 56: List of current and outstanding sector plans

| & 13)                |     | 5        |     |     |    |
|----------------------|-----|----------|-----|-----|----|
| Electrification 3YCP | Yes | 2020/202 | N/A | N/A | No |
|                      |     | 1        |     |     |    |

While critical, the development of the under-listed sector plans resides with other spheres of government.

Table 57: Delineation of responsibilities for sector plans

| Sector Plan                               | Responsible Sphere of Government             |
|---|--|
| Integrated Transport Plan                 | Local Municipality                           |
| Waste management plan                     | Local Municipality                           |
| Water sector plan                         | District Municipality                        |
| Energy management plan                    | Local Municipality (working closely with     |
|   | ESKOM)                                       |
| Disaster management plan                  | District Municipality and local Municipality |
| Environmental management and conservation | Local Municipality                           |
| plan                                      |  |

The municipality is accordingly, building capacity to develop and implement the abovementioned sector plans as well as review of the existing sector plans. Special attention will be given to those sector planning areas which are consistent with the development priorities of the Mhlontlo Municipal area and therefore alignment with other spheres of government and the IDP priorities.

#### 28. Performance Management System

Performance Management System refers to a framework that describes and represents how the municipality's processes of performance planning, monitoring, measurement, review and reporting will take place and be organised and managed, while determining the role of different role-players.

The Mhlontlo Municipality has developed a PMS framework and was adopted in December 2011. Performance contracts for the section 56 managers were signed by all senior managers and managers. Assessment Committee established and is conducting assessment on quarterly basis. The individual performance contracts are cascaded down up to the lower level of employees in all departments. The policy is in place and reviewed annually in order to align it with the IDP and to make it applicable to all the employees of the municipality.

### 29. Housing Sector Plan

In terms of Section 9 (1) of the National Housing Act 107 of 1997, every Municipality is required to prepare an IDP (Integrated Development Planning) as its macro development plan. In the preparation of such IDP the Municipality has to identify suitable land within its area of jurisdiction for various land uses, amongst those uses, housing is one of the critical

aspects of development.

The Municipality is required to prepare a Municipal Housing Sector Plan to guide housing related investment decisions as well as interplay of housing with other land uses. The Municipality is in process of reviewing its Housing Sector Plan where the Informal Settlements sections will be aligned to the Migration Plan. The Reviewed Housing Sector plan should cover the purpose of housing sector plan and updated housing demand profile of the municipality.

### 30. Local Economic Development Strategy

The current LED Strategy was reviewed in 2021/2022 and was adopted by the council during 2021/2022-year end. The LED Strategy is aligned with the National, Provincial and District objectives. This includes the Spatial and economic investment choices.

### 30.1 Mhlontlo Local Economic Strengths

| #  | What are we good at?   | How can we take advantage of these?   |
|----|--|---|
| 1  | Leveraging our indigenous forests and plantations                                | Expansion of labour intensive job opportunities   |
| 2  | Rapid growth in the number of<br>cooperative / SMME's development<br>initiatives | Strengthen our support measures for<br>cooperatives and SMMEs in respect of<br>registration and finance |
| 3  | Ability to attracting new investments  | Maintain a stable and investor-friendly economic environment  |
| 4  | Tourist attraction   | Continue to grow the Perennial Tsitsa falls and Tina falls as viable tourism products                   |
| 6  | Have a thriving trade sector   | Ensure proper land use management can promote tourism. Create more job opportunities                    |
| 8  | Effective skills development<br>programmes                                       | Ensure skills capacity development programmes are aligned to the local economic priorities              |
| 9  | Abundance of historical heritage   | Protect, develop and maintain heritage sites  |
| 10 | Good relations with sister departments   | Accelerate economic growth, job creation and reduce poverty   |
| 11 | Effective and efficient municipal administration                                 | Accelerate service delivery, and grow capacity to generate own revenue                                  |

### 30.2 Mhlontlo Local Economic Weakness

| # | Where are we most challenged by?                    | How can we overcome these challenges   |
|---|---|--|
| 1 | Inability to manage litter in Qumbu and Tsolo towns | Improve current waste collection and management strategies. Implement small town regeneration strategies |
| 2 | Poor enforcement of by-laws                         | Strengthen capacity to enforce by-laws   |
| 3 | High levels of economic leakages                    | Develop processing capacity in the strategic sectors in particular agriculture and forestry              |
| 4 | Weak implementation of SDF, Land Use Management     | Ensure strategic coherence and improve implementation capacity   |

| 5  | Limited equipment and plant to support  |  |
|----|---|--|
|    | agricultural development  | Fast track agri-parks implementation. Build  |
| 6  | Limited expertise in livestock value chain development (access to feed, channel to market)  | strong public and private sector partnerships  |
| 7  | Underdeveloped community tourism infrastructure   | Align infrastructure development plans with LED priorities   |
| 8  | Poor support for construction business (especially small contractors)   | Develop and vigorously implement small<br>contractor development programmes                                    |
| 9  | Weak alignment between projects and<br>budgets allocations<br>Limited capacity to undertake integrated<br>development and infrastructure plan | Strengthen internal planning capacity  |
| 10 | Poor stakeholder relations management<br>between traditional leaders and<br>government departments with respect to<br>land claims             | Enhance the stakeholder management and<br>communication strategies with traditional<br>leaders and land claims |

# 30.3 Mhlontlo Local Economic Opportunities

| Nature  | Opportunity   | How Can We Exploit It   |  |
|---|---|---|--|
| Political         Stable political environment in<br>Mhlontlo |   | Retain and expand investments   |  |
| Economic  | Natural endowments: Tsitsa<br>Falls and Tina Falls,<br>indigenous and forestry<br>plantations, good climatic<br>conditions, mining resources<br>(quarry and sand) | Accelerate agro-tourism industry growth<br>and development.<br>Create opportunities for beneficiation<br>and facilitate informal and formal sector<br>integration |  |
|   | Natural and heritage resources<br>(including san paintings, arts<br>and crafts, caves)  | Implement the Tourism Master Plan   |  |
|   | Subsistence livestock farming   | Facilitate access to market, finance and inputs.  |  |
| Social  | Social cohesion   | Expand opportunities for public private partnership   |  |
| Technological   | Being part of the broad band pilot  | Diversity the economy, grow the knowledge driven sectors, to improve competitiveness  |  |
| Environmental Good climatic conditions                        |   | Accelerate growth and development of the agricultural sector  |  |

| Nature      | Nature of the threat                                     | Likely Impact on the municipality   |  |
|-------------|--|---|--|
| Political   | Political Killings                                       | Threatens safety and security   |  |
|             | Increased risk of political<br>stability<br>(nationally) | Negative investment climate nationally likely to dampen economic growth prospects |  |
|             | Perceptions of political<br>interference                 |   |  |
|             | High unemployment rate                                   |   |  |
| Economic    | Stagnant economic growth                                 | Reduced capacity to address poverty and inequality                                |  |
|             | Unstable markets   |   |  |
| Social      | Immigration influx                                       | Xenophobic attacks  |  |
| Social      | Drug / Substance abuse                                   | Increased levels of violent crime   |  |
| Environment | Global warming, drought                                  | Threatens food security   |  |
|             | Land Invasion  | Threatens development   |  |
| Legal       | Crime and Robbery  | Threatens investment opportunities  |  |

### 30.4 Mhlontlo Local Economic Threats

### 30.5 Vision for Mhlontlo Local Economy

To be a thriving economy that creates wealth, employment, and sustainable livelihoods for all.

#### 30.6 Mission

### 30.6.1 LED Strategic Objectives

The LED Strategy is built anchored on four strategic objectives as shown below:

| Strategic Objective (1)  | Accelerate employment creation, and alleviate poverty |  |
|--|---|--|
| Strategic Objective (1) Target strategic economic sectors for growth and developme |   |  |
| Strategic Objective (3)  | Retain, expand, and attract investment                |  |
| Strategic Objective (4)  | Enhance municipal capacity to drive LED               |  |

As the Mhlontlo Local Municipality was announced as pilot site for rural development, the rural development is under the directorate of LED. The LED forum was converted to be a broader forum that is Council of Stakeholders. It is composed of Senior Officials from Sector Departments, Mhlontlo Municipality Senior Managers, Portfolio Councillors, Mayor, Community Development Workers, Traditional Leaders, Council of Churches, Government Parastatals and other Community Based organisation. The role of the Council of Stakeholders is to play an oversight roll to the LED and rural development programmes.

**Comparative advantage**. Mhlontlo has a very large comparative advantage in the community services sector followed by the trade sector. The trade also has a comparative advantage when comparing it to the South Africa economy as a whole, although less prominent. Mhlontlo has a comparative disadvantage when it comes to the mining and manufacturing sector.

**Competitive Advantage:** Mhlontlo has a potential in animal production as result the number of cattle is 58 552, sheep 549 315, goat 149 304, horses 5 109 and donkeys 98. It also has two large rivers (Tsitsa and Tina) that can be utilized for household consumption and irrigation.

### 31. Disaster Risk Management Policy Framework

The term disaster risk management refers to integrated, multi-sectoral and multi-disciplinary administrative, organisational, and operational planning processes and capacities aimed at lessing the impacts of national hazards and related environmental, technological and biological disasters. Disaster Management Act 57 of 2002 has define. The Mhlontlo Local Municipality has adopted the District Disaster Risk Management Policy Framework and the Mhlontlo municipality has developed its Disaster Management Plan.

### 32. Human Resource Development Strategy (HRDS)

The Human Resource Development Strategy was developed and approved by the council during 2011/2012-year end, in its many forms and formats and was last reviewed in 2017/2018, it provides an understanding of when and how team members will be applied to the projects and to what degree. A natural extension of the projects plan, the human resource strategy defines what resources are required to achieve the programme goals.

A Human Resources Development Strategy reflects on staff establishment policy, critical and scarce skills required by the municipality to be able to implement its strategic objectives. The Strategy include *inter alia* recruitment, replacement and retention policies. It also builds internal and external capacity through training, development and skills development.

### **33. Communication Strategy**

This Communication Strategy is a guiding framework for communication in the Mhlontlo Local Municipality and their agencies. An integrated and effective local programme will serve as a backbone of an overall societal communication system that will be anchored by growing partnership among various sectors of civil society.

Institutional challenges to be addressed by this strategy include ensuring that the centre led by the Mhlontlo Local Municipality assisted by the Office of the Premier and GCIS in the Province. It is able to hold and lead local communication, stakeholder mobilisation and Information Management System.

### 34. Ward Based Plans

The Mhlontlo Local Municipality has conducted ward based planning in two wards in collaboration with the Department of Rural development and Land Reform. The ward-based plans were piloted in ward 02 and ward 13 but these plans need to be reviewed. This Ward Based Planning program in Mhlontlo Local Municipality started with a launch of the program on the 6<sup>th</sup> of February 2015. Ward Councillors from affected wards, Traditional Leaders, School principals, Business Fraternity, Ministries from churches, Labour Unions, NGOs, National Department of Rural Development and Land Reform OR Tambo Dristrict

Municipality and Mhlontlo Municipal Officials were part of the programme.

# • Prioritised Outcomes for ward 13

| Pri | oritised Outcomes                                 | Number of Votes |
|-----|---|-----------------|
| a.  | Better education and skills                       | 127             |
| b.  | Accessibility by roads and communication networks | 124             |
| C.  | Food security by households                       | 107             |
| d.  | Sustainable income from crops and livestock       | 75              |
| e.  | Better health for people and livestock            | 55              |

## • Prioritised Outcomes for ward 02

| Pri | oritised Outcomes            | Number of Votes |
|-----|------------------------------|-----------------|
| a.  | Access to roads for mobility | 36              |
| b.  | Improved health              | 26              |
| C.  | Sustainable income           | 22              |
| d.  | Skills development           | 14              |
| e.  | Better education             | 14              |

# **35. CHAPTER THREE: DEVELOPMENT STRATEGIES**

## 35.1 Vision

A responsive, stable and accountable municipality that improves people's lives.

## 35.2 Mission

To achieve the above vision, the Mhlontlo Municipality "*aims to deliver sustainable quality services, in an effective and efficient manner, through meaningful participation by all stakeholders*".

# SWOT ANALYSIS

## 35.3 Our Strengths

- Council consistently meeting as legislated and Council Committees functional
- Oversight structures fully functional and anti-corruption policy in place
- Compliance with national and provincial legislation
- Ability to address service delivery protests
- High levels of community participation in IDP processes
- Good relations with Traditional leaders
- Functioning ward committees
- Politically stable
- HR Policies and administrative procedures in place
- Financially stable
- Communication with stakeholders
- Four police stations within our jurisdiction
- Fully Functional Bid committees
- All Municipal assets are insured
- King Palace/Great Place
- Three hospitals
- Coordination of IGR
- Rich History and cultural heritage
- Strategic location to N2 to Cape Town & between Durban and East London
- Effective Spatial Planning and Land Use Management

#### **35.4 Our Weaknesses**

- Inadequate implementation of policies, by-laws & procedures
- Revenue base is limited
- Very low debt collection rates
- Poor supplier/contract management
- Late delivery of documents to councillors as per Municipal Standing Rules
- Anti-corruption policy not being implemented
- Some municipal by-laws are not gazetted and cannot be enforced.
- Poor staff discipline (late coming)

- Existence of displaced and excess employees
- Lack of staff retention strategy (critical and scarce skills)
- Lack of succession plan and talent management strategy
- Weak monitoring and evaluation of existing projects
- Limited own capacity to roll out and maintain roads infrastructure
- Poor reaction time to mechanical breakdown (maintenance of plants and building)
- Excessive personnel costs
- Inconsistent participation by Councillors in Oversight Committees
- Poor management of performance
- Inadequate hard and soft infrastructure (ICT)
- Poor enforcement of by-laws / Policy
- Dependency of municipality on grants
- Poor coordination of Technical IGR
- Land invasions
- Negative audit opinion resulting in limited ability to attract funding
- Returning of grants and withholding of equitable-share by treasury
- Critical posts adequately staffed
- Policies, by-laws and procedures in place
- Ownership of a fully-fledged plant with enough machinery
- In-house capacity to carry out limited roads maintenance

# **35.5 Our Opportunities**

- Natural Resources
- Wide District municipal support
- Umzimvubu multi-purpose project
- Broadband
- Tourism
- Using Municipal Infrastructure support agent (MISA) for the Asset management plans
- AmaMpondomise Kingdom
- Participation of Traditional Leaders in the council

## 35.6 Our Threats

- Crime
- Unemployment
- Land claims
- Land invasions
- Climate change
- Load shedding
- Influx of foreigners
- Vandalism of properties

| KEY PERFORMANCE AREA | 1. DELIVERY ON BASIC SERVICES  |
|----------------------|--|
| Key Challenges       | <ul> <li>The ageing infrastructure is compromising the delivery of services to communities</li> <li>Existing infrastructure with poor maintenance and without a clear plan</li> <li>Turnaround time for implementing projects extra ordinarily long</li> <li>Poor sewerage and drainage systems compromising the health of residents</li> <li>Land invasions, claims and unregulated use of land, land ownership</li> <li>Challenges with access to land.</li> </ul> |
| Strategic Goal       | To ensure universal access to basic socio-economic services to communities and households  |
| NDP                  | Bringing about faster economic growth, higher investment and greater labour absorption   |
| PDP                  | Vibrant, equitable enabled communities   |

| KEY PERFORMANC    | E AREA 4. GOOD GOVERNANCE AND PUBLIC PARTICIPATION  |  |  |  |  |  |  |  |  |
|-------------------|---|--|--|--|--|--|--|--|--|
| Strategic Goal    | A responsive, accountable, Inclusive municipal governance and administrative capacity   |  |  |  |  |  |  |  |  |
| NDP               | <ul> <li>Promoting active citizenry to strengthen development, democracy and accountability</li> <li>Encouraging strong leadership throughout society to work to resolve problems</li> <li>Focusing on key capabilities of people and the state</li> <li>Building a capable and development state</li> </ul>  |  |  |  |  |  |  |  |  |
| PDP               | Goal 5: Capable conscientious and accountable institutions  |  |  |  |  |  |  |  |  |
| National Outcomes | Outcome 9: A responsive, accountable, effective and efficient local government system   |  |  |  |  |  |  |  |  |
| Key Challenges    | <ul> <li>Public participation including the involvement of communities and community-based organization is not at the desired level</li> <li>Poor internal control environment results in the fluctuation of audit opinions and the-nonattainment of a 'clean' audit opinion</li> <li>Inadequate system of delegation stifles municipal operations and is cost ineffective such as intermittent and/or temporary appointment of senior managers reserved for the municipal council</li> <li>Poor intergovernmental relations between Mhlontlo LM (MLM)and O.R. Tambo DM, as a result of which the water services function is perceived by MLM to be poorly executed</li> <li>Inadequate focus on some special programmes results in poor attention to matters affecting focus groups</li> </ul> |  |  |  |  |  |  |  |  |
