The review housing Sector Plan Review	RHSP/LEDPARD/2022-23	14/12/2022	30 January 2023 @ 12H00 PM

Mhlontlo local municipality is requesting quotations from suitable qualified service providers to the review of Mhlontlo housing sector plan

2. Specification:

INTRODUCTION

As part of its legislative mandate; local government is required to develop its communities. Mhlontlo Local Municipality has identified the need to have an updated strategic document that intends to inform and guide the Municipality in the allocation of resources with regards to housing, access to services, administration, and socio-economic realities.

BACKGROUND

In terms of Section 9(1) of the National Housing Act 107 Of 1997, it is a prerequisite that every municipality as part of the municipality's process of integrated development planning acquire all reasonable and obligatory steps to ensure that people within its area of jurisdiction obtain access to adequate housing on a progressive basis by setting goals for housing delivery, identifying appropriate land for human settlements development and planning, facilitating, initiating and co-ordinating human settlements development in its area of jurisdiction.

Mhlontlo Local Municipality is a small municipality which is mostly made up of rural areas that are under traditional council. It has two urban centers which are Qumbu and Tsolo. The majority of the poor communities' areas that are under traditional council still survive under poor accommodation with no access to basic services such as water, sanitation, refuse removal and electricity. Even those who have jobs find it difficult to sustain a decent quality of life as they fall outside subsidy bracket but at the same time are unable to afford and access mortgage products available from commercial banks.

The purpose of these terms of reference is to appoint a Service Provider that will review a Housing Sector Plan in terms of appropriate legislation and manage all key milestones.

APPROACH

The terms of reference are the municipality's point of reference, with which it will engage the service provider.

The Municipality expects the successful service provider to undertake the reviewal of a Housing Sector Plan in line with legislation and policies at various government levels. The service provider will also provide recommendations to the Municipality on the suitable approach with which the project will be best implemented.

OUTCOMES AND DELIVERABLES

- Comprehensive Human Settlements Sector Plans for the entire Mhlontlo Local Municipality.
- Compiling credible and recent research on all social, economic and demographic issues impacting on housing planning and delivery for the entire Mhlontlo Local Municipality;
- Workshop reports;
- Progress reports (monthly); and
- Presentation of all documents to the relevant committee/s
- A hard and a soft copy document
- Spatial Maps and shape files.

Project Area

PHASE 1

Consultation

The service provider in consultation with the Municipality will be expected to design and implement a consultation process plan.

Consultation is central to this development process and assumes critical significance when dealing with development that involves more than one organisation/party. The Service Provider needs to

communicate and consult with the municipality in order to be effective but they also need to exchange information with other relevant stakeholders which necessitates lateral communications. Failure to recognise this need may lead to discrepancy of approach.

The consultant is required to engage in this process plan, ensure that all issues are captured within the required timeframe and ensure that all relevant stakeholders are included throughout the process. The Service Provider shall participate in stakeholder meetings and produce information material for stakeholders as required, but guided by legislation or policies.

Housing Sector Plan

The Service Provider will be required to review and update the existing Housing Sector Plan.

Deliverable

- A reviewed and updated Housing Sector Plan

Feasibility analysis

A feasibility analysis report for the project will be expected. The five principle areas of feasibility that the Service Provider is expected to take into consideration are technical, economic, legal, operational and scheduling.

Technical: Is the project technically feasible? The Service Provider has to overview technical capabilities of the organization, including the availability of skilled staff and appropriate facilities.

Economical: Is the project affordable given the economic resources available? Even if it can be afforded, is the projected return on investment sufficient? A project that is simply too expensive and which doesn't offer sufficient economic benefits is not feasible.

Legal: Is the proposed venture in compliance with applicable laws and regulations?

Operational: Is the project in line with the operations and objectives of the organization?

Schedule: Given the recommended schedule, is it realistic to expect that the project will be completed on time? If the project takes too long to complete, costs can escalate and the overall feasibility can be negatively affected.

Key document

- Inception report
- Legislative and policy background critique review
- Location and general analysis
- Strategic framework review
- Project pipeline and capital budget
- Integration report
- Approved and adopted housing sector plan
- Spatial Illustration of projects, demand and backlogs in ward-based approach

PHASE 2

Implementation plan

The implementation of the outcomes of the project will be the responsibility of the Municipality. The project must, however provide guidance to the Municipality for the implementation with indicators and responsibilities to achieve this. The Implementation Plan is designed to be a key resource for the municipality in ensuring that the goals and policies of the Housing Sector Plan are reflected in day-to-day municipal operations and services including preparing plans and programs, reviewing development proposals, and maintaining infrastructure. The implementation plan must also consider the institutional arrangements and capacity. Implementation Plan should address specific actions required of the municipality.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
